EXPLANATION OF THE NAME 'THOMAS PRINTZ' USED IN "BRIDGE" PUBLICATIONS

****

Beloved Morya El is the Chohan of the First Ray, and Beloved Saint Germain is the Chohan of the Seventh Ray, and as this is the close of the Cycle of 2000 years, the two Rays meet again - as the Law of the Circle is the Law of the Universe. Beloved Morya El, in an endeavor to assist Beloved Saint Germain, Who had taken on the responsibility for the expansion of this Light to ALL the people of Earth, thought of a Plan whereby this could be accomplished more quickly. He told it to Saint Germain, and They both went before Beloved Helios and Vesta in the Heart of the Sun and asked permission to try this Plan out. They received that permission, and Beloved Morya wrote a few letters to those He considered 'likely' individuals who would listen to Him and cooperate with Him.

When Beloved Morya first began to put this New Endeavor before the public, He intended to stay 'behind the veil', so to speak, as an Ascended Being for reasons He, in His great Wisdom, knows best. He assumed the 'pen name' of THOMAS PRINTZ, rather whimsically, He told us, because He always like the name 'Thomas' --having used it in many of His embodiments BEFORE THE ASCENSION, and 'Printz' just to show that 'Tom was printing'. That is all there is to it. THOMAS PRINTZ IS the Ascended Master, Morya El, the Beloved One who has worked through Theosophy and many other endeavors to raise the people of Earth to their true estate as Sons and Daughters of God through pure, selfless service to Life on this planet and elsewhere.

THOMAS PRINTZ' PRIVATE BULLETIN

No. 1 May, 1952

****

Condensed notes on the current activities at the Ceylon Retreat which is dedicated to the Flame of the Holy Spirit and now in charge of the present Maha Chohan. Retreat open from May 15th to June 14th, 1952.

From the Heart of the Sun, at the inception of humanity's journey upon the physical structure of the planet Earth, came the first Representative of the Holy Spirit, and through His body was focused the initial impulse of that Flame which is the true nature of the completed and matured God-Being.

When humanity began incarnation upon the planet Earth, the first great Kingdom was a natural one of innocence and gentle, child-like beauty wherein the Life Principle was developed in Love. These beautiful qualities enabled this entire civilization to complete its Round without suffering, hardship or pain, and when the Great Manu of the First Race or Round, its Christos and Maha Chohan, returned to the Heart of the Father, the First Day was completed.

Each successive Maha Chohan has the increasing responsibility of a nature kingdom which, through provocation, works in less complimentary harmony with its evolutionary mankind, and so the second and third Rounds were a little longer and more difficult of accomplishment; but eventually the Second and Third Rounds were completed, and the Manus, with Their accompanying Christos and Maha

Chohans, returned with an emancipated people to God's Bosom. The Fourth Round has yet to be completed, and that - as well as the Fifth - are under process of redemption at the present time. The Sixth has yet to enter on the stage of life, although there are many Sixth Round people at present actively engaged in this great task of liberation today.

The above dissertation is necessary in order to make plain and understandable the present activities at the Ceylon Retreat.

****

The present Maha Chohan, Who is Keeper and Watcher of the Flame of the Holy Spirit established in this Retreat so many ages ago, and for which each succeeding Maha Chohan is responsible, invited the first three Maha Chohans to this Conclave, and to His great Joy, They accepted, and are His Guests during the thirty days the Retreat is opened. The First Maha Chohan, at the opening of the Council, addressed the assembled guests (composed of ascended and unascended mankind - many of the latter in the bodies of their Holy Christ Selves) and the following is a short excerpt from His Discourse:

"O mankind, who seeks knowledge whereby to attain happiness, know that your lesson lies within the contemplation of Love. Let Me point you to the love within the Kingdom of Nature which, on the evolutionary scale, lies far below the potential power of man - Nature - which mirrors so much more of God Love than you who are pre-chosen to be the Lords of Creation.

"Through the Body of Nature comes all the substance to sustain the physical bodies of all life expressions. Without the gifts of Nature, her food and clothing, no physical bodies could endure for a period of more than a few short months.

"In return for her gifts, which furnish your bountiful tables, She receives back into Herself the poisonous excrement of breath and body, and finally the very decadent garments which you have worn.

"All this with patience that is not of a century, but of so many countless aeons of time that it would stagger the human mind to even contemplate it.

"Can you say as much for yourselves? Are you willing to absorb the evils of each other and actively replace them with the substance of Happiness and Good?

"The rhythm of Nature is a constant refinement of the human race or a natural purification by the chemical action of self-conscious beings, coupled with the actual throwing off, by the same chemical means, of the worn-out particles of the human body and then the renewal of the body and brain substance of the race, which is also a conscious and positive action of Love.

"I speak of Nature today, not only to make man aware of the Love Principle that is within it, but in gratitude to countless millions of intelligences engaged in the Service of Mercy, and to point out to the souls of men the Activity which must replace the present consciousness that refuses to lift the load or share the burden of

these beings, because until this consciousness is replaced, man cannot come under the beneficent protection that the Natural Kingdom will afford in the cataclysmic changes.

"If Nature serveth you by taking the excrement of your body, the carbon dioxide of your lungs, and the decadent flesh of your garment, and with loving, gentle hands, gives you in their place the leafy green, the fragrant blossom and the soft warm wool or gracious silk, and you cannot take the conscious or unconscious discord of your fellow-man, consciously consume it and, more than that, give back a gift of tolerant, forgiving and raising Love, you have not earned the right to live above Nature's Kingdom, or even parallel with it.

"I speak because the hour comes when we must have in incarnation those who are, at least, equal to the Nature Kingdom. We do not ask that they be superior to it."

WHITSUNTIDE

This great Feast Day was celebrated by a great concourse of ascended and unascended beings who joined in the intensification of the Flame of the Holy Spirit, and for the first time in the history of the planet, unascended beings became contributing factors to the intensity of the Flame and to the expanded sphere of Its influence.

All in white, the Brotherhood came, and all in white were clothed the inner bodies of those who directed their attention toward the Retreat,

either for help or service. The Flame Itself, within the Heart of the Sanctuary, rose like a white column, and on the raised dais stood the four Maha Chohans (the first three and the present Great One) and the Lady, Pallas Athene.

At a given signal, each member directed the beam of his own energy into the Flame, and through the added fuel, there began an expansion that covered a major portion of the Eastern Hemisphere, and there was re-directed by conscious outposts in the Western Hemisphere as well.

This release is a Grace of 'the hunger and thirst after righteousness' into the feelings of the peoples of Earth. This Activity continued for twenty-four hours - from the midnight preceding Whitsuntide until the midnight following - each Chohan successively becoming the Officiating Master, directing the focusing and then the expansion of the Flame.

At the close of the Cosmic Activities, We shall re-enact again, for the pleasure of the company, those particularly significant experiences where the Spirit of God took more than ordinary effect in the consciousness of man through a visitation of some intensity of the Holy Spirit. Whenever possible, the original actors who formed the heart center of the Christ Pageant will be in the positions that they occupied at that time, and where spiritual endeavors or duties have called Them from the Conclave, Their places will be taken by suitable representatives.

The Master Jesus Himself has prepared a Pageant of Whitsuntide, which is the outpouring that

gave the Disciples the capacity to perform more than ordinary service, and as hundreds of thousands will witness its re-enactment (in their inner bodies) they will receive the feeling with which the original beneficiaries were charged who took part in that first service.

The finding of the Holy Grail by King Arthur's Knights, which is the Consciousness of the Christ through the Office of the Holy Spirit, will also be enacted, as well as many of the accomplishments and activities of these Gentlemen of the Round Table. Many of these are in embodiment today and, wherever possible, they will take the same parts they took in the original drama - in their inner bodies, of course.

The beautiful scene depicting the spiritual intervention of the Third Person of the Trinity in Lemuria and Atlantis and those early Golden Ages will be enacted to charge the feeling world of the people who did not achieve the Ascension at that time, and who have forgotten their participation in such a holy outpouring.

At the end of the series of these representative pageants, Pallas Athene and the present Maha Chohan will re-enact the roles of the First Holy Spirit or Maha Chohan and His Divine Consort in receiving from the Sun the Flame of the Holy Spirit, anchoring It within Their own Hearts, and then descending to establish It in the present Retreat at Ceylon at the beginning of Time.

When the pageants close, there will be a course of intensive training given in the gifts that lie within Gentleness, Harmlessness, Humility and selflessness. These classes will be conducted by the four Maha Chohans, assisted by the Seven Chohans of the Rays, as well as the resident Brothers of the Retreat. All aspirants are asked to direct their consciousness to this Retreat, not only before retiring to sleep, but also by day, during the remaining days of the Conclave.

Further activities will be reported in a later Bulletin.

(Activities at the Ceylon Retreat through June 15, 1952)

The Magnetic Power of each Retreat does not go into action until the very instant the preceding Retreat completes its outgoing rhythm lest, at inner levels, the souls be swept into the current of the new Retreat before the Retreat of the month has given the maximum of Its blessing to Life. There is an exact moment when the magnetic currents begin to draw the souls of men, and an exact moment when that connection is severed in favor of the next outpouring.

The intensity of the Flame and Powers focused through each Retreat is increased by each member of the ascended or unascended mankind who voluntarily or unconsciously join the Conclave. The periphery of the Sphere of Influence to which the benefits and gifts of the Retreat may reach is, in like manner, determined by the intensity of the Flame drawn and focused by such participating lifestreams.

Because of the free will of man, We cannot be sure, beforehand, of how many will attend, or how far the benediction will reach, or with what potency or power. It is, therefore, always gratifying to have the response exceed our hope because the greater blessing is derived for all peoples.

Can you imagine, for a moment, the delight of

the Hierarch of the Retreat when the magnetic currents set up, which represent His Gift to Life, begin to draw in on the Rays so many thousands and thousands of Torches for that Flame? This was My experience, and although the Brotherhood was pressed to exert every available ounce of energy, and although the harvesters were not nearly enough to fulfill the demands, yet by this experience are We gratified, for We will be better prepared at each successive Council by calling more volunteer Teachers from Inner Levels to 'feed the sheep'.

****

Mankind, in contemplating the activities of the Godhead through His Representatives, so often makes the blessings and the gifts of the Masters abstract and ephemeral. Yet, the most mundane activities in which the personal self is engaged, when constructive, come under the direction of the Chohans of the Seven Rays; and all the channels which contribute to the Comfort of Life, to the well-being of peoples, are under the direct supervision of the Third Person of the Holy Trinity, and Myself as His Representative in the world of mankind. The magnetic pull of a complementary vibration drew great numbers of these people to the Ceylon Conference, not only conscious students, chelas, and spiritually-minded individuals, but those from among the masses who have voluntarily chosen to hold the Office of Comforter to groups of people through the medical profession, the religious orders, the educational channels, the world of art, literature and music, and specifically the world of science and invention which contributes no small part to the comfort of the people of Earth

and the Nature Kingdom - witness mattresses, easy chairs, automobiles, vacuum cleaners, and so forth.

My Seven Sons (the Chohans of the Seven Rays) have been delighted with the attendance and engaged in the tremendous task of receiving all individuals who work under any of the ramifications of Their particular Rays, endeavoring to raise such potential server to his highest possible manifestation of good in his capacity to serve life.

This Council will have a marked effect in the forward movement of constructive energies through inventive endeavors, mechanical perfection, architecture, etc., as well as forward the impulses for a much higher type of music, drama, and literary perfection, which shows you some of the possibilities and promise that come within the scope of the Masters' beneficent Powers when the Flame in any Retreat is intensified and fed by focusing Cosmic and world energies and attention into it at a given time.

The Master Morya was specifically engaged in receiving and instructing the inner consciousness of the statesmen and practically inclined individuals whose constructive desires and interests drew them (consciously or unconsciously) to the Conclave.

The Master Kuthumi has been expending every effort, together with His body of chelas, in receiving and offering intensive training to the individuals who represent the parents, teachers and guardians of the younger generation, as well as the spiritual leaders of the race.

The Great Venetian, Paul, has spoken to the entire Conclave once every twelve hours on the necessity for the development of tolerance and understanding and Brotherhood in all the seven avenues of service. His reminder was potent: "Remember, however, that Tolerance is a virtue which can soon run to seed and become indifference!"

The Master Serapis had a double task because He not only works in the fields of beauty, art and architecture, and the actual designing and inspiring of future Temples, homes and cities, but through His Cosmic designation as the Master of the Year, He must perform the service of uniting the outer consciousness of every lifestream who comes to the Retreat with the essence of the lectures and the particular instruction of each twenty-four hour period so that none go away without a permanent enrichment of consciousness. To this end He has had to draw the Holy Christ Selves of each one who has been given the first grant for the experiment allowed by the Karmic Lords at the January Conclave from the Fourth Sphere to ensure Its presence and cooperation at this time.

The work of Hilarion has been to meet and assist those whose service in the outer world lies in the realms of science, inventive genius, medical perfection and, wherever possible, correlate the findings of science with the Truth of Spiritual Law.

The Master Jesus was Host to the Christian teachers and all those working along devotional religious lines. Here, He was enabled to open the inner consciousness to a greater receptivity

to the Truth through dissolving of the orthodox barriers and superstitions.

Then - the Beloved Saint Germain! In January of 1952, the Holy Christ Selves of the entire human race asked for a dispensation whereby human free will would be set aside and They allowed to cooperate in the Cosmic Push of the hour through the personalities which They had sustained through the centuries. The Lords of Karma, together with a Messenger from the Great Central Sun, made a partial grant to two thousand particularly prepared individuals as an experiment. The result of Their endeavors will be reported on June 30, 1952 at the Royal Teton Conclave.

The Master Saint Germain became Sponsor for each lifestream who volunteered and was accepted; and so it became His great duty, along with His usual Activities in instructing individuals in the drawing, focusing and directing of spiritual energies, to hasten the liberation of the sense consciousness, and to provide a way and means by which the outer mind might be connected with the plans of the Brotherhood.

He has labored, without rest, this entire thirty-day period - twenty-four hours around the clock, receiving those particular individuals, talking and coaxing them toward cooperative action. Perhaps you can understand the Love in My Heart for this Son, not only in His Hope, but in His Service. I said to Him: "Son, let Me, for an hour, stand guard over those who are coming in on Your Ray, and You find relaxation elsewhere." But He did not leave His post, nor has He left it since first He took His Vow.

(Activities at the Great Rocky Mountain Retreat from June 15th to June 21, 1952)

The opening of the Great Rocky Mountain Council Halls fills Us all with anticipation as We wait for the report of the first six months of the year 1952 through the cooperative action of the Holy Christ Selves of the outer personalities of the selected group whom the Great Central Sun Messenger designated as the experimental individuals, the result of whose activities will determine how much greater grant could be made for the remaining six-month period.

These early days have been filled with the preliminary councils and the various Masters bringing in the Petitions and Plans which are to form Their specific activity for the remaining period of 1952.

The Great Central Sun Messenger will again favor the Retreat with His Presence on the 30th of June, and the Karmic Lords will examine the results of the experiment and have presented to Them the actual individuals who, through their outer personalities, have cooperated with the endeavors to spread the Light of Truth across the face of the Earth.

As We can count on some of the powerful Messengers of Saint Germain among this Selected Group, we are very hopeful that a larger dispensation, including a much greater number of souls, will be included in the second Grant.

Only a few of those who have been chosen, and whose Holy Christ Selves have been endeavoring to work through them, have not responded; and We are hoping that, before the 30th of this month, We can count them, too, among Our number of co-operative spirits.

Be it known that in Shamballa are recorded the names of the souls whom the Great Central Sun allowed to form the innermost circle of this Spiritual Endeavor, and those who have not responded will be asked to show cause before the entire Assembly and the Karmic Council, so that all may see in what way we can remedy this condition and so avoid repetition of it in the future.

Excerpts from Instructions given at the Retreat on CAUSES

There are Causes born in Heaven's Realm which are Divine Ideas projected from the Heart of the Sun of the System, or generated through the Heart Consciousness of any Being who has achieved the Christ Estate.

Individual lifestreams who become interested in such a Cause are not, of necessity, its creator. For instance, the CAUSE OF FREEDOM was a God-intent from the Heart of the Great Central Sun itself, and the Master Saint Germain, in contemplating the Godhead in selfless devotion and adoration, perceived that Idea of the Father for the planet Earth and her people. He then made that Cause His own, offering, before the Throne of Heaven, to invest His energies, intelligence,

and life-purpose to manifesting its effect for all men, the Nature Kingdom and the planet upon which humanity is presently evolving.

The development of the ways and means of unfolding the Cause of Freedom was left to the Initiative of His own God Inspiration, and the interesting of lifestreams in that Cause to a point where they might volunteer to become a part of the motivating power behind its manifestation, also became His personal responsibility.

Such Cosmic Causes are always ensouled by a Cherubic or Seraphic Being at Inner Levels, whose voluntary service is to keep alive the momentum gathered by the Sponsor during the time while he is incarnate, effecting the details of the Plan, and during the time, at Inner Levels, while He is using His energies to interest consciousnesses to assist Him. These Cosmic Angels, on occasion, send one of Their Legions to render the same service through a group of incarnate spirits when the service is more than ordinary.

The designing of a Universal Scheme by a pair of God-Intelligences fills the Universal Oval, which forms the periphery of that particular creation, with more potential God-Ideas than there are grains of sand on the sea-shore, or drops of water in the ocean, or stars in the heavens. These are the germs of future greatness, and, from observation, it has been found that the Intelligences belonging to other systems of greatly advanced evolutions have not come anywhere near utilizing or unfolding the potential perfection that is theirs for the asking.

When the Great Master Saint Germain grasped

the desire of the Godhead, to give fullest Freedom to His Creation, so far as the planet Earth is concerned, in the Inner Realms was begun a Fire Temple in which He placed the Initial Impulse of this Flame, and here came the Cherubic and Seraphic Hosts who have remained in constant attendance to that Flame through all succeeding centuries.

In the Inner Spheres, the discarnate realm, as well as the incarnate realm, it became the individual responsibility and obligation of the Master, while yet transmuting His own karma, to foster the Cause of Freedom, and, in any manner that He could effect an interest in such a Cause, forward His Design. Imagine the magnitude of such a task! Of course, in the realm of the Holy Christ Selves where such great freedom and clarity of consciousness are present, it is not difficult to secure the interest and cooperation of life; but in the realm of the discarnates, where so many of His pupils dwelt between embodiments, and in the realm of incarnation where He, too, was bound by karmic limitation, it was a most difficult task. BUT - because He has not the Power of His Personal Magnetism in a human form, He has lost, to a degree, a certain influence on flesh bodies, although gaining in the Inner Realms much Freedom; and it is, therefore, up to the people who yet wear the bodies of form, and who are His friends, to represent that Freedom Cause, and spread it with power and positive assurance.

There are tentative plans for the education of the young people who are the hope of the future. This Activity comes under the direction of the Master Kuthumi Who has been interested in this important question for many centuries, and Who, as Pythagoras, established His famous school for young people at Crotona in early Greece.

There are also plans, yet to be worked out, for establishing transmitting centers at strategic points on the Earth's surface whereby instructions, as well as protective radiations, can be sent to all points on the Earth's surface through trained students by the Masters in charge of that part of the Work.

No. 4 June, 1952

****

(Activities and Instructions at the Rocky Mountain Retreat from June 22nd to 29th, 1952)

From out the centuries of darkness, the planet Earth and her peoples are now standing upon the threshold of a Light that shall never again be extinguished, but will grow into the Cosmic Eternal Day in which the fullest manifestation of the potential plans for the planet Earth, its humanity and its chain will be understood and made abundantly evident.

In this significant year, we are setting into motion the actual Causative Centers through the consciousness and vehicles of chosen chelas by which We may tie the Cosmic Plan into the substance and energy of the Third Dimensional Plane. It is the actual 'bridging of the chasm' between the consciousness of the people and the etheric perfection already designed and lowered into the Seventh Sphere and which forms the pattern for the combined activities of the Brotherhood in this current twelve months. It is Our hope and intention that through the etheric counterpart of each lifestream (whose dwelling-place is the Seventh Sphere) the outer consciousness may be awakened to the Plan and to the individual possibility to serve in that Plan for the good of the entire race.

The connection between the Higher Mind and the outer consciousness of the individual, not being, for the most part, sufficiently developed,

the Lords of Karma have permitted the use of this activity to acquaint the outer consciousness of those who have signified themselves as ready to cooperate with the Plan in order to hasten the execution of the details and ramifications which will tremendously accelerate the entire service without waiting on the individual development of each integral part which, however, will be nurtured and encouraged at the same time.

There are a goodly number of fine people whose heart motivation is to serve Life and the Master Presence of the Universe, but their service and endeavors must be co-ordinated through the direction of the outer intelligence in order for it to have the efficiency of unified endeavor.

Tonight the Great Karmic Lords will again enter into the atmosphere of Earth and take up Their solemn duty in the Council Hall, and Their decisions will determine the activities of the Brotherhood for the remaining six-month period of this Pivotal Year.

Volumes could be written alone on the tremendous endeavor put forth by every member of the Brotherhood attending these planetary Councils over the last two weeks, and the exquisite and efficient plans that have been prepared for presentation to the Lords of Karma and the combined assemblage in this most important half-year period.

Last evening, the Seven Chohans, in successive order, addressed the Assembly which included a great number of the inner bodies of mankind; and Their Word and Message brought tremendous inspiration, hope, enthusiasm and promise that

the coming six months will see even greater actual co-ordination and endeavor through self-conscious, illumined and willing lifestreams who have dedicated themselves to the task at hand. The Chohans have other Plans and Petitions which They will place before the gathered Assembly tonight which will be augmented by the Presence of the Lords of Karma Who will hear and weigh all Petitions placed before Them by both Ascended and unascended Beings.

It is difficult to confine the magnificence of the Chohans' addresses to a few short words, but the following small excerpts are taken from notes made of their talks.

The Master Morya, Who secured from the Karmic Council the right to establish this New Order of contacting the consciousness of certain dedicated spirits through the present means, proved, through His chelas, not only what has been done, but WHAT SHALL BE DONE.

The Master Kuthumi spoke on behalf of the race which shall be the actual builders of the future.

Paul, the Venetian spoke at great length on the establishment and maintenance of an understanding, cooperative, gentle and friendly relationship between all men serving in the ONE CAUSE.

Hilarion endeavored to draw the attention of the Brotherhood to the possibility that lies within the scientific confirmation of spiritual Truths, and He presented several of His advanced pupils who are working with Him in the world of form, and whose discoveries within the next six-

month period will truly revolutionize the thinking man's concept of this universe and the intelligences that are behind it.

The Master Serapis, in His Cosmic capacity as Presiding Master of the Year, spent no little time in showing the Brotherhood and the Assemblage how every facet of the Ceremonial Ray becomes a BRIDGE to link the outer mind and consciousness with Truth. Because of His momentum and interest in things of Beauty in music, art and creative endeavor, He, together with the Venetian, is instigating a renaissance of the soul, and an inspiration of the artistic development by which so many people of Earth can be reached who are not yet intelligently developed along spiritual lines, but who can be reached through their emotional responses to these activities, and can be swung into constructive endeavor.

The Masters Jesus and Mary have prepared a petition in which I would like every individual to join, and that is that the Body Elemental of every unborn lifestream be required to immediately become enrolled in a schoolroom under the guidance of the Goddess of Beauty and the Goddess of Purity and that all of the stubborn, distorted manifestations which those Body Elementals repeatedly create, when they are entrusted with the building of an envelope for the incoming ego, be burned out of them immediately, as well as the antipathies and resentments to the soul to which they are tied and which causes such a clash in the feelings of the egos incarnated.

Kuthumi immediately rose and asked that the Body Elemental of all conscious chelas and in-

carnated souls be included in this Grant, and that, during the time of sleep and relaxation, they may be also included in this roll because, He pointed out, the indwelling spirit has sufficient cause for concern with the tendencies of the soul and the personal heritage of the incarnated ego without the added burden of the propensities of the Body Elemental..

I then asked that when the Body Elemental is drawn before the Lords of Karma and examined before the incarnating ego, and given his or her assignment, that the allotment of karma, which would result in bodily restrictions, be assigned to Me, and I will make it My personal obligation to balance that karma by added endeavors and application on My part. If this petition, which is being formulated, is granted, then we will see an incoming race through which the individual Ray of the Spirit may function without hindrance.

Note: A full explanation of the Body Elemental will be found on pages 199 and 201.

Saint Germain, Who, as we all know, is the Chohan in charge of the incoming New Age, was deeply touched, and grateful to all the members of the Brotherhood, ascended and unascended, for Their unselfish service and unprecedented endeavors in establishing the foundation of the work for which He is responsible. He is so modest in His desires for assistance in His gigantic task, that the Brotherhood are obliged to use all the strategy at Their command in Their efforts to give Him the help He should have. We shall, doubtless, hear from Him tonight or tomorrow.

The Seventh Sphere, which comes under the direction of Saint Germain, contains within itself all of the perfected designs that have been released from the Heart of the Sun of our System, and in rhythmic pulsations, have been clothed in the substance and power of each succeeding sphere through which it passes upon its outward course toward manifestation. It is, therefore, the obligation of the Chohan of the Seventh Ray, together with His constituents and disciples, to project this etheric perfection into the third dimensional plane, and thus complete the outgoing rhythm for the planet and its people. This is why the activities of the Great White Brotherhood will be centered through the Ceremonial Ray, and why the Master Serapis, in His capacity as Bridge-Builder, is so actively engaged at this hour in establishing, again, a connection between the Etheric Realm and the physical consciousness of the first group of selected beings who have been chosen for the experiment and who will form the heart center of this great Work.

Every Chohan, each one of whom represents one of the Seven Spheres, has contributed, together with His Sphere of Activity, to the Perfection that lies now within the etheric belt awaiting its condensation into form. It is, therefore, a cooperative activity of the Seven Rays to see this externalized Beauty and Glory manifest for the Earth and its people. Hence the unflagging interest and energy that each one is giving to this glorious movement, and Their (one might almost say) insatiable desire to contribute as much of Their own particular Sphere as the Earth and its people can take. One might liken the etheric realm unto an impatient cow with her

udder almost bursting with milk waiting to be relieved of her burden.

As this etheric perfection can only manifest through the consciousness of those members of humanity who are still a part of the human race, the cooperation, understanding and receptivity of these individuals is essential to get the amount of work done that must be accomplished within the short space of time allotted to the Earth and its guardians before we must move in our orbit into the next succeeding sphere which has already been prepared through the kindness and love of Venus and Her people. In other words, a planet of the beauty and perfection now expressed on Venus must be evolved in less than twenty years of Earth reckoning from the planet Earth and its civilization of today. To this end have We begun a new rhythm in which every man will do the work of ten. Are we ready - and are we willing?

****

Tomorrow (June 30th) the first two thousand lifestreams who have been called by the Lords of Karma after examination of their entire record and blessed by the Great Central Sun Messenger with the First Dispensation, upon whose outcome would depend the next action of the Karmic Council, will be called upon to report individually, and will have to speak before the entire Assemblage in the presence of their Sponsors. These are the first incarnate members of humanity to stand in the Hall of Judgment before the time of so-called death. They have, unfortunately, been divided by their individual endeavors, and they will appear in that order, classified according

to what they have done, their potential activities, and what they have allowed to slide by.

The next Grant, which, I believe, will form the first activity of the Karmic Board, will be determined by the results of the initial experiment. We shall endeavor to find cause as to why certain members have chosen not to avail themselves of the dispensation which their own Christ Selves applied for, in order to make certain that the second Grant will have greater efficacy and ultimate victorious accomplishment. However, on the whole, the Sponsors are exceedingly pleased with the results, and We all feel that the Lords of Karma will be favorably impressed with the idea of allowing the Higher Selves of the people to commandeer the energies and powers of the personality, and so fulfill its own purpose and design.

No matter how great the struggle and resistance of the outer self may be, when the Holy Christ Self has been given the authority by the Lords of Karma, there is no possibility of lasting rebellion on the part of the individual, although, for a time, there may seem to be a terrific struggle. The Christ Self has not chosen idly to sustain an ego for millions of years; and when it is authorized by the Sun of the System to set aside the human free will of the individual, that authority will never again be relinquished - and sad it is that it was relinquished in the first place.

Blessings and Love,

(Activities and Instructions at the Rocky Mountain Retreat from June 29th to July 6th, 1952)

How shall I describe the coming of the Great Central Sun Messenger to the finite mind?

The Lords of Karma entered the atmosphere of Earth a day preceding Their usual entry, and Their impersonal observation was, for the first time, tinged with anticipatory interest, which tended to make this Cosmic Gathering more of a family gathering, and set at ease even the Hearts of those Masters who have approached Them century after century on behalf of the people of Earth, because it looked as though They were predisposed to grant the proposed Petitions.

The Messenger from the Sun was not the same Being who came in January, but rather a much older appearing, more dignified and mature Being, whom you would describe as One well prepared to grant the countless thousands of people an opportunity to connect with the Higher Mind and Consciousness through Grace and not through merit.

In appearance, He was more like unto Lord Maitreya. He wore garments of pure white heavily banded in a silken fibre that had the appearance of fur, but which did not require the sacrifice of any four-footed being. He carried with Him the Sceptre that usually rests within the Heart of Shamballa, and as the inner body of each of the two hundred thousand individuals who have

been chosen to represent the second circle of dedicated beings who knelt before Him, He touched each one lightly on the shoulder in much the same manner as kings of old created a 'Knight'.

Two Sponsors were required for each lifestream called from the ranks of the hopeful billions in attendance. Past connections, friendship, and association determined, to a great measure, as to which of the members of the Emancipated Masters would be Sponsors. Contrary to human belief, there were more Sponsors than accepted souls, lest anyone should be called forth and not find One ready to stand by his or her side; these Masters being willing, mind you, to take on the karma of the action or inaction resulting from such dedication as the case might be.

****

When the lifestreams were chosen for the second Grant, their names were proposed at a Council in Shamballa from among more than two million souls who were examined as to past record, potential service, possible weaknesses as well as strength. Sanat Kumara Himself placed the Star of Initiation within the etheric body of each one of those who were to become the vanguard of a larger rhythmic release of beings whose free will is to be superceded by the Christ Self for the next six months. Neither the Holy Christ Self nor the outer self was aware of the choice until the night when the Karmic Board met. The Sponsors were previously informed and prepared.

The Assembly waited, with bated breath, for the coming of the Great Central Sun Messenger,

and after the preliminary dedication of the Heart's Flame of Love to the Source of all Life, one of the Angelic Host began to call the roll, and from the audience, stepped the etheric or inner body of the dedicated spirit, simultaneously with the descent of the Christ Ego or Holy Christ Self from the atmosphere above. The two Sponsors then poured the substance of Their Flame and Ray into the kneeling neophite, and Serapis made the dedication by the placing of one hand on the head of the Holy Christ Self and the other right into the center of the consciousness of the potential server. This work, of course, should be effected by the application and evolution of the outer ego, but the Master chose to make that Bridge out of His own body's Light, and if you think that this was not an expenditure of priceless energy, then you are unaware of the fact that every God-Being who so much as raises His hand in Benediction allows so much Virtue to pass from Him, which must, through conscious application, be replaced for future use.

****

The Holy Christ Selves of the greater number of the human race dwell in the Fourth Realm, and They, through Their own initiative, made application to the Cosmic Law for the opportunity of proving what They might do through the outer self if, once again, the authority could be vested in them to set aside the human free will.

In a great Cosmic Conclave, whose size is indescribable to the finite mind, They presented Their proposal to Serapis and the other six Chohans toward the close of last year. Serapis, for

reasons of modesty, we will say, could not very well approach the Cosmic Law regarding this Grant, and it was for this reason that the Master Morya El, who represents the Mind of God, the Will of God, and the First Cause, chose to take it upon Himself to enter Shamballa's Halls and, speaking with Sanat Kumara, Who, as you know, is the Lord of the World, secured from Him the permission to allow Serapis the honor of becoming the Presiding Master for the Year, and in so doing, provided the initial impulse for this Grant.

In January, at the Conclave, when Serapis was vested with this power, He permitted the spokesman for the Holy Christ Selves to approach the Karmic Board and the Great Central Sun Messenger, and the very small Grant of two thousand was allowed as an experiment. During the time since then, Serapis has been constantly at work in the Fourth Sphere with the Holy Christ Selves of the rest of the race, and it was He Who presented the Scroll to Sanat Kumara upon which was written the names of several million potential candidates for the second release. From this large number, about two million souls were selected, and after the most minute examination of the lifestream of each one, the final two hundred thousand were decided upon as likely candidates who could be depended upon to assist in the important work at hand.

Saint Germain, in every case, has said that He would stand Sponsor for each lifestream. No one unascended can understand what this means, because every lifestream for whom you stand Sponsor is constantly using energy, and the successes and failures of that individual determine how

much of the Master's energies must be consumed in balancing any unpaid debt to life occasioned by this Grant.

Of course, there are, among those receiving the Grant, certain students who are the particular chelas of the various Chohans and the other Masters, and they come under Their Sponsorship, but Saint Germain has taken, by far, the greatest number of these souls into His own Sphere of Influence, foregoing the time in the Great Silence, where all Emancipated Beings Who give service to the planets go, periodically, for a renewal of Their energy, and which They find absolutely essential to Their well-being, and which is rightfully His; and it would not be amiss for those who love Him most to pray for His strength, and to call for a release from the Sun of that Power of the Silence which He would normally gather through His own entrance therein. Thus I speak on behalf of One of My Great Sons, and when I say: "Pray for a Master" - I MEAN JUST THAT!

****

The most solemn moment of the Conclave was when the two thousand souls who had been given the Grant in January were called forth from the audience, one by one. The Council Halls in the Rocky Mountain Retreat seat several thousand individuals, but through the magic, mystic power of etherialization, we are able to accomodate millions, and the atmosphere over the entire countryside was filled with the inner bodies of the countless millions drawn there by the magnetic power of its Light.

The rostrum from which each soul spoke was in full view of these billions of souls.

The Holy Christ Selves and the Sponsors were among the first to arrive; then the etheric body of the neophite was called from among the audience and stood there, on the rostrum, in plain view of the whole Assemblage. The entire record of what such an one had done to help the Cause of Life and Light for the first six-month period of this year was then read by one of the Angelic Host in a very musically clear and distinct voice, which rang through the atmopshere and penetrated even into the souls of the somnambulistic guests. This was really the first Judgment in which incarnate souls, not only had to meet the karmic Board, but also their fellow-men. At the time of death of each incarnate, they go through a private judgment in which only souls who have been, in some manner, connected with their lifestream during that embodiment or the heavenly interlude before it, stand as mentors and judges.

Like a great wedge in the atmosphere above, stood the ten billion Holy Christ Selves of the entire race, and this part of the proceedings was a solemn, but uncomfortable, moment for all concerned except, perhaps, the Karmic Board, Who seemed quite unperturbed by the entire procedure.

After the record was read, the souls of these two thousand individuals were called upon to speak, each on its own behalf, and careful notes were made by the Members of the Karmic Board and the Sponsors, in order to see that the errors incurred might not be repeated in the future, and that, in the new Grant, these mistakes might

be avoided by careful planning, supervision and protection.

Then the Holy Christ Self of each individual spoke, giving the full potentialities of the intent to be accomplished through the lifestream, and, to use an Earth phrase: 'there were no holds barred'. This was important, because the Holy Christ Self showed what the lifestream could have done; the soul showed what the lifestream had done; the Sponsors learned what They had to make up, even if They had to use Their chelas to do it; and the Karmic Board, judging by the successes and failures, were better able to determine the Wisdom of making the Grant to those whom Sanat Kumara had chosen to be Ambassadors of the Brotherhood for the coming six-month period. However, I am happy to say that they all passed, and were dubbed by the Messenger as 'SUNS OF THE NEW DAY'.

No. 6 July 15, 1952

With the closing of the Teton meetings, the attention of the Great White Brotherhood is now turned toward the gracious Host of the Transylvanian Retreat - He Who is known and loved by the Great White Brotherhood as the Ascended Master SAINT GERMAIN.

After the dedication of the second group of individuals who were chosen by Sanat Kumara and granted the dispensation whereby their Holy Christ Selves might endeavor to fulfill the God Plan through them in this next six-month period, the Great Central Sun Messenger and the Lords of Karma listened to the petitions and proposals of the various foci of Light, Retreats of the planet Earth, and individual beings and Powers of Light belonging to our System including representatives of the Forces of the Elements who had taken advantage of the opportunity to present any plausible plan to help the evolution of the race.

This is a world of CAUSE and its ultimate EFFECT. It acts under the Natural Law of the Circle - called the Cosmic Law. If it were not for the initiative, interest and personal sacrifices of Intelligent Beings Who have made mankind's welfare Their business, the Karmic Law would act with FULL FORCE, and there would be no possibility of transcending its effects or softening its lash. The dispensing of the karma to individuals, nations, and the planet itself is under the direction of the Lords of Karma. They

are embodied Justice, but also Mercy and Love. It is part of the heritage of every lifestream, ascended and unascended, to use the authority of his own life, and call for the transmutation of evil, mitigation of karmic retribution, and the creation of new causative centers which will yield GOOD to the whole human race.

The scales upon which such requests are measured must be evenly balanced. On one side, the potential good which such a proposed measure will effect in the evolution of the soul, the race, or the planet, is weighed; and on the other side, exactly how much energy the Sponsor can offer to the Karmic Board as evidence of the voluntary support of His Cause by both ascended and unascended beings.

The exact procedure followed by an individual, a Master, or a group of dedicated beings who are to apply to the Lords of Karma for dispensations of Mercy is somewhat as follows:

The Master or Bold Member of the race receives a Divine Inspiration in the quietude of his own God contemplation. He recalls it again and examines its possible worth as a means of fulfilling the Divine Plan and widening the borders of the Father's Kingdom. He then develops and matures this idea in His mind, and nourishes it with the Love and Strength of His own feeling nature. If He is a Member of a Retreat, He will, no doubt, present this proposal to His Brothers, and it will be incorporated in the group petition of the Retreat at the Great Council. If He is working independently, He may prepare this petition, and upon entering the Teton Halls, give His Scroll to the Being Who is in charge

of placing them upon the great Bulletin Board which is situated outside the Audience Chambers. This enables many lifestreams to acquaint themselves with the proposals that are to be presented, and if they find merit and interest in any particular petition, they are allowed to place their names on the Scroll, thus signifying to the Master sponsoring the petition that the lifestream so signing is willing to support the measure at such time as the Karmic Board will hear the petition and ask for the presentation of individuals who will back such proposals, release the energies required to fulfill them, and cooperate according to the best of the individual's powers and capacities in forwarding such a Cause for world good.

The Retreat or individual Being sponsoring such a Cause is then assigned a private meeting room, and here They are free to entertain the members of the race and the Brotherhood as have signified an interest in Their proposed Plan. Thus the Representatives from the Retreats of the world, as well as the individual Masters, spent the first fifteen days of Their stay at the Rocky Mountain Retreat in gathering constituents for Their Cause, knowing full well that when They have the opportunity to present Their Plan before the Assembly, the number, nature, and capacities of those who stand as voluntary supporters of such a Cause will determine the final extant of the Grant given Them, and the Freedom with which They may exercise Their powers in drawing on the Universal Cosmic Storehouse of Energy to make that Cause appear on the Screen of Form as an Effect worthy and lasting in merit.

When the Karmic Council sits, each Retreat and individual is called forward in successive order according to rank and purpose, and given the opportunity to present the proposed petition before the entire Assembly and the members of the human race who have been magnetically drawn into the atmosphere. After hearing the proposal, one of the Members of the Karmic Board always asks the Sponsors to call forward as many life-streams, ascended or unascended, as have offered to dedicate a portion of their individual energies to such a Cause. Besides the individuals which the Sponsor has secured through His concentrated preliminary meetings, at the public presentation, usually a goodly number of those present, who have either arrived too late or who have not been interested enough to read the petitions of the Brothers beforehand, will rise and join the ranks of one movement or another. Then the Karmic Board deliberates on the potential good which will be effected by such an investment of Cosmic energies in the particular Cause before Them. Their measure is the amount of Good that can be effected with regard to development of the individual God-Flame and the evolution of the planet, and not so much with the temporary comforts or pleasures of the people.

After this deliberation, the actual energies of the combined volunteers are measured, their intrinsic worth and capacities to fulfill their vows taken into consideration, and from the Storehouse of Cosmic Energies, there is given into the keeping of the Sponsor an exact balance for that volunteered energy, which becomes His Dispensation of Grace, and which will form the causative center of Spiritual Fire which is the heart-center and motivation of His Cause. He is

at liberty, during the entire year, to draw forth, by His own application, as much additional energy as possible to nourish His Cause, and to utilize freely whatever voluntary energies He can coax from those interested in His Design.

After the Cosmic Grant is given to the Sponsor, He must endeavor to launch His Movement on the flood tide of spiritual energies dedicated to His Cause by the Cosmic Board. Thus, after the July and January meetings, while the Spiritual Tide is full, there is, at inner levels, always a tremendous impetus in the World Causes which will benefit the race as a whole.

If the Retreat, the Master, or the individual does not secure much support from the voluntary energies of the race, His Grant from the Cosmic Board is small, and He must await the opportunity at the next meeting to increase the interest of the people; or if the Board feels the service can be superceded by another of greater merit, He cheerfully and willingly gives up this proposed idea and either enters into the activities of some other Member of the Brotherhood, or, in time, evolves another idea which will, perhaps, be more pleasing and beneficial to the evolution of the race at the present time.

When the final Grants have been made and the Retreats, Masters, Forces of the Elements, and human beings have been given the sanction of the Cosmic Court to proceed, each returns immediately to the center of his own Sphere of Influence, and sets into motion the most intense activity whereby the Cause He serves may quickly find fruition in the world of form. This is very important, for He is called upon to report on what He has

done with the Grant of Energy given Him by the Cosmic Council at the next half-yearly meeting, and if He has not availed Himself of it, His future Grant will be limited thereby. Then the Master is at liberty to follow the Brotherhood to the Retreat which is to be the Host to the Elect for the next thirty days.

The Grant of the dispensations to the Holy Christ Selves of the two hundred thousand life-streams, of course, took precedence over all other Grants, because so much depends upon the outcome of this great Cosmic experiment. The entire activity, however, was very joyous, and no one who came with a petition was denied at least a partial Grant and the Blessings of the Karmic Judges of the Day.

The four major activities under consideration concern planetary changes, international politics, the spiritual awakening of the race as a pre-requisite to freeing Sanat Kumara in order that He may return to Venus, and the possibilities within Jesus' and Mary's petition to secure the training of the Body Elementals. This was amplified to include a specific training for the mental, emotional and etheric bodies of the race as well. Jesus, Mary, Kuthumi and I were given complete authority to provide the schools for these instruments through which the individual spiritual self must work, and We shall start on the two hundred thousand chosen by Sanat Kumara as the most potential workers for the vineyard. The support of this petition by the entire Assembly - human, elemental, and Divine, was unanimous.

My petition for My Beloved Saint Germain to

give Him more assistance in His endeavors to further the Cause of Freedom drew forth a Sponsorship and support of the entire Brotherhood, and over half of the human race as well. The Devas of the Nature and Elemental Kingdoms asked for release from the domination and vicious impurities imposed upon them by mankind. This Grant would mean great cataclysmic changes, and only a partial dispensation was given, for which We, who work with mankind's good in our hearts and minds continously, were grateful.

The political situation, national and international, is not, outwardly, too pleasant, and the amount of voluntary energies that can be drawn forth by the peoples of the various countries will be a great factor in the experiences through which mankind will pass in this next six-month period along this line. The attention of the Host of Heaven, the chelas of Earth, etc., will deal primarily with this situation while in Transylvania from now through August 14th.

The God Meru has a tremendous natural momentum of power in working with the forces of the Elemental Kingdom, and We are hoping that the anchorage of the power of the Brotherhood in and around Titicaca early in August will assist Us through this particularly portentous period. The Ray through the Gobi Desert has given the apex of its power, and the Ray of Titicaca is yet to increase and become the predominant Permanent Ray which forms the center of the New Race which will find its fullest expression in South America in the future. These two Rays are a balancing power to the Earth, and the more intensely the attention of mankind is focused upon them, the greater the possibility of avoiding, or at least,

minimizing cataclysmic activity at this time. As you perhaps know, the Andes Mountains in South America have been shaking for the past two months, and the reason for this is that certain balanced powers from the Sun are being fed through this Ray into the very center of the Earth for this coming period.

I return to Ceylon with My own Grant, and shall set up those currents required to further the Cause of the Holy Comforter in the world of mankind. Then I shall proceed into the Inner Realms and set into motion the necessary purifying energies to handle the accumulations of the Body Elementals who choose to avail themselves of My offer. Then I am off to the Central Sun for a meeting with the Great Holy Spirit of the entire Galaxy, Whose Radiation I dispense with regard to the planet Earth alone. I shall not be in attendance in Transylvania until next Saturday, but have asked Lord Maitreya to take My place in case My good Sons and chelas wish to confer with someone on any particular problems, or require authority to proceed on specific activities connected with Their individual Causes. I am hoping, through this meeting with the Holy Spirit of the Central Sun, to receive certain additional powers that will help My Blessed Saint Germain and His Messengers, and also Polaris and Magnus through this time of Earthly travail.

Blessings and Love,

I would again like to remind the reader that the establishment and maintenance of specific God Powers which form the Radiating Centers for the spiritual impetus of the race are drawn, focused and maintained by the self-conscious free will of the individual intelligences who voluntarily engage in such activities.

It has been said by the Illuminati of every age that the Godhead, to express in Its fullness in the world of form, needs a body, and that the God Intelligence must find expression and fulfillment through dedicated lifestreams who form a part of the race who are the beneficiaries of this more than ordinary assistance.

The establishment of the ancient sanctuaries, retreats and foci of Light upon the planet Earth, as well as upon other planets of our System, comes directly under the supervision of the Godparents of our Universe, and from the Fire Temples around the Sun itself are taken the Spiritual Nuclei for the Flames that are to be established within these Spiritual Foci, and, radiating therefrom, hold the balance for the constructive forces through the lower atmosphere in which mankind has chosen to function.

When an individual being belonging to the race chooses to ensoul one of the active principles of the Fire Element, and has, through conscious application and centuries of discipline and dedication of his individual energies, prepared

himself for such an honor, he must pass through the Halls of the Karmic Board, and then be vested with the Powers of the Flame by the Sun Itself. Then the Flaming Center of that Cosmic Quality is anchored into the Three-fold Flame of his own Spiritual Identity, and he is allowed to take incarnation, that through the medium of his physical and inner bodies, the Flame might be anchored in the substance of Earth, and with every heartbeat increase its momentum of power and sphere of influence.

Before the close of incarnation, such an one has always to pass on the responsibility for guiding and guarding that Flame until a new body can be secured for the original 'anchorite' when the process is again repeated and the momentum and power of that Flaming Spiritual Center is increased by his presence in that locality. This continues for century after century until the Cosmic Law determines the focus to be of sufficient intensity and permanence, and then the anchorite, together with his chosen band of disciples, is allowed to incarnate once more and establish a permanent Spiritual Focus which will remain a Radiating Center through which the powers and activities from the Electronic Belt around the Sun will be focused permanently.

The double activity of the Retreats is the magnetic power which draws the lifestreams of those ready to be benefitted by the accelerations of their own Spiritual Endeavors, and the diffusing of the Spiritual Qualities whose presence in the atmosphere keep the outer consciousness from devolving into a completely animal state.

As the number and variety of the Cosmic Qual-

ities of the Godhead, and the Powers and Activities of the Sacred Fire, around the Sun of the System alone, are limitless, and the evolution of the consciousness of the race makes it possible for more and more self-conscious beings to perceive the Qualities and Powers that might enrich the race, the process of establishing, maintaining and expanding the Spiritual Centers is a continuous one, and although the ancient foci have the momentum and power of centuries of application and devotion to the Flaming Substance of the God Power drawn and nourished by the Spiritual Community, new Centers and Foci have come into being through the centuries which will, in time, greatly increase the heritage of the race and externalize more of the Nature of the Godhead, not only through the community, but, by radiation, stimulating the growth and development of those Qualities within the consciousness and nature of all mankind who share alike breath, water, air, and the subtle etheric currents which carry the Gifts of the Godhead directly, and through these foci to the people.

The Master Saint Germain, when He ensouled the Cause of Freedom, and passed through the initiation whereby that Flame was drawn into the substance of His own embryonic Spiritual Nature, first incarnated as a shepherd boy in the hills of Transylvania, and as He pursued His simple occupation, the Flaming Power of Freedom passed through that innocent boyish form and began to pulsate through the substance of Earth, and the akashic record of a future greatness was thereby begun. For many centuries thereafter came again this gentle Son of Freedom until the hour when the momentum was sufficiently intensified that the Karmic Lords, the Beloved Helios and

Vesta, and Sanat Kumara gave permission for the establishment of a permanent Spiritual Community and made a permanent imperishable Focus of Freedom which shall endure throughout all time.

At the close of the Earth life of Francis Bacon, when the final chrysalis was to release into His own Immortal Freedom this Son of Heaven, it was only fitting that from within the heart of the Transylvania Retreat, His liberated Consciousness rose on this very Flame into the Realm of God Perfection from whence He labors ceaselessly today in an endeavor to complete the manifestation of a free world, a free people, and a free Nature Kingdom which will be the ultimate of His God Gift to the race and to the chain to which we belong.

Therefore, the final activity of Freedom's Flame must find its expression through the hearts and consciousness of those dedicated men and women who choose to be anchorites for His Cosmic Momentum and Power wherever they may be; and from the Heart of Transylvania into the hearts of these dedicated men and women there is being directed, and will be sustained like the spokes of a mighty wheel, an actual precipitated Ray from the Heart of the Freedom Flame which, in Its turn will be a radiating center connecting with the life energies of all who form the present humanity incarnate - and to come. Some of these will be impelled to establish Spiritual Communities, builded on the same premise as the original Transylvania Retreat, and thus Freedom will walk the Earth again through the incarnate forms of His disciples.

The sun, the primary planets, and the satellites that form a universe have a periphery which closes them in, so to speak, in exactly the same manner as that every planet has a localized sphere of influence in order that it might not adversely affect the sister planets of the system until it has achieved a harmonious vibration within which no discord is generated or radiated. Those Beings who have achieved the Liberated State are free to rise to any heights within that great Sphere of Influence, which includes the Electronic Belt around the Sun of the System; but once the God-Being leaves the localized vibration of His own Universe, and enters into the Cosmic Highways, becoming subject to the magnetic pull of other Suns and Systems, He must have developed a tremendous capacity to maintain the course set by the conscious mind, and not be pulled by the magnetic powers of love, attraction or sympathetic vibration from the Cosmic Highway which proceeds to His destination.

When it is said that the individual pursuing the Road to Mastery must look neither right nor left, but always into the Heart of the Presence, this same Law is the criterion by which the Master Himself may pursue a course into the Heart of the Central Sun of our System to secure dispensations, grants, and assistance for a Cause in which He is interested. I have known more than one such selfless and wholly free Being who has set out to enter the Cosmic Highway for a hearing before the Cosmic Throne of the Central Sun Itself, Who has been drawn, by one attraction or another, from His original purpose, and as the Grant to leave the localized atmosphere of one's own universe is only for a certain period, such an one has had to return without securing audience.

Therefore, it is not without definite application that We prepare to visit the Central Sun of Our System, less We be swept, by some Cosmic Tide, into an enjoyable byway, and forfeit Our right for audience.

I am happy to report that I was enabled to meet the Great Cosmic Representative of the Holy Spirit for Our entire System, Suns and Worlds, and I was enabled to receive from the Central Sun and this beautiful Holy Spirit, a specific Grant to enable Saint Germain to utilize the energies of His carefully trained and dedicated students during the coming six months, and We feel that this will give Us greater cooperative release from those whom We can reach and who are ready to become the vanguard of His advanced Activity.

I have also secured the voluntary assistance of a number of beautiful Seraphic Beings who will assist the great and selfless Beings who are keeping Our Earth from completely slipping out of its axis, and They will share the weight of the human creation which has been the sole responsibility of those Beings, until the purifying agents can lighten Earth's load, and the axis be gently elevated to its proper position - all in God's good time.

The intensification of the Flame of Freedom in the Heart of the Transylvanian Retreat is affected by the direction of a Cosmic Ray from the Great Central Sun and the Sun of the System at the exact moment when the vibratory action of the Rocky Mountain Retreat receded into Its usual pulsation. This added impetus of the directed Rays from the Sun expanded the Sphere of Influence from Transylvania just as an added release of electrical current lights a greater area in the physical appearance world.

The Ascended Masters and all Emancipated Beings Who direct Their Consciousness and individual powers to the Councils being held, again intensified the Parent Flame of Freedom by Their own Light; each one contributing, from the very substance of His own Heart, an added stimulus which again expanded the Sphere of Influence. As the momentum gathered, and as the Magnetic Power of the Cause of Freedom began to attract the conscious and unconscious members of the human race, seen with the inner eye, wave after wave of an outward-flowing substance of Freedom, like the growing tide, expands the periphery of Freedom's Flame until, even from Our state of Consciousness, the ultimate accomplishment cannot be estimated until the contributing factor of each free-will being has poured the substance of his own life into the momentum already gathered there.

All during the period while the Councils are

in session, and the individual Masters are engaged in the instruction of Their students, there is a successive group comprised of Angelic, Cosmic and Devic Hosts Who form the anchorage through the Rays from the Central Sun and the Sun of the System which are directed into the Flame Room where the actual Flame of Freedom has burned undimmed through the centuries. Into this Holy of Holies, no unascended being, even in his finer body, could enter and retain his equilibrium. Therefore, outside of the circular room in which the actual Flame is focused, we have three circular corridors wherein the Light of Freedom's Flame is tempered, and the development and maturity of the attending student determine how close he can come to the Flame Room, receive the benefits derived from Its Radiant Presence, and yet not be overpowered by Its Light.

In each of these corridors there are always twelve of the Ascended Host Who regulate and balance the inner bodies of the visitants so that they may receive the greatest possible benefit from such close proximity to Freedom's Flame, and can carry that Radiation back into their own personal atmosphere and orbit on re-entering the physical work in the waking state. Each group who is allowed entrance into one of these three outer rooms has signified before the Angel Deva of the Freedom Flame his own heartfelt desire to contribute to that Flame by the expenditure of some of his own voluntary energies, and this is the Passport which allows him such entrance.

The direction of the Heart Flame from the Great Central Sun and the Sun of Our System, the Angelic, Devic and Cosmic Hosts, as well as from the Ascended Masters and the members of the human

race is regulated by the rhythmic breath. The outbreath of the Sun is followed by the outbreath of all connected with the adoration and devotion to the Freedom Flame, and the Heart Essence is absorbed into that Flame, making a concentration of power. Then, all the participants draw the Flame inward into their own bodies, holding it until the Master in charge of their section bids them direct it outward to the periphery of the sphere of influence of the Transylvanian Retreat. At the instant that the individuals begin to outbreathe this Flame, the concentrated Heart Flame itself begins to expand through the conductors - Divine and human.

To look at the action of the Retreat from above, it would seem like a great breathing wheel; the Light concentrated in the hub and then flashing out to the periphery and returning again to the hub in the rhythmic pulsation of the breath. Now, every lifestream that is drawn within the actual physical aura of the Retreat is blessed by the radiation on the outbreath of the Flame, but only those who have signified within their hearts a desire to spread the Cause of Freedom become actual participating factors in expanding the periphery of its Sphere of Influence.

The many hundreds of thousands who float in a somnambulistic state in the atmosphere in, above and around the Retreat are, more or less, absorbers; their value mainly lying in the fact that, as their inner bodies are mechanically and electrically charged with the substance, intelligence, power and quality of Freedom's Cause, they do bring that back with them into their waking state and it becomes an emanating force for good in their communities, as well as their

individual endeavors to live a constructive and positive life.

Those who enter into the great circular rooms are really batteries of such concentrated power that it is with the wisdom of centuries of experience that I say that the guard over this added energy must be maintained by the alert indwelling spirit, that the mental, emotional and physical bodies, particularly, do not dissipate this great Gift through misqualifying the Cosmic energies in any discordant manner.

After about an hour, in which the lifestream is engaged in the adoration of the Flame, as described above, he is then free to enter the particular Council Chamber where the Masters are working on current projects, most of which are connected with the dispensations granted by the Lords of Karma in July. Here they may act through their etheric bodies or Holy Christ Selves, and other instruments - mental, emotional and physical, are released for their training in the schoolrooms which are presently being provided through the kind offices of Kuthumi, Lord Maitreya, Jesus and Mary.

Any student who chooses, then, may make his own home and environment a similar wheel, and, following the pattern and visualization set forth above, become an outpost of the Flame directed from the Heart of the Transylvanian Alps at this time, and in the future, duplicate this activity in cooperation with whatever Retreat Sanat Kumara designates to be the focus for the Great White Brotherhood in the coming days.

Because of the significance and import of this Year of 1952, all the Beings who are directly concerned with the evolution, not only of the planet Earth, but of the universe and galaxy to which we belong, have turned both Their attention and the Gifts of Their own Life Expression toward the Victorious Accomplishment of transmuting the 'Dark Star' into a Star of Love and Freedom. The possibility of the Great White Brotherhood securing the conscious cooperation and continued support of the outer consciousness of mankind prompted the granting of the Dispensation at the January Conclave whereby a certain limited number of lifestreams were to be given specific benefits and assistance in an endeavor to bridge the chasm between the waking consciousness and the Directive Intelligence which formed the focus of the True Identity for each such individual.

In the Fourth Sphere, there live, in great Freedom and Beauty of Expression, the Holy Christ Selves of the majority of the human race. They are under the direct supervision of the Master Serapis Bey, and each time the outer personality is called into incarnation by the Karmic Lords, it is the responsibility of the Master Serapis, or One of His Lieutenants, to connect as much of that Directive Intelligence into the incarnating personality as the evolution of the personal self will allow.

The vibrations of the Higher Mind, in order to connect through the brain structure of the

individual, must have a certain amount of assistance through the raising of the atomic consciousness and the atoms of the inner bodies through which the consciousness functions. Therefore, when the two thousand lifestreams were dedicated to this experiment, in order to see if they would move forward more rapidly in a more practical, efficacious and positive manner until the outer mind had such a contact with the Will and Purpose of the Inner Spheres, it became essential to find a means of bringing the Will and Design of the Great White Brotherhood and the Holy Christ Self into a vibratory action that could be absorbed and interpreted by the student until, through various activities of the Sacred Fire, the conscious contact with his own Christ Mind became the Directive Intelligence of all activities in which the personality was engaged. Thus, the Lords of Karma and Beloved Vesta granted permission to use the BRIDGE and its Supplements to so acquaint those interested in knowing and effecting the Will of God, but whose personal evolution had not yet raised them to the place where a dependable, constant and accurate personal contact with their own Christ Self was established.

Now, in the choice of these two thousand souls and the second grant of two hundred thousand souls, these were chosen after very careful consideration of the entire lifestream, which was studied from the time of its conception, through all incarnations up to and including the present day; and although there are, among the holy men of the East, many who might qualify more perfectly with regard to their conscious connection with their God Ego, these men, for the most part, lack the momentum of activity whereby Divine Will be-

comes form, and their contentment in their own adoration of the Godhead would not be of any particular value in our present endeavor to create of the planet Earth a Star similar to Venus within the short twenty-year period allotted to Us by Cosmic Law. These, then, were automatically excluded.

When Sanat Kumara, from the several million souls suggested by Serapis Bey as potential workers, chose two hundred thousand to receive the added impetus of Our Light, Directives, Radiance and Presence for the balance of 1952, I, very carefully, took into consideration what each applicant had accomplished with the use of his own talents and powers in the past, and therefore, you will find that some of our members are among the less illustrious from the standpoint of human measure, but of this dedicated group, ALL have the possibilities and potentialities required to raise the vibratory action of the planet and its people - IF they will avail themselves of this important, but limited, grant.

As the Master Saint Germain has taken the responsibility of sponsoring practically every one of these two hundred thousand lifestreams, He and Serapis are spending every free moment not otherwise occupied with Cosmic tasks, in endeavoring to raise the vibratory action of the physical and inner bodies of this group, making them more amenable to the Flame and pressure of their own Holy Christ Selves' directives, and in cooperation with the Elohim Arcturus, they are also endeavoring to clear the bridge from the heart to the throat and head so that the individual's Inner Bridge becomes an infallible guide, guard and directing Presence. Then We could widen Our

activities, and at the January Council, receive permission and opportunity to work on perhaps two million lifestreams.

The response of each one of those who have been chosen for the indescribable benefits, blessings and privileges which the Cosmic Law offers them under the New Dispensation cannot be emphasized too strongly, because the individual personal accomplishment of each lifestream will be a prime factor in the decisions of the Lords of Karma to give Us more freedom to continue Our endeavors for the balance of mankind in the year that is yet to come.

The calls for the purification of the inner bodies of each person who is aware of this particular assistance coming through the Holy Christ Self this year will help Us as We work, without cessation, in the establishment of the schools for the lower bodies which are the block between the perfect direction of the Presence and its receptivity to the outer intellectual self.

Each one of the two hundred thousand souls is required to spend at least one hour of each night in the Transylvanian Retreat where the Focus of Purification and Freedom is so powerful, and We know that the six months that lie ahead of Us yet will yield a far greater harvest of accomplishment because it started within this Purifying Activity established and maintained by My Beloved Son, Saint Germain.

Blessings and Love,

Excerpts from the Address of the Maha Chohan to the 200,000 lifestreams chosen to be the forerunners of the Earth's redemption period. (Address given on the night of August 7,,1952)

One of the Activities and Qualities of the Holy God, from Whose Bosom we all came into being, is that of a Comforting Presence.

Do you know that the cry that arises from the Earth is for Comfort - from pain, disillusionment, loneliness and uncertainty?

The Presence of the Holy Spirit is God's answer to this heart call, and I, who presently wear the Name and carry the Title of Maha Chohan, am delegated to BE that Comforting Presence to ALL of Life everywhere.

Those who choose to represent Me in the world of men must begin to be a Comforting Presence in their own environment - their own personal sphere of influence.

Until each man has learned to fill his aura with that Peace, that Hope, that Healing Power, that Balance which brings Comfort to life, so that his physical presence becomes a welcome and light-bringing gift into the environment and atmosphere in which he moves, he has no right to carry My Words to life.

I would rather focus My Rays through a thatched-roof hut in the heart of the Himalayan Mountains, where no human being ever sets foot, than have a temple of gold and marble in the world of men, where there was persecution, unhappiness and distress. I would rather take the foot of a wounded beast from the cruel jaws of a steel trap set by the greed of unawakened man, or mend the broken wing of a sparrow, bringing gentle comfort to life, than speak from the housetops and cause life to tremble in My atmosphere.

The purpose of THE BRIDGE is to bring the Comfort of Life to the wounded sons of men - to their sore hearts and confused spirits; to enable them, through gentle guidance, to find the Comforter within the recesses of their own beings, requiring no mediator in form, and be able to say with the Master Jesus: "Come unto Me, all ye who labor and are beavy burdened, and I will give you rest!"

Those who are willing to learn the gentle art of selflessness - to 'lose their lives' that they might gain Life Eternal; to work, without adulation, from within the Light, may write their names on the Scroll at the Ceylon Retreat and enter into the instruction that will bring them to a point where My Ray, through them, may walk the Earth in gentle Love.

Every man has his own small orbit - his sphere of influence - into which are drawn, by karmic ties and circumstances, a certain amount of life energy. This life may be encased in human or elemental form, but its very presence within his personal atmosphere is the manifest sign that it

is the responsibility of the individual who professes a desire to represent the Holy Comforter to Life - to love that life free. Until such a man has brought and sustained comfort to the life which he contacts in his daily and hourly experience, he has not qualified to become a Radiating Center of Cosmic Comfort to the masses.

Some men have a larger sphere of influence than others, and therefore, more lifestreams are within the compass of their daily influence. If such men would know Me and My Service to Life, let them enter into the Radiance of the Holy Comforter and, connecting with My Presence, bring Peace and Order out of chaos; Harmony and Contentment out of dissatisfaction; Understanding and Wisdom out of ignorance; Health and Well-being out of sickness; Supply and Plenty out of lack. Then, and then only, may I walk freely through such a man, as the God of Heaven has ever walked through His Chosen Ones, bringing Comfort to all who share the exile on Earth and its present woes.

Every son of Earth who has stood before the Karmic Board and qualified to become a Son of Heaven was, before His Ascension, a Presence of Comfort to His fellowmen. The exceptions to this rule have been bound out to schoolrooms in the inner spheres where they have had to learn the control of their energy until such a radiation became their passport into the realm whose inhabitants are dedicated to bringing and sustaining Comfort to all who 'touch the hem of their garments'.

The Great Lord Buddha achieved His Buddhahood because of His burning desire to bring Comfort

and blessing to life. The Great Examplar, Jesus, was and is an example of a lifestream whose essence has been blended with the quality of the Holy Spirit in Its fullness.

Asking the pardon of Their Great Presence in this Assembly, may I ask you if you have any concept of the vibrations of the aura through which must pass those Healing Rays to make a blind man see - a seemingly lifeless form to rise from the dead and join his grieving companions? What, exactly, is conveyed through such a transmitter? COMFORT to the afflicted.

If you cannot practice becoming a Comforting Presence in the breaking of your daily bread, in the course of your everyday living, can you, in Good Reason's Name, become a Cosmic Comforter to some ten billion souls bound so long beyond their allotted time in the heavy karmic chains of miscreations, the very sight of which would turn a sane man mad?

What you are hourly is the measure of what you represent as an outpost of Ourselves. Ah, yes, in times of crisis, it is true that the Holy Christ Self, for the moment, sweeps aside the outer self and performs, on rare occasions, feats of great heroism and merit; but you who have been chosen to become the Holy Christ Self all the time are not measured by this spasmodic scale.

You, who stand before me, do so at the request of your own Christ Selves. Let Me remind you of something. Those beautiful Christ Selves have waited for so many countless centuries to fulfill the God Plan through your personal egos that it would not be within the dictates of My conscience

to remind you of the time, the energy, the love, and the thought entailed in sustaining you as personalized and individual beings. From among the ten billion souls who belong to this Earth chain, and who are dependent upon incarnation through the Earth today, you have been chosen to become 'the first fruits of them that slept'.

By your cooperation, and by the manifest activities of your outer selves, will the Karmic Lords determine how great a dispensation they will give in the coming January Council which is, now, not too far ahead.

You chose to work through the chain of the planets around the Sun to become co-Creators with the Father in His Kingdom; to learn the lessons of Cause and Effect through the generation and projection of energy. For countless aeons of time you have worked under the Chohan of one of the Seven Rays, and your lifestream's record is written in the Cosmic Library of the four Maha Chohans who have successively held this Office. It is, therefore, My obligation and responsibility to Life to thus address you, and to tell you that you must ascend on your particular Ray to Its apex, and become, not only Lord of that Ray, but ultimately Great Lord, which is the meaning of the Title that I carry (Maha meaning Great; Chohan meaning Lord). As a Great Lord, you must embody comfort to all Life. Let us see now if there are, among you, those who are willing to subjugate the personal ego so as to become such a Comforter to Life. The amount of life comforted is not so important as the motive, for when it is pure and earnest, life will increase the sphere of influence accordingly.

As the far greater majority of souls are receiving this address within the etheric body, I would like to emphasize that this talk is in no way to be taken as license to pamper the human appetites and demands of the flesh, but to remember that the Service is to God, for God, and in God's Name, with the inner eye ever turned toward the Source from whence all Comfort flows, until the aura is suffused with that Peaceful Presence. The heart must be kept 'stayed in Him' from whence the life of the universe did first proceed, and into which, one day, when you have qualified as such a Comfort to Life, you shall again return.

I give you the blessings of the Holy Spirit Whom I represent in relationship to the planet Earth at this time. May you come to understand His Gift to Life, and not only abide within Its Comfortable Presence, but become that Presence in His Name.

The individualized consciousness of the life-stream which dwells in the Higher Octaves is ONE with the Nature and Purpose of God, and the thought and feeling centers of these Christ Selves are always actively engaged in creating and expanding God's Kingdom. The WILL OF GOD is the motivating power of these Beings, and the Divine Ideas from the Great First Cause flow through them continually without opposition. Thus, the Perfection of the Godhead is clothed by the thought, animated by the feeling, and externalized by the obedient will of these Intelligent Foci or Christ Expressions of the ONE God.

As the far greater majority of the Holy Christ Selves (sometimes called the Higher Mental Body) of the humanity of Earth dwell within the Fourth Sphere, and activate the Universal Substance of that Sphere by Their constant creative endeavor, you will see how tremendously charged this Fourth Sphere is with the Perfection and Beauty of God's Divine Plan.

The great activity of this year (1952) is centered in the forming of a BRIDGE which will connect the thought and feeling centers of the Holy Christ Selves with those of the outer egos who represent them in the world of form, and lower over the Bridge thus formed, the beauty and perfection of the Higher Realm. Here let Me remind each incarnated ego that his or her Christ Self has been actively engaged, for untold centuries, in creating and externalizing such beauty

and perfection as the Earth has not dreamed of, and but awaits the connection with the lower part of Itself to lower it into the physical appearance world. It is, therefore, expedient for the individual's outer self to earnestly contemplate the nature and activities of his own Christ Self in gentle and humble adoration, in order that the Christ Self may, through him, externalize in this lower octave, not only the beauty and perfection that is its natural expression in the Higher Realm, but also its actual Nature of Godliness.

At the time the Earth became a habitable planet, the lifestreams that were destined to fulfill their Divine Plan upon it were drawn into the Fourth Sphere, and here they remained, directing their activities through the personalized egos who represent Them in the world of form. The Earth is the Fourth Planet in our System, and the Christ Selves within the Fourth Sphere have a natural complement with the number four which enables Them to vibrate harmoniously with the people of Earth. Within this Fourth Sphere came the Holy Christ Selves of the first inhabitants of Earth. Here also dwell the Christ Selves of those who have not achieved their liberation, with their respective chains, as well as the Holy Christ Selves of the Guardian Members of the race who have volunteered to incarnate in order to protect, guide, teach and evolve the young spirits on their journey through form.

The Great Hierarch of the Fourth Sphere then became the guardian for the entire planetary development, working, not only with the Holy Christ Selves, but also with the physical egos, endeavoring, in every way possible, to keep the connection open between the Fourth Sphere and the world of form. For this reason, He has been known as the Keeper of the Bridge, or the Bridge Builder for those who, consciously or unconsciously, have destroyed the stanchions which hold their bridge as an unbroken span between the world of Divine Mind and Will and their outer activities.

The full perfection of God's Divine Will for the Earth has been drawn into the atmosphere of the Fourth Sphere, and the Christ Selves of the race are perpetually bathed in its effulgence, each one drawing into itself as much or as little as it can grasp of the Father's design. In the same manner, the people of Earth live within the etheric design and perfection of the world of form, each man interpreting as much or as little of it as he can grasp; the rest remaining in its subtle form until some individual incarnates who can draw it into expression. However, the Holy Christ Selves have already externalized a vast amount of God's Perfection through their centuries of endeavor, and this is already a palpable, living experience in the Fourth Sphere. It is, therefore, the responsibility of the outer self to find out now what its own Holy Christ Self has been engaged in drawing forth and externalizing from the Universal Substance, and then, opening himself gently to Its Directive Influence, become like a faucet through which this Perfection might flow without stress, strain or struggle, thus lowering into the world of form the result of Its centuries and centuries of creative endeavor on behalf of the God Plan.

As one planet at a time becomes the focal point for the unfoldment of the evolution of their chain, so one of the Seven Spheres becomes

the focal point for the inner activities which form the motivation for the God Plan and manifestation upon the planet in question, and although the other spheres contribute to the unbroken symphony of externalized perfection, the predominant responsibility lies within the sphere whose number is the complement to the planet which is the evolutionary theatre of the Cosmic Hour. Hence, the Fourth Sphere and the planet Earth, whose number is four, form the center of activities in our System at the present time.

All those beings who achieved their full Mastery on the first three planets dwell within the three first Spheres of Consciousness, and the members of our chain who yet remain in their virgin innocence, and have not been called forth into incarnation, but whose destiny is to unfold on the fifth, sixth, and seventh planets of our System, dwell, for the most part, in a state of bliss and innocence in the Fifth, Sixth, and Seventh Spheres. They do not become active workers through the creative faculties of their thought and feeling centers until the planet which is to cradle them signifies its readiness to sustain an outpost of themselves as personalized egos. They live, now, in the radiance of the Universal Light and enjoy and absorb the qualities of the Godhead, but are not put to any specific task, nor do they build the momentum of individual powers and talents until this later period.

In the Fourth Sphere, however, the Holy Christ Selves of the people of Earth became active workers in the Kingdom at the time the planet became habitable, and a personalized ego was projected forth from them into the world of form. Each Christ Self became interested in, and dedicated

itself to becoming some facet of God Expression, and has lived through all the countless centuries of time since then using Its energy in developing perfection along this particular line, which forms the full-gathered Cosmic momentum of the lifestream, and which is its individual self-conscious gift to the planet Earth which can only be externalized through the outer personal self which it has sustained since the beginning of recorded time to be just such a channel for its expression. You will see, therefore, the responsibility and the obligation of the outer self to contact that Christ Self in its own Sphere and find out what activity has engaged the life energy of that Self through the centuries, and so become, without further delay, the channel through which it may pour its perfection.

The whole crux and meaning of this Expanded Activity is to find ways and means by which the outer self may tune in, contact its Holy Christ Self consciously, and open the doors and windows of its soul to this Divine Self, thereby fulfilling God's Divine Plan for the Earth and its people without further delay or interference, saying, with the Master Jesus: "To this end was I born; and for this Purpose came I into the world that the Glory of God may be made manifest!"

Blessings and Love,

MAHA CHOHAN

When the Sun of this System directed the Flame into the Universal Light and, with the Elohimic Builders, created the planets of our chain, certain Beings of a superior order and development volunteered to come and, at the direction of the Parent Sun, become the Guardians and Teachers of the Races which were to develop into God Beings in the course of the Cosmic Day.

As each planet became the focal point for the evolution of a portion of the lifestreams drawn forth by our Sun, these Guardian Beings entered into the atmosphere of the planet presently active, and through the radiation of Their Love, the Power of Their Light, and the Gifts of Their Wisdom, enabled the younger spirits to attain God maturity.

When the Earth became the scene of greatest activity in our Solar System, these Beings moved into her Sphere of Influence and formed the spiritual stimulus which became the very atmosphere of the first Golden Age of Perfection, Innocence and Peace.

The effulgence of Their bodies and Their very proximity to the peoples of these early ages made it an easy process to complete their evolution; but the Cosmic Law required that, as soon as possible, a Spiritual Order be evolved from this child-like race who would be the teachers and guardians of their own people, thus enabling the Cosmic exiles to return to the natural sphere of Their own Activity and Light.

It was the Will of God that a Brotherhood be formed from those very lifestreams who had so long lived within the radiance and blessing of their elder brothers and sisters from the other planetary chains, but for some reason or other, no lifestream who had its inception through the Earth planet seemed to pick up this vibration, but all lived on in a state of happy innocence, completing their round of evolution and gaining the Ascension without contributing, in any manner, to the succeeding races. Then, upon Mu and Atlantis, the newly drawn forth spiritual egos descended further into matter by breaking the Law of Harmony, Beauty and Love. At this time, the Sun of the System was called before the Parent Sun and the Earth was to be written off as an imperfect and us eless experiment.

Sanat Kumara and the Beloved Beings on Venus interceded on behalf of the Earth and its evolving mankind, and offered to enter into the orbit of the Earth, its atmosphere, and its people's karma, with the sole purpose and intent of creating from among the human race itself a Governing Council and Directive Body composed of voluntary members of the race who would interest and increase its membership by the exertion of their own initiative. Thus, Sanat Kumara's first service to life, after His entrance into the Earth's atmosphere, was to set up a skeleton of this Spiritual Order which is known in the world today as the 'Great White Brotherhood'. Of course, there were none of the human race among its members; it was composed entirely of these same Guardian Beings - the Archangels and Devic Hosts.

The tremendous impetus of Sanat Kumara's Love, and the magnetic pull of His Heart Flame were all that He had to work with in stirring the souls

of man, and drawing, not by force or argument, but by the invisible and yet resistless power of His Love, the sleeping spiritual senses of some members of the race. It was an entirely impersonal activity in which He engaged for many centuries, and neither He nor Those who worked with Him allowed themselves to designate any particular lifestream as a potential - giving the opportunity to respond equally to each soul.

As you know, the first two souls to so respond were the Beings presently known as the Lord Buddha and the Lord Maitreya; and so, from this small beginning, the Great White Brotherhood has grown in strength and numbers through the centuries until almost all of the Cosmic Guardians and Spiritual Protectors have had Their places filled by the dedicated men and women of the human race; and even the Office of Sanat Kumara will soon be assumed so that He, too, may return to His own Cosmic Home.

The Great White Brotherhood today works on the same premise and with the same powers of Magnetic Love and Impersonal Benediction, and the response of the spirit and the soul from within itself is the only passport into active membership.

Those who represent the Brotherhood in the world of men may take example from its Cosmic Founder and its members, and, becoming such a magnetic power of Love Divine, they will find drawn to them those whom the Father has called and who will remain, not because of personal allegiance, but because of the affinity of the soul light with the Spiritual Essence which is the Brotherhood's Nature in the Universe.

It has been found within the Wisdom of the Great Cosmic Law to draw the attention of mankind to the particular significance and cosmic import of Mount Meru in the evolution of our planet and its people.

Throughout all religions that have been the faucets through which to draw or dispense Cosmic Truths, reference has been made, again and again, to the 'Mystic Mount of Attainment' which represents the apex of spiritual evolution, both with regard to the individual and the race as well. This Mount of Attainment is one of the ancient Sanctuaries or Retreats in the heart of the Andes Mountains, and is presently the hope of the Ascended Brotherhood for as many members of the human race as have chosen to respond to the magnetic pull of the spiritual currents at this time.

When the Sun of our System delegated the power and authority to create a planet to the Elohim, the masculine and feminine aspects of the Elohimic Builders directed from Their hearts the two Rays which, joined together, formed the permanent atom for the Earth. For the purpose of illustration, the picture of the old-fashioned ice tongs, as used by Saint Germain, is practical; the prongs entering the Earth's surface - one on each side of the globe. The magnetic power within the Three-fold Flame then drew the Universal Life Substance into the cradle formed by these convex Rays. As the life and pattern of the parents flow into the form of the infant, so does the spiritual

design of the planet flow through these Rays from the Heart of the Elohim, and these form the most intense focus of Light for the planet Earth. The masculine Ray enters the Earth in Asia, in the neighborhood of Shamballa, and the feminine Ray at almost the exact opposite side, through Mount Meru, in the neighborhood of Lake Titicaca.

Both the oral and written expressions of Truth up to the present time are predominantly masculine in their expression, in their beauty, and in their presentation, with very few exceptions.

The Masculine Ray, focused in Asia, was the spiritual stimulus for all evolutionary progress of God-unfoldment, and It has been the magnet which has drawn the seeker for Life and Light into those Eastern Countries from the very beginning of unrecorded time. Each such an one entering within the aura of that Ray took some of Its vital essence into his own being, and in the course of centuries, thousands of lifestreams have ascended from within Its Sphere of Influence. This accounts for the fact that the East has always been the fount of Spiritual Knowledge, and the natural radiation of Tibet, China and India has been conducive to the unfoldment of any spiritual quality within the individual.

All the individuals who have attained the Ascension through the feminine aspect, such as Kwan Yin and Mary, the Mother of Jesus, were drawn within this Ray at Mount Meru, and received their inner training under the Brotherhood who have guarded this Ray until this hour.

Whereas the Masculine Ray has expanded its greatest powers and given the full stimulus of

its potency in the fullness of its gifts, the tremendous heritage of the Feminine Ray is only now beginning to be felt in its subtlety by the elect, who are more sensitive to the changing currents at inner levels, and their response, in their finer bodies, to the magnetic pull of its attainment in the control and sublimation of the feeling nature.

While the vibratory action of the Feminine aspect of Meru is yet such a subtle activity that it is not apparent to the outer consciousness of the students, it will increase in its irresistable force and be a tremendous assistance in the blanketing of the individual emotional nature as a Peace-Commanding Presence, which will enable them to much more easily become Master of their own feeling worlds.

Those who are conscious of the service of the God Meru, and of the service of the Ray which is focused within His Retreat, may mark the effect in their own feeling worlds if they direct their attention into the Sphere of Influence of this Retreat, particularly within this present thirty-day period (August 15 to September 14, 1952 inclusive).

The Heart Center of the Universe, which mankind has chosen to call God, and which has been designated by the later organizations of Spiritual thought as the GREAT CENTRAL SUN, is literally, practically, and absolutely the Source of each individual soul who must attain mastery over the individual energy which forms his heartbeat and his life essence.

In the endowment, by the God-Parent, of the motivating power of Light, every individual focus of that Light is given the opportunity of learning of the power that is within that Light, and of the possibility of training his thought and feeling centers to mould that Light into whatsoever form his free will shall indicate.

Men use their Light to create automobiles and contrivances of every kind and description all the time; others use their Light to compose music or the substance of art and literature, and all the particular expressions that feed the mental bodies of the people. Other men and women - recipients of the same Universal Light Substance - choose to dedicate it to the nourishment of the soul, or in the perfection of ways and means by which the bodily ailments of their fellowmen may be alleviated. Thus, through free will, the receivers of the Substance of the Universal God activate and concentrate this Light Essence into forms of a perfect or imperfect nature; the constructive lifestreams becoming channels for the diversified activities of the Holy Spirit when the product

of their free-will choice enriches the Universe to which they belong.

The small number who have responded to the vibration of the Seventh Ray are desirous of utilizing their life energies, under the direction of its Mighty Chohan, to relegate evil to its native nothingness, and to create conditions under which the race may unfold its God-pattern without pressure of sickness, limitation, unhappiness and distress of every kind.

These individuals, through the stream of Electronic Light which is their heart-beat, form conductors for the spiritual energies and powers that pulsate within the inner realms, requiring but an instrument for expression, with no more mystic evocation than is employed by the mechanical radio or television which contacts, draws in, and condenses the ever-present vibrations consciously emitted by transmitting centers for the entertainment, education and enjoyment of those who voluntarily desire to participate and connect with such activities.

These spiritual conductors, through the use of their Light, direct the one-pointed focus of their energy into the dissolution of the causes of evil, and at the same time, through the trained control of their mental and feeling natures, create new forms which are the patterns of future perfection. This is the work of the Seventh Ray and its Great Lord, Saint Germain; and wheresoever upon the planet Earth there can be found those who freely, happily, intelligently, consecutively and fearlessly desire to become a part of this Great Activity - to these lifestreams WE COME.

The Ascended Masters are individuals who have utilized Their Light on behalf of the Universal Good, and They radiate Their Blessings to the entire human race with the same impersonal devotion that the Sun, in its shining, expresses; but They can only become 'Wayshowers' to the sons of men who are inclined to join Their energies with the purpose and Plan of the Brothers.

To this end, We have endeavored to bring forth a printed publication by which the design and plan of the Brothers might reach into the minds and hearts of men, but no man is required to read it or to abide within the wisdom of its counsel, even as no man is required to become a Master of the Law of Mathematics, a linguist, or a danseur, or achieve the ultimate perfection in any other line.

Through our printed word, we are reaching out to those who do so desire, for they, each one, will become the embodied Presence of the Chohan of the Seventh Ray, and when the life energies of the less fortunate return for redemption, and they desire a way and means to extricate themselves from the living force which they have, by free will, drawn from the Heart of God, stamped it with their human imperfection, and imposed it upon the universe, the Masters will have - not one - but many ready to teach them the Way of Life.

Blessings and Love,

The activity of the Retreat at Lake Titicaca, wherein the concentrated God Power was established through the Feminine Ray at the inception of the planet Earth's manifestation as a member of our Solar System, drew a response from mankind that was beyond the hope and expectation of the Brotherhood. As this Ray represents the Feeling Nature of God, and embodies within Itself the qualities which are the manifest Garment of the Godhead, every lifestream which was drawn within the compass of its radiation began to absorb, either consciously or unconsciously, the very Nature of God while within its Spiritual Aura.

As the aspirant, who once looks upon the Master's Presence, becomes aware of the Divine Pattern which he, himself, must one day fulfill, so were the mankind of Earth deeply imbued with the Nature of Godliness by which they might measure their outer selves, and in all future contacts, how true and accurate the Presentation of Truth might be through those purporting to be the Messengers and Directors that carry the Light to the people. Once an individual has been bathed in the Aura of a Master, or stood in the Sacred Aura of the Godhead Himself, there is no external mental force or human persuasion that can deceive his heart consciousness when an individual masquerading as the God Nature, and yet not expressing a like or complementary vibration, presents a certain aspect of so-called Truth for his acceptance.

For thirty days, while the Great Retreat of the God Meru was open to the members of the race, out of three and a half to four billion people presently incarnate, over three billion attended at least once, and well over ten million people were present nightly. Here they saw and felt the Aura of the Godhead, which is the natural atmosphere of the Holy Mountain, and entered into Its Sanctified Presence finding peace and ease which comes only through abiding within the Secret Place of the Most High.

Here, night after night, beautiful and perfected Beings addressed the multitude, and in Their embodied Grace and intense Love, They manifested the Inner, but palpable God Nature through perfected form.

This was done with the purpose of impressing the attending souls with the reality of the God-like Love and Perfection of the Master to a point wherein 'sham' would be as evident as the difference between Gabriel's Horn and a tin trumpet.

It will be understood that among the billions who are drawn by the Love Magnet into the Holy Mountain, those who were consciously present in their awakened senses numbered only in the thousands, but those witnessed such a profession of Perfection of the God Nature night after night, as has not been seen in the world of form since the curtain fell on the last Golden Age.

We are determined that man shall no longer be deceived in the representation of the God Power and God Nature through any finite form, and at this Council, it was voted, among other things, that every seeking soul be taken, once in every

twenty-four hour period, into the actual breathing Ascended Master Presence of some Perfected Being and, literally sitting at the feet of the Master, learn first-hand what a God-Perfect Individual is in Nature, in Manifestation, in Purpose and in Action.

To render this service, it was required that an individual Being volunteer to accept the responsibility of taking the consciousness, during sleep, to such a Perfect Master Presence, and here the Angelic Host, under the direction of the Archangel Michael, made this voluntary dedication and no individual who is sincerely seeking the Truth, no matter what the avenue of his endeavor may be, shall miss this experience <u>once in the twenty-four hour period</u>.

It is impossible, therefore, to continue to veil Truth because through proximity and pressure of feeling, sooner or later, every manifest man, measured against the Christ Perfection of the Divine Order of God Beings, will reveal his professed representation of the God Nature.

The Lords of Karma will meet at Luxor every seventh night during the thirty-day period just begun, and at least three of Them will be in constant attendance to pass upon Dispensations and Grants which cannot await the coming of the half-yearly Conclave.

Blessings and Love,

The opening of the Great Retreat at Luxor, for the first time, to the consciousness of mankind as a whole, was an event that will not be forgotten by any of Us who were privileged to witness it. Because Serapis Bey holds the Office of Presiding Master for the Year 1952, the greatest outpouring of the twelve months takes place within this thirty-day period. For several weeks before the Retreat was opened, the Brotherhood of Luxor prepared diligently for those Guests who would come, not only from our system of worlds, but from sister systems and galaxies as well.

The Sphere of Influence of each Retreat on the planet forms a very beautiful sight when seen with the inner eye. The Retreat itself forms the Flaming Heart Center, and the concentric rings of Living Light that flow from it make it look like a veritable sun against the dark background of Earth. The quality of the service determines the color, and the radiation takes on the sound of a most exquisite melody, altogether making it, not only a joy to behold, but to contemplate as well. If it were not for these Retreats, the mankind of Earth could not have maintained their physical bodies due to the effluvia of their human creation. The number of members and residing Brothers of each Retreat, the length of time it has been established, and the momentum gathered through each member's invocation and devotion determine the size of its Sphere of Influence, so that the inner picture of each Retreat shows

a great variation in size, color and Cosmic tone, but all work together in perfect harmony, making a Cosmic picture of exquisite harmony.

When the pattern for the year is given by the Silent Watcher to Sanat Kumara, it is His responsibility to say which Retreats can best furnish the spiritual impetus which will help the individual soul to cooperate with the Divine Plan in externalizing that pattern.

From His Cosmic Consciousness, Sanat Kumara observes the revolving Earth and, against its darkness, sees the various Retreats pouring out their color, song and influence, and then, like a Master Musician pulling out the stops on a Cosmic Organ, He mutes the radiation from one and emphasizes that of another according to the need of the moment. Thus the radiation from the various Retreats becomes a symphony in the mind of the Lord of the World long before it is played, with the difference that each Retreat, instead of being an unconscious note played by a will outside of itself, becomes a voluntary self-conscious contribution to the Divine Symphony. Once He has designed the pattern for the twelve months, Sanat Kumara leaves it up to the Hierarch of each Retreat to provide the maximum outpouring by the enlisting of whatever voluntary energy He can secure from the people of Earth as well as from the active members of the Retreat.

At the close of the January Council, the Brotherhood of Luxor became the voluntary sponsors for the two thousand lifestreams who were given the first Grant by the Messengers from the Sun, and later to the two hundred thousand chosen in July, and They took it upon Themselves to open

up some of Their Council Rooms to give nightly instruction to these lifestreams. This was a very difficult assignment because the membership of this Retreat is much smaller than the others on account of the rigorous discipline imposed upon them due to the nature of its work.

When the Council moved from Mount Meru to Luxor on the night of September 14, 1952, the Lord Maitreya transferred the Directed Ray to the latter Retreat, thus making Luxor the Focus of Light which draws the consciousness of men during this thirty-day period. This caused its natural Sphere of Influence to expand as far south as the Cape of Good Hope in Africa, eastward to India, northward to include the Norwegian Peninsula and a goodly portion of Russia, and westward not quite as far as the continental United States. If we had had a Directive Center along the European seacoast, we could have carried the radiation across the Atlantic. However, the Blessing and Power of the Retreat is very active over that portion of the Earth's surface which stands badly in need of spiritual radiation today. As we still have two weeks in Luxor, we hope, by enlisting the service of more lifestreams, to increase its Sphere of Influence to cover the remaining surface of our planet.

When some lifestream draws forth enough of the Sacred Fire stamped with a certain quality, to warrant the establishment of a permanent Retreat for its radiation, he draws toward him certain lifestreams imbued with the same desire and quality of radiation, and these egos incarnate again and again, feeding their life energies into that particular focus, thus increasing the Sphere of Influence of such a Retreat or Sanctuary. When

the Cosmic Law, through Sanat Kumara, notifies the Hierarch of such a focus that He will be given the opportunity to serve a World Cause through intensifying the radiation of His particular Retreat, every lifestream who has ever contributed his energy to that partciular Quality is notified at inner levels, and he is given the opportunity of contributing his energies as powerfully as possible to push the Sphere of Influence of that Sanctuary outward as far as their united efforts can do so, to bathe both mankind and nature with its beneficent radiation. Most people, upon hearing of the opening of a Retreat, are delighted at the thought of attending, but when they are apprised of the idea that they may become contributing factors to the widening of its Sphere of Influence, the importance of their service through their attendance and presence cannot be over-emphasized. Besides the general momentum of the Retreat, the Cosmic impetus of a Directed Ray from Sanat Kumara through His representative, Lord Maitreya, was added to the momentum of each Retreat when the Cosmic Law gave the Grant that the consciousness of mankind be made acquainted with the activities from month to month, and this became a permanent Gift which is not withdrawn when the succeeding month brings in a new outpouring. You will see then, how much is accomplished by the cooperative efforts of ascended and unascended beings.

First: The Retreat and its Members are permanently benefitted by an expansion of Light through a directed Ray from the Sun.

Second: An intensification of the size of the Sphere of Influence bathes a much greater portion of the planet in Its specific

Gifts and Powers than would ordinarily be possible.

Third: The drawing of the attention of mankind to the Retreat through the magnetic pull of that Ray enables the inner bodies of millions to experience the necessary stimulus of the spiritual appetites which will work their way through the outer consciousness.

Fourth: The chelas and earnest individuals have an open door by which their faculties, powers, and free-will co-operation may tangibly forward the Divine Plan, which formerly had been closed to them by reason of the veil of their own human creation, a corner of which has been drawn aside through the Mercy and Love of the Holy Spirit.

Blessings and Love,

The activity which will form the final state of man's expression upon the Earth being the development of the Holy Spirit within themselves, the Master Serapis invited Me to speak to the Assembly at Luxor on the Nature of the Holy Comforter, and it gives Me pleasure to record herein excerpts of My address.

When the God-Parents of our System directed the preparation of a habitable abode to be the cradle for the evolution of certain self-conscious intelligences, one of the first of Their spiritual services was to invite, from the Higher Octaves, a Representative expressing the full nature of the developed Godhead who would be a Comforting Presence to the life about to embark upon their journey to spiritual maturity.

This Being, voluntarily entering the aura of the Sun, was vested with the Cloak of the Cosmic Holy Spirit, and accepted the responsibility of providing and sustaininf the Presence of Comfort no matter how far the lifestreams might withdraw themselves from the understanding of the Nature of God. This Office has been held successively by different individuals, and at present is within My keeping. It will, one day, be given to another Intelligence who is qualified to accept and sustain God's Comfort to His creation.

It is difficult to describe in a few words the diversified activities that lie within the responsibility of the Holy Spirit, and how the

avenues of My service seem to be less one-pointed than other facets of the God Nature.

At the same Cosmic Moment that the God-Parents within the Sun gave the Elohim directions to create a habitable globe for a future humanity, the Holy Spirit was charged with the responsibility of doing everything within His Power and Capacity to make the advent and sustenance of self-conscious life upon it a happy and harmonious one.

It was the Holy Spirit who invoked the Beings of the Air, through their Great Cosmic Director, Aries, to form a localized atmosphere, and to soften the radiation of the Sun so that it might not be too powerful for men's vehicles.

It was the Holy Spirit who invoked Neptune and His Beings, who represent the cleansing, purifying and energizing qualities of water in which the body of the Earth might float, thus preventing the jarring activity of a solid mass.

It was the Holy Spirit who drew forth the Spirit of Virgo and the Beings of the Earth to create a platform upon which mankind could act out the theme of their evolutionary experience; and it was the Holy Spirit who invoked the Builders of Form by which the Spirits of Nature might provide food and clothing for men's bodies. This is why the Office of the Maha Chohan is the supervising authority over all Nature's Kingdoms.

It was the Holy Spirit who, in co-operation with the Sun, created a mantle composed of the bodies of Cherubic and Seraphic Beings through whose bodies might pass only as much of the Cosmic Fire as the evolving mankind could absorb with safety. This was all accomplished before the advent of Lord Michael and the Lord Manu and the spirits who voluntarily signified their willingness to enter the evolutionary experience by which they might come to God maturity, radiating, in their turn, the same unselfish Love and Comfort that was expanded so lavishly upon their own lifestreams.

As we know, the Cosmic Service of the Father-Mother God is diversified through the Seven Great Rays; the First and Second representing the activities of the First and Second Persons of the Holy Trinity; the remaining Five Rays coming under the jurisdiction of the Third Person, or the Holy Spirit, known as the Maha Chohan, which Office I presently hold. The individuals at the Head of these Seven Great Rays are known as the Chohans of the Rays.

When the planet Earth was made as comfortable as possible, and the First Golden Age was spread across its face like a beautiful smile of welcome to the newly-come sons of men, the specific service of the Holy Spirit began. For this purpose, He created the Five Great Rays whose activities would cover every portion of evolving life in His charge. At the Head of each Ray, He placed a responsible Intelligence who was already fully acquainted with the needs of that portion of life which It was to serve.

The Office of the Chohan of the Third Ray represents Myself to the five faucets of force just as the physical Sun represents the dispenser of the Powers of the Great Central Sun; and in the ordinary course of evolution, the One holding

the Office of Chohan of the Third Ray will become,, in time, the Maha Chohan of the future, even as the Chohan of the First Ray is the Lieutenant of the Manu, and the Chohan of the Second Ray is the Lieutenant of the Cosmic Christ. The Office of the Chohan of the Third Ray is presently held by the Being known as 'the Venetian Master', and His service to life will be made abundantly manifest in the near future. The interpretation of the Will of the Holy Spirit is the Office of this Ray, and He is the consultant for all the expressions of perfection that manifest along the other Rays. The comfort that comes through Beauty, Music and Art flows along the Fourth Ray. The comfort that comes from the restoration of minds and bodies of people through Harmony and Health comes under the jurisdiction of the Fifth Ray. The correlation of the scientific findings of the day with the spiritual Truths of Life also comes under the Office of this Ray. The comfort of men's souls, the peace to their hearts and their faith in God is the expression of the Sixth Ray. The bringing of Freedom to the hearts of men in order that the Life Flame may expand to its fullest glory and become the God-Nature in its entirety, is the Gift and Service of the Seventh Ray.

These are all services of Comfort to Life, and all expressions of the Cosmic Activity of the Holy Spirit under whatever Being is the Maha Chohan of the Age.

We are entering the Age when the Divine Edict has declared that the life-beat of every human heart must create and sustain an individual aura of comfort to all the Life around him. It is the Age when the Holy Spirit becomes the natural estate of every man through self-control and understanding.

When the evolving spirits first came to Earth, the Father-Mother God sent with them an exquisitely beautiful Being who embodied the full Nature of Himself. This was the Divine Example of what all could and would become. He was known as the Manu, and remained with the people of the First Golden Age until a Son from the group developed and matured, and became His natural successor through the externalization of His own Christhood. When this was achieved, the Lord Manu invested this Son with His Power; He placed upon His shoulders the Robe of Authority; in His hand the Sceptre of Dominion and, kissing His brow, the Manu returned Home, leaning the rulership of His people to the 'first-born' in Spiritual Nature. Owing to the Fall of Man, the Manus of the Fourth, Fifth, Sixth and Seventh Races are still engaged in an endeavor to bring Their respective people to full Christhood, and this accounts for the overcrowding of the planet at the present time, as well as its strained axis and turbulent aura.

Because the Cosmic Hour has run out, the Manus are responsible for, not only one Christ, but a complete series of Christs. Therefore, it is required that every man BE a Comforting Presence and a Holy Spirit to Life. Let every man make his earnest call to the Father, Son, and Holy Spirit that he may attain his natural God-Estate while there is yet time.

Blessings and Love,

MAHA CHOHAN

When as individual Intelligence signifies to the Source of Life that He desires to become a self-conscious Radiating Center through which the Godhead may focus more than ordinary Powers, Gifts and Activities of the Sacred Fire, such an Intelligent Being, when accepted, becomes an outpost of Divinity, extending the Sphere of Influence of the Center of God Intelligence in His particular Universe.

In such a manner does the Central Sun of our System endow Cosmic Beings with the magnetic and radiating powers which enable them to form and sustain the lesser suns of the galaxy, and to create and nourish the planets and satellites which form a system of worlds.

From the Heart of the Central Sun of a System, down to the smallest atom, we see the precision of the circular rhythm of Life. The Cosmic Love of the Central Sun Intelligence draws exquisite Cosmic Beings who form the INNER CIRCLE of the Godhead. Their service is to absorb the Divine Perfection, the Sacred Fire, the God-Qualities of the Father-Mother God and, by the power of their own Life Flame, expand these Gifts into the universe. They condense the Glory of the Godhead, mercifully stepping down its tremendous Light and Power so that It can be enjoyed by those beings who have not yet evolved to a point where they might stand in Its unveiled Radiant Aura. This Inner Circle nourishes and protects the Heart of God by the outpouring of Love and

Light consciously generated from within the individual Heart Flame of the Cosmic Guard around the Throne of the Most High. Thus, in giving, They receive, and in receiving, They are increased in the power and capacity to give.

Each Sun that is sent forth from the Central Sun, in like manner, steps down the Light and Power of the Central Sun and radiates the Gifts and Powers of the Central Sun <u>through</u> the Inner Circle of Cosmic Beings who form the Aura of the Sun **itself**. These Beings are the Messengers of the Most High to the planets belonging to that Sun, and all life evolving thereon. You will see that the activity of the Inner Circle adopted by the Great White Brotherhood is patterned after the design of the Universe itself.

When an individual on the planet Earth has expanded his Light to a point where more than ordinary power can be safely focused through him, the Lord of the World is immediately advised of the fact by the Christ Self of the individual and the Sponsor from the Ascended Host of Light who has taken the responsibility for assisting such an one to the expansion of his Light. If the lifestream is found pure enough, and balanced enough to become an outpost of the more than ordinary powers, gifts and activities of the Godhead and Its Representative Organization for the planet Earth, the Great White Brotherhood, such an one is <u>invested</u> with specific magnetic currents which <u>will draw</u> toward the individual lifestreams who can work in harmony with such an one, and form the Mystic Circle around which a localized, national or international expansion of Light will take place.

As the steel magnet unerringly attracts the particles of steel toward it, but has no effect whatsoever on other types of so-called matter, so do the lifestreams of those who are ordained to be the Heart Center of a specific gravity draw complementary Heart Flames which can respond to the magnetic pull of their vibration, and others will be totally unaffected by this subtle centripetal force.

In the case of great Cosmic Messengers like Gautama Buddha and Jesus, you will remember how the Master would greet a newly-come expected one with the words: "I have waited long for thee!"; the Master knowing full well that the magnetic power of Cosmic Love would, in God's good time, draw those specifically dedicated individuals who were to become the Inner Circle, the Radiating Center, the Hands and Feet of their Lord, by which His Message and His Word might be stepped down to reach the lesser sons of men.

In forming the Inner Circles for the expansion of this Light, wherever an individual is fired with the desire to become a focus for the added power and responsibility, there will be drawn around that lifestream those individuals who choose to become a localized Order, radiating from the Central Circle which represents the Sun (the "I AM" God Presence and the Masters) surrounded by the Messengers and their Disciples who, in turn, carry their Love, Light and understanding to the local groups (the planets of the spiritual organism); and the local groups, in turn, nourishing and developing the mankind cradled in their aura.

The Spiritual Vibrations for the expansion of

Light through the BRIDGE will draw specifically prepared lifestreams who will respond joyously to the magnetic pull of God's Love. They will become outposts of this particular outpouring which will in no wise interfere with the 'Light from many candles' that are already burning on the altars of the world. As I have said repeatedly, the light from even one penny candle increases the light from the Sun, and we must rejoice in each such individual or group as chooses so to shine, each according to his Light, his Understanding, and his capacity at present. For those who can respond to My Vibration, I AM grateful indeed.

Blessings and Love,

MAHA CHOHAN

In the endeavor to bring the consciousness of the Holy Spirit into active radiation through the energy of the individual lifestream, I shall, again and again, stress the great need which arises from the life imprisoned in the shadows for the Comfort which, alone, comes from the Presence of God.

Comfort is not the negative condonement of imperfect patterns of thought, feeling and action, but it is the positive, kindly, encouraging, enlightening consciousness conveyed by thought, word and feeling by which the enshadowed one may self-consciously cooperate with the irrefutable and impersonal Laws of Love, Harmony, Purity and Perfection whose Causative Centers will yield, in effects, only Peace.

Comfort, like every other quality of the Godhead, is interpreted by each man according to his place upon the Path. To some it means no more than to lie upon a bed of ease, freed from the necessity and responsibility of sustaining the body's life. To another, it is embodied in the presence of a loved one; to still another, an occupation of delight to the natural talent of the soul for the essence of comfort received.

In examination of the consciousness, we will find that, like happiness and peace, mankind, and students as well, will find that the motivating power within their search for comfort lies within what they can get out of association with God,

Master, man or beast; but the mystic law of the universal works upon the principle that the self-conscious intelligence must give, of itself, the first impulse carrying the vibration of the quality that he desires, on the return current, to receive. A smile begets a smile, and a frown begets a frown. A man must be a friend to have a friend. He must give up one breath to receive another.

It is, therefore, My express and deep heartfelt desire to help you, individually, to comprehend the Peace which you can enjoy when you become a Comforting Presence to life; for then will you experience the active return of comfort through every externalized form, the invisible ethers, and the Great Beings who have foregone the glories of the Higher Spheres to remain the Comforting Presence by which mankind can sustain their life and progress in a world whose aura is so heavily charged with shadow that it would not be possible, even for the Elemental Kingdom, to sustain a physical garment through which the Life Flame might find expression, were it not for Their Presence in the Universe.

When you call to your own Great God-Self and to Me for the FEELING and desire to be a comfort to life, you will find opened within the realms of your own consciousness a new attitude toward the life around you, and that which has seemed a battle for survival will become a joy - each day fraught with new opportunities to feel your reason for being, in externalizing Comfort to life.

Blessings and Love,

MAHA CHOHAN

When the Elohim signified to the Sun of our System that the planet Earth was ready for the habitation of those lifestreams whom the God-Parents would choose to send forth, the Great Being who had taken the responsibility of creating and sustaining a system of worlds called forth a number of spiritual egos who were to form the first group to incarnate upon the planet. The mercy and love of the God-Parents, foreseeing the details required to manifest the Kingdom of Heaven through the mankind about to incarnate, divided this group of spiritual pilgrims into seven distinct classes, whose cooperative endeavors would most quickly fulfill the God Plan for the planet Earth.

Then, before the Throne of the Eternal Father-Mother God, were called the Children of the First Ray, and to them were given the Plan and the Vision held in the minds of these God-Parents and the Will of the Father for the expression of the great Perfection that was to be called forth in all the Seven Avenues of Service.

The Children of the Second Ray were next called before the Throne and they were vested with the responsibility of becoming the Teachers and Educators of the race; and they were charged with the task of developing the God Nature through instruction, explanation and example.

The Children of the Third Ray, in their turn, were vested with the power and responsibility of

keeping and sustaining Peace through a perfect understanding of the purpose and design of each of the Seven Rays; and the gifts each one was to contribute for the good of the whole.

The Children of the Fourth Ray were shown the exquisite perfection that was to be drawn into manifestation in cooperation with the Builders of Form through music, art, literature, architecture, and so on; and they were vested with the power and responsibility to create the perfect designs of the Kingdom of Heaven through the substance of the third dimensional world.

The group drawn before the Father who were to represent the Fifth Ray were given the fullest understanding of the Irrefutable Law that governs the atom and the universe that they might use the principle within that Law to draw toward themselves the required substance as well as the cooperation necessary for the fulfillment of the God Design, and, conversely, radiate from their own creative centers whatsoever qualities were desired to further the Cause for Good.

The Children of the Sixth Ray were drawn before the Throne and vested with the power to stir the spiritual nature of mankind to devotion to the God Flame, and through the presentation of an orderly ritual, that the inhabitants of the Inner Realms, both Angelic and Divine, might quickly mature the spiritual nature of the people.

Then the Children of the Seventh Ray were drawn before the Throne and vested with the power to enter into the consciousness of all peoples working under the entire Seven Rays and drawing forth the best in each one. They were to provide

a Government, an Educational System, a Universal Brotherhood, and a Cultural System of Science and Religion which would represent the apex of each of the Rays, thus unifying the work of the seven and closing a Cycle of Time.

When the First Manu went forth, some of the Children of each of the Seven Rays went with Him, but the predominant number were First Ray people. Therefore, that Cycle of two thousand years emphasized the Quality and Nature of the First Ray, while the people of the other six Rays, although present and performing their services as designated by the God-Parents, were in the minority.

The second two-thousand year cycle emphasized the Qualities and Services of the Second Ray people - and so on down through the Seven Rays. You will see, as we now enter the two-thousand year period which is the Cycle of the Seventh Ray, that it becomes harvesting time for the entire evolution of the Cosmic Field, and that the development of good for the past twelve thousand years in every line of endeavor must be drawn together by the Great Chohan of this Ray and the particular lifestreams who were originally created as Seventh Ray people who performed minor parts while the other six Rays were successively active upon the planet. You have, therefore, Seventh Ray people who were among those who came forth when the First Ray was active and who have performed services connected with the Seventh Ray during the entire twelve thousand years that have passed; and you also have the newer consciousnesses who will be spiritually active for the first time under this Ray which they instinctively recognize as their own.

Because this is the closing of a fourteen thousand year cycle, the spiritual lifestreams who have achieved a momentum of good on any of the other Rays are likewise entering into the activity of the Chohan of the Seventh Ray, bringing the harvest of their own particular development as a gift of that Ray in this final Cosmic Hour. When the individuals who choose to work for the Great Chohan of the Seventh Ray can realize and recognize that, in this diversity of its nature, there is no conflict but rather a natural expression of the Sevenfold Nature of the Godhead, they will joyously enter into the task of the blending of this sevenfold nature through the gifts and talents of each component part; and the Chohan of the Seventh Ray, through incorporating the natures of all the Rays, will devise and sustain a system of Ceremonial Worship in which each distinct and individual type will find full expression for its talents and the necessary impetus for his own God development and ultimate victorious accomplishment.

The Inner Spheres around the Sun which form the aura or electronic belt are, of course, seven-fold; and in these spheres dwelt the entire number of egos who were to find development on the different planets of our system, but today I have only mentioned those connected with the planet Earth. You will, of course, understand that the activity in connection with the Earth was duplicated on each planet as each one became inhabitable, and that, in these Inner Spheres, are not only those egos who are to take part in the evolution of the Earth, but also those who are to form the population of the other stars and planets.

In each of the Seven Spheres dwells one of the Great Archangels and a Spiritual Being who represents the Chohan of that Sphere or Ray, but who is not of the evolution of the Sun of these planets, but rather a Volunteer from a superior system. Through the aeons of time connected with the evolution of an entire system and its planets there were developed from among the intelligences within each Sphere certain individual Beings who qualified for the Office of Chohan of each Ray, and this position has been held, successively, by different Beings through the centuries of time that have passed. The Office is permanent, but the Officiating Director is an Intelligence who is chosen by merit and holds the Office only until a successor is developed who can take over and allow the preceding Chohan an opportunity to progress in His service to the Universal Cause.

Blessings and Love,

MAHA CHOHAN

Because of the Cosmic Hour and the fact that the ten billion lifestreams belonging to the Earth's evolution have not yet evolved a consciousness which can emit Light to meet the Cosmic Law's demands, the Spiritual and Religious organizations presently functioning on the Earth today have been found wanting.

Anticipating the need for a new opportunity to release certain forces which would give that spiritual impetus to make every soul emit more Light, the Masters Morya and Saint Germain requested from the Sun the right to create a new channel through which the instruction and the spiritual impetus might flow to meet the Cosmic Law's demands. The Holy Christ Selves of the race then put in a petition whereby they might throw the full weight, so to speak, of Their influence into that endeavor at the January Council.

The limited Grant of the Sun to a number of Holy Christ Selves proved so efficacious that the further Grant was given in July, and the Holy Christ Selves, through the lifestreams who did respond to the new vibration, began, with the Builders of Form, under the direction of Myself and other Members of the Ascended Host, to build an actual Spiritual Heart made up of the alert individuals who chose to offer their bodies as a cell in this living organism which is to be truly the Spiritual Body of the Cosmic Christ for this era.

We are still in the very delicate process of creating the Heart itself. The heart cells are the most highly developed in the construction of a vehicle; the brain cells follow closely in importance, although the Occult Law has delegated the supremacy to the brain cells because the mental CONSCIOUSNESS has been predominantly emphasized to this point. The magnetic power of the Master of the Universe, which forms the heartbeat of this organism, is drawing, by a selective process, those lifestreams who can be fitted into this great Spiritual Heart, and QUALITY, not quantity, is the measure of this particular phase in the development of this new body.

The creation of a new spiritual organism is a most beautiful experience when approached from the aspect of the inner consciousness within which the Masters dwell. It follows almost exactly the process which the Builders of Form use in the designing of a new physical body.

The Spiritual Movement is born when the existing organism through which the Flame of God is endeavoring to express no longer meets the requirements of the evolving spirits within it, and the minimum amount of spiritual force is not allowed free play through the open doors of such existing organism. The planet Earth, of course, being so far behind its natural evolutionary course on the scale of life, requires a tremendous spiritual impetus to hasten its development through the expanding consciousness of its people. If existing Orders, after a given time, are not found sufficient to supply the necessary spiritual currents which are the impetus to the raising of the souls of men, there are Cosmic Grants given for the establishment of a new spiritual

organism, and some Members of the Great White Brotherhood, in co-operation with Their chelas, apply to the Sun of Their System for the Grant required to set into motion the New Endeavor. This is what the Masters Morya and Saint Germain received from the Heart of Helios and Vesta.

Because of the Grants given to the Holy Christ Selves of the race in January and July of this year, We have had more than ordinary assistance and very gratifying co-operation from certain lifestreams who, by the acceptance of the opportunity afforded them, have been builded into the Heart of the New Endeavor. We are still engaged in building or creating a perfect heart, which is the Chalice of Love, and each cell (lifestream) is being individually moulded and blended into the greatest perfection so that when the spiritual organism begins to build around the heart, it may be fed by a strong, healthy, imperishable center because a body with a weak heart is ineffectual. It is, therefore, My deep heartfelt petition that each of you who have any comprehension of the present Activity give all the power of good in your lifestream to strengthen each cell by the love, confidence, faith and nourishment which a spiritually-minded mother in the physical octave would devote to the embryonic organism which is to be the body of her infant.

At the instant when Saint Germain directed the Flame from the Heart of the Transylvanian Retreat into the hearts of the waiting Inner Circle in Philadelphia, the initial impulse of the Great Central Sun's Magnet was established through that Flame, and the lifestreams assembled there formed the nucleus of the Sacred Heart which is yet in the process of development and purification.

Other cells are being constantly prepared, and will be added as soon as they are ready. The second and third meetings after this did not show much increase, but by the time the fourth pulsation of that magnetic pull was increased, a goodly number of lifestreams responded and We had an infusion of fresh spirits at the meeting in New York City on the occasion of Suva's outpouring. While the Retreat at Suva was active, the Holy Christ Selves of those who had accepted the Masters' Presence behind this Movement were busily engaged in preparing the outer self of each one to be ready to become part of the Heart of the Activity by the time that the Ray from Shamballa would strike the planet on the 15th of November.

It is very difficult to explain the importance of the creation of a new Spiritual Organism to the outer mind of man, but looking at it with the inner eye, you would see this beautiful pulsating Flame, which is the Masters' Gift, and each of the lifestreams who form the initial core, like a pure shining Light Cell - the whole forming a circular band around the Flame, drawn to It by Its magnetic power, and each cell drawn to its neighbor by Love. When 'new' cells are added, they come in around the Central Flame and all are then moulded into the form of a great Heart.

The power of the heartbeat forms the rhythm of the body. The Cosmic Body of Christ is made up of the lifestreams of every individual belonging to the race; and when the Heart is composed of chosen, self-conscious, comprehending individuals, it is but a comparatively short time before the whole body is filled with Light.

The opening of the Retreat at Shamballa on the 15th of November of this year, specifically dedicated to the forwarding of the progress of the Holy Christ Selves of the race, represents a Cosmic Moment which is equal, in importance, to the Descent of Sanat Kumara from Venus. For this reason, it is of Cosmic Import that the student body be in attendance in their various places of meeting when Shamballa sends forth Her First Cosmic Impulse.

Daily We are being offered new 'cells' which the Builders of Form are joyously weaving into this Great Cosmic Heart, and it goes without saying that the sooner it is completed, the quicker it will commence its own rhythmic pulsation by which it will draw around itself the complete corporate body composed of every member of the race. This is the Cosmic Christ, the building of Whose Glorious Body becomes the Activity of the New Day.

Blessings and Love,

The Office of the Holy Comforter to Life embodies many diversified activities because there are so many countless ways and means of creating and sustaining Comfort. This morning we will speak on the activity of Spiritual re-education.

Every self-conscious, intelligent being created by God, through the use of his own thought and feeling centers, creates vibration, and contributes to the motion of the energy of the universe to which he belongs.

In the early Golden Ages, where the life flowed in agreement with the Cosmic Law of Love and Harmony, there was no such thing as discomfort because each individual was a Comforting Presence according to the natural Law of his own being. The Office of the Holy Spirit amplified the natural harmonious vibration of each lifestream and all, because of the affinity of their own vibration with the Cosmic vibration of the Holy Trinity, were imbued with the Nature of the Holy Spirit.

When man began to experiment with the creation and projection of inharmonious vibrations, he set up the causes which would manifest in the effect, with discomforting results, such as sickness, limitation, separation, death, and so forth. The centuries which followed increased the tendencies to create inharmonious causes until the entire race was in travail of one kind or another, and the cry from the planet and its people for com-

fort became a universal petition, although its worded form was varied.

I have explained how the Realms of Nature, under the direction of the Holy Spirit, have done what they could to provide an environment conducive to the sustenance of life. Today I speak of the Teachers who are the Messengers of the Great White Brotherhood, and whose endeavors are to educate the consciousness of the people so that they may become their own Comforting Presence through learning to abide within the Laws of Harmony, Beauty, Love, Kindness, Tolerance, Purity and Peace. Every man must, some day, become the Comforting Presence, through the energies of his own lifestream, to his own physical body, his inner bodies, and the Forces of the Elements within and around him; then to the life that is drawn into his environment through circumstances, karma, or the desire to receive the blessings of abiding within the periphery of the aura of one who has aligned himself again with the vibrations of the Cosmic Comforter through the similarity of the natural emanations of their respective vibrating centers.

The vibration of the energy in any being, human or Divine, is magnetically drawn to all other beings who vibrate according to the same pattern, although the seat of the vibration and the purity of the tone and color may not be equal because of the evolution of the Master Presences of the Universe as compared with the chelas still upon the lower rungs of the ladder of evolution; BUT if an affinity exists in the quality of the vibration, those individuals will be contented and happy in the harmonious association - and those, the Holy Spirit can work through, as in the say-

ing: 'Even the least of these'. However, if an individual, within the creative centers of his own thought and feeling, is sending forth vibrations of an impure nature, such an one will be uncomfortable in the presence of Purity.

If he be, through the subtle ethers, directing currents of energy of a warring nature, he will find discomfort in the Presence of the 'Prince of Peace'; but such an one, entering into the Presence and Power of the Master, though he may not find affinity within himself in the vibration, yet if he be sincere, he may, in time, pattern the vibration of his own energy after the Greater Light, and even though he may suffer through proximity to the vibration which is not akin to his own human nature, such an one, by choosing, self-consciously, to expose himself to the vibrations of the Perfected Beings, will learn to emulate that vibration; and not only will he enjoy absorbing the radiation of the Master, but he will become a Presence of that same Peace, Purity, Comfort and Healing in himself.

This, then, is My Service to those who choose to come within the aura of the Holy Comforter; and even though they may not yet be a Comforting Presence to life, if they will expose themselves to the vibrations which are My very Being, they will, one day, embody the capacity to externalize Comfort. This I promise.

My reason for being in this Universe is to bring Comfort to every electron and atom, every elemental, human and Angelic being created of the Father and endowed with the Gift of His Life.

All the energies of My Intelligence are dedicated to evolving, through the intelligence at My command, ways and means of increasing the efficacy of My Life Energies toward this service. Every cry of pain that rises from this star passes through My Heart, for I am He who has been endowed by the Father of all Life with the opportunity and privilege of bringing Comfort to Life.

No lifestream is comfortable until it comes into a knowledge of the Law of Love and Harmony and chooses, self-consciously, to abide within that Law. Temporary surcease of pain and distress is effected through Mercy and the Great Law of Forgiveness which wipes out the effects of former transgressions; but it is the education of the consciousness, so that each one becomes the Comforting Presence through his own life, which engages the services of the Seventh Ray at this time.

Therefore, in My capacity and service, I endeavor to encourage the individual to enter into an understanding of the vibrations of My Nature and externalize that Comfort through conscious cooperation with the principles of Love and Harmony rather than create, through My own efforts, a canopy of protection which is the essence of My Being and not of the chela's. This is the Path of the Spiritual Father which, seemingly, is more strict than that of the indulgent human parent, but yet, in the Great Love of the Cosmic Christ, builds a permanence in the consciousness of the lifestream which will sustain such an one were the Sun to dissolve in the heavens and the Host of Heaven cease to be.

I would suggest that you withdraw into your-

self, if it were only for five minutes, three times a day - morning, noon and evening - and there contemplate whatever Master you seem to have an affinity for; let the Master's Consciousness flow through your affairs; get His feeling about the people you are associated with; ask for and receive His picturization of your Presence through your flesh, for let Me assure you, that it is in this way, and this way only, that you will attain the Ascended Master Consciousness.

Blessings and Love,

Sanat Kumara and Those who came with Him from Venus have been called the 'Lords of the Flame of Immortality'. In His descent into the Heart of Shamballa, He brought with Him a concentration of the Flame that had never been known on the planet Earth because it represented the vibratory action of Venus. This Flame He externalized at Shamballa and It has grown and intensified through those millions of years since that time, pouring out the Keynote of Venus and the vibration of this superior star into the atmosphere of Earth and the consciousness of her peoples. A stream of Light from this Cosmic Flame is anchored into the heart of every human being who incarnates on Earth.

The action of the Flame from Shamballa was primarily designed to create self-conscious generating centers of Light through the life intelligences inhabiting the Earth, and the sole purpose and reason for Sanat Kumara's Presence is to create these self-conscious light-bearers. This is the only way and means by which the planet can fulfill its destiny and contribute to the Universal Solar Song. Therefore, when the plans were made to expand the Light at Shamballa for the current month (November 15 to December 14), the Nature Kingdom, the Elemental Kingdom, as well as the Human Kingdom all offered to become a part of the activity, and the Beings who are in charge of the Forces of the Four Elements, the Builders of Form, the Angelic Host and the Devas all sent representatives to Shamballa. Of course,

the human family was represented by certain Ascended Master Sponsors.

All these representative Beings were authorized to direct the Flame into their specific Kingdoms, and it was a marvelous sight to see the Flame entering the various oceans under the direction of Neptune, cleansing and purifying the inhabitants of that element; to see it entering the substance of Earth and through all its creatures under the direction of Virgo; into the air and all the bird life on the planet under Aries. Then, with the assistance of Lord Michael, the Mighty Astrea and the Angelic Host, it was directed into the realm of the discarnates, penetrating through the darkness which had not been visited by a beam of light for countless centuries.

When Sanat Kumara entered the Flame Room last evening (November 15, 1952) accompanied by the other Kumaras and the Brotherhood at Shamballa, there began the intensification, through the Power of that Flame, of the Spiritual Light in the hearts of all peoples. After He had directed the Rod of Power into that Flame, it expanded to almost three times its usual size, and naturally the beam of Light connecting it with every human heart received a tremendous added impetus.

The Masters held the expanded Flame concentrated in Eastern Asia through Korea and the war belt for over one minute before it began its journey around the Earth. As the Ray from this Great Flame was received in each waiting Sanctuary, a Three-fold Flame sprang up, taking the appearance of a large tulip bud which held the Sanctuary and all within it in Its Cosmic Presence. The Presiding Master then directed the Ray

to the next Retreat or Sanctuary, and the same activity took place there. The Flame followed a concentrated course, its iridescent Rays creating these exquisite Flame Flowers wherever the students or Masters were in attendance, and then returned to Shamballa.

The next time the Ray went forth to Suva and Shasta and on across the continental United States into Europe, Africa, Asia and Australia, the Band of Light was wider, and when it reached the various Retreats and Sanctuaries, the Flame Flower was increased almost twelve-fold in size, the large petals began to open, and the radiation covered a much larger area in the environment of the focus.

The third time the Ray went out from Shamballa, the wide band of Light looked like a great highway, as compared to a foot-path, and the beautiful Flame Flower increased to almost continental proportions. At this point, Sanat Kumara stepped into the Flame, which caused It to expand to a universal size, and the blazing light that poured toward Suva was as wide as the ocean and the Flame at the Suva Retreat reached up almost to the ten thousand foot level, the Flame Flower opening its petals to their fullest extent like the water-lily or lotus plant when they are in full bloom. This was repeated in every Retreat and Sanctuary - the Presiding Master in each case duplicating Sanat Kumara's action of stepping into the Ray and becoming the stamen in the center of the Flame Flower.

When the Flame returned to Shamballa and the final outpouring took place, ALL of the Masters stepped into the Flame around Sanat Kumara, and

the Earth and Venus became ONE. When the Flame reached Suva, it connected that Retreat with Venus, and all the Masters at Suva stepped within it - and so on - around the world, the same activity taking place in each Sanctuary and Retreat. Thus was completed a most marvelous spiritual service to life which will have a permanent effect upon the soul growth of all mankind, all in the discarnate realms, and Nature itself. This action will continue throughout the entire month. The Rays will go forth at the same appointed time each evening, and We invite as many as possible to take part in the drawing in and projection of the Flame at the same hour you held the ceremony in your Sanctuary, no matter where your bodies may be at the time. It is always possible, even in the midst of outer world activity, to withdraw into yourself for a few minutes, consciously connect your thoughts with the activity of Sanat Kumara and the Masters in Shamballa, and experience the joy of assisting to bathe the planet once more in Sanat Kumara's Cosmic Flame of Cosmic Love. The Light is not an intellectual radiation, but rather one of feeling, and We are hoping that, through the impetus of this Mighty Activity at Shamballa, the capacity of mankind to create and sustain shadows will be lessened, and the desire and power to emit light will be increased, first through the self-conscious cooperating students, and then through all men.

The opening of the Retreat at Shamballa represents the close of a great cycle of time during which the very existence of the Earth was sustained by those Blessed Beings who voluntarily chose to lend the power of Their developed radiation to a planet whose existence contributed no spiritual value to the syatem of which it is

a part. Millions of years have elapsed since these Great Ones took on our responsibility, and the time of the Dispensation runs out with yet the far greater majority of mankind engaged in creating shadows rather than sunshine. Even the patience of the Universal cannot allow the sacrifice of Beings as great as Sanat Kumara to go on indefinitely, hence this great impetus of expanding the Light was set into motion by the Brotherhood in the hope that it would stir the souls of men and provide a proof to the Cosmic Law that the mankind of Earth were rising to fulfill the Office and Service of these great Friends of Life. The Year 1952, therefore, represents the beginning of a great Cosmic 'push' in this direction, which We hope will result, with the assistance of the self-conscious students, in the redemption of the race.

Blessings and Love,

MAHA CHOHAN

As We come to the close of the twelve-month cycle, all of Those who represent the Spiritual Hierarchy are gathered at Shamballa, and here We celebrate a Cosmic Thanksgiving in which every one of the Brothers is a participant.

It is a marvelous opportunity to release the concentrated blessings of life upon each and every one who has served and increased the Comfort of the Universe during that period.

The great Audience Chamber is open for this Festivity, and the evening before your national holiday, and for four days and nights thereafter, there is a constant outpouring of blessing and benediction upon every electron, elemental, animal, human, Amgelic, Devic, Ascended Master and Cosmic Being who have consciously or unconsciously contributed to the forward progress of the race.

It is a beautiful sight to see the various kingdoms gathered to receive the honor and blessing of the Sun of our System, through its representatives, in conscious gratitude for life well spent. Also to this great Feast of Thanksgiving certain members of the human race are invited and given the honor and recognition which they have earned through meritorious service in the world of form. There is not a lifestream who has given 'even a cup of cold water' in the Name of the Presence of God but is acknowledged and blessed therefor, and such is the memory of the Perfected Beings that no electron is slighted or overlooked in this time of Thanksgiving.

This year, because of the tremendous response of the lifestreams who have been chosen to represent the vanguard of the New Movement, there will be a particular blessing upon the individual members and their cooperative groups for the strength of their Light and the accuracy of the perception, which gives Us the opportunity to apply for a greater Dispensation at the January Council.

One of the most exquisite ways of preparing for the Christmas Season individually is for each lifestream to consciously and earnestly prepare his own ceremony of Thanksgiving and, officiating upon the Altar of his own Christ Temple, invite into the Presence of his own God Flame all of the life that has served him during the twelve months that have passed and, through a special blessing and benediction, confer upon that life the added substance of his own Christ Nature. This ceremony will show each man how rich he is in the blessings that have filled his world through the channels in every kingdom - natural, human and Divine. In such an activity, no bitterness or discontent can live. Also, every Master to Whom the individual extends an invitation to his ceremony, will respond and enter into the Sanctuary of the heart where such a Thanksgiving is being celebrated; and this visitation, alone, will bring a return of spiritual blessings far beyond the comprehension of the outer man, for the individual effort involved in preparing such a Thanksgiving Service to life.

If you will rise on the tide of the Flame of Thanksgiving, which is the rhythmic pulsation from Shamballa, directed by Sanat Kumara, the Chohans of the Rays, the Cosmic Beings in charge of the Forces of the Elements, the Great Arch-

angels and Devic Lords into Their Kingdoms, you will find an acceleration of your own life wave which can become a permanent blessing and conductor of Their constructive energies into your world and activities.

This Flame of Thanksgiving has gone forth rhythmically since the day when the thirty Beings knelt before the Coming of their Lord, and it has builded in power as each lifestream became aware of the benefits which have poured through it, for the most part, without recognition for centuries. It is only the outer self that is not alert enough to realize the measure of Thanksgiving which we owe the universe, even by reason of the sustenance of a physical body alone; and the farther the lifestream proceeds on the Pathway to the Heart of God, the more each one finds what there is to be thankful for. Man, on the lower rungs of the ladder of evolution, is not even aware that there is a Spiritual Hierarchy, so Thanksgiving to these beings is not a ceremony of the heart, but when we enter the Ascended Master Consciousness and see the workings of the Inner Law, and the tremendous assistance of the Elemental Kingdom, the Angelic Host, as well as the Brotherhood, we realize more fully our indebtedness to life. For Myself, I am told, that in those Realms to which My Consciousness has not yet ascended, the intricacies of the Blessings of which we in this universe are the recipients, and Those of Whose source we are wholly unconscious, is unbelievable. So, the higher we go, the more grateful we are, and the more humble we get before that Power which is Our Life.

We have been advised by Sanat Kumara that, on Thanksgiving of this year, the Seven Retreats of

of the Chohans of the Rays and My own Retreat will be permanently open in order to allow the lifestreams evolving upon the planet the opportunity of intensified training upon the particular Ray which forms their natural vibration.

This opportunity should do much to increase the capacity and power of each lifestream to become master of the energy of his own life, and I would like to set forth the locations of these Retreats at this time:

El Morya	Darjeeling
Kuthumi	Kashmir
Paul, the Venetian ...	France, nr Marseilles
Serapis Bey	Luxor
Hilarion	Crete
Jesus and Mary	Over the Holy Land
Saint Germain	Transylvania
Maha Chohan	Ceylon

Note: A list of current Retreats and their Heirarchs will be found immediately preceding the Reference Index of this book.

This activity will in no way conflict with the progressive radiation which will form the pattern for 1953. It is a supplemental activity whereby the Chohans of the Seven Rays and My humble Self will be given the opportunity to accelerate the progress of the people who belong to Their Rays at this time. For lifestreams who are not yet aware of the Ray to which they belong there will be Beings provided who will take them to their proper Retreat while their bodies sleep.

A good way to find your Ray is to repeat over

the names of the different Chohans and then wait for the vibration which will strike through your energy when you reach the One which corresponds to your natural heritage.

Now, in the Name of the Giver of all Life, I enfold you, each and every one and all mankind, in the Cosmic Flame of Love and Gratitude that rises like incense to the Throne of the Most High on this Glorious Feast of Universal Thanksgiving.

Blessings and Love,

MAHA CHOHAN

A CHRISTMAS MESSAGE

As the planet Earth comes to a fulfillment of its yearly revolution around the Sun, the vibratory action of the twelve months begins to sound its final chord and note which contains within itself the Keynote of the year and which, for the remaining days of the year, is the predominant vibration felt by all people everywhere.

The Members of the Great White Brotherhood and every Being connected with the evolution of the planet endeavor to complete that portion of their service (which had been allotted to them at the beginning of the year) by the 15th of November. Each one makes it His personal or Cosmic business to 'close His books', so to speak, by this date, and turn His footsteps, as well as His thought and attention, to the Great Conclave at Shamballa. Here all the Blessed Children of the One Father come, filled with the happy anticipation of the joyous reunion and loving association with Their Celestial Brothers, coupled with the Glorious Feast of the Christ Mass in the Bosom of Their Father.

Every Being, whether incarnate, discarnate or Ascended, is a vibratory center - like a plucked harp string. In the Ascended and Cosmic capacity, the pulsation of vibration which forms the radiation of service takes on the single note at this time, which is the Keynote of the year, and all the variegated services of the Brotherhood blend

gently into that note, forming the 'Christmas Spirit' which is felt, absorbed and enacted by the race. Thus the Keynote of the year is once more impressed powerfully on the bodies, the akashic records, and the atmosphere of the Earth, so that the greatest possible service to man might be stamped on the consciousness of all people before the new vibration of the coming year is felt and interpreted. It has the same effect as the repetition of a theme of music, which is eventually picked up and made part of the consciousness of the listener. It has the further purpose of stilling the consciousness of all beings preparatory to the reception of those new forces and currents that become the predominant vibration when the Lord of Life releases the Thought-Form and Feeling vibration which will become the Keynote for the coming year.

Speaking of the 'Keynote', you will remember, in retrospect, how the instant the last stroke of midnight sounds on every New Year's Eve, the Great First Cause projects through the Silent Watcher into the Consciousness of Sanat Kumara, and through this Great Being into the consciousness of the Great White Brotherhood and the assembled multitude at the Rocky Mountain Retreat the Cosmic Design of some particular and specific Keynote and its representative Thought-form which becomes the heart of the diversified activities of the Brotherhood for the twelve months ahead so far as the radiation to and through the consciousness of mankind is concerned.

Shamballa is a most unusual Retreat for many reasons. It was the first one established on Earth, forming the pattern for the Great White Brotherhood which Sanat Kumara Himself instituted. Besides the great Council Halls, Record Rooms

and Treasuries, there are enormous Guest Houses in which each member of the Brotherhood is assigned a permanent room. This room belongs to Him forever, or as long as He cares to use it. Many unascended beings who, at inner levels, are members of the Brotherhood, have rooms here at Shamballa, and these remain for each one a permanent focus on the Earth long after the Ascension. Even the Lord Buddha and the early Krishnas still retain Their own compartments in this Mystic Retreat, and the fragrance and vibration of each private contemplation room is distinctive and descriptive of the Being who, from within that Sanctuary, has served Life.

As these joyous Sons and Daughters of the Kingdom return 'Home', They are each enfolded in the outstretched arms of the Father (Sanat Kumara) and then each One is escorted to His or Her own particular compartment. Here They immediately begin to reverse the currents of Their own Life or Consciousness preparatory to entering the Great Silence where the 'pull of the Earth' ceases for Them and the 'pull of the Father' becomes the magnetic attraction in Their Feelings. Thus the weight of the Earth and its needs are no longer a suction on Their consciousness and vital energies.

When each Being has become imbued with the Silence, He returns to the Great Hall where He mingles with His Friends and They have a happy time comparing notes about Their Work, talking about Their respective chelas (each One very proud of His own) and so on; all contributing the joy of Their combined consciousnesses to the Festive Occasion. When all the Members are assembled, They repair to the Great Banquet Hall where a magnificent feast has been prepared for Them. There are speeches and laughter and song,

for be it known that these Sons and Daughters of the Kingdom are gay and charming and happy. They have not lost Their sense of enjoyment through the attainment of Their Ascension - rather is it expanded a thousand-fold.

It is understood that each Member is free to utilize the Christmas Season (from December 21 to December 27) as Their heart dictates. Some go on visits from one star and planet to another, or go from home to home on the Earth plane - all carrying the Love and Light of Their own life-streams to enrich the Presence of Life wherever They go - whether it be the Godhead, the Guardians of the race, or the Friends of Their bosom.

It is a time when the Masters don the Festive Robes of the Feast Days, and the glory of the unbound hair and the golden sandals blend gracefully and beautifully with the exquisite design of each Being's garment, woven of the Love and Service of His Lifestream in the twelve months that have passed.

The vast Temples where the Perfected Beings join voluntarily with the Great Host of Light in Praise and Devotion to the Source of All Life are filled to overflowing with the reverent and joyous multitude. It is thus that We revel for this small period of time, following the Light of Our hearts, and the Upper Heavens sing with the Glory of Beings who reverence and respect the slightest show of service in gratitude that is selfless and true, and an expression of Friendship indestructible.

Let Me say here that it is an opportunity for the Friends of the Heart, as yet bound in Earth forms, to rise during the sleeping hours and the

time of contemplation on the wings of Gratitude and Love into the Heavenly Realms and Homes of those whom they feel have enriched their life-stream during the twelve-month period, where each Master keeps 'open house' for His friends - ascended or unascended. The peace and exhilaration of such Cosmic excersions of consciousness will prove a marvelous lever that many a grateful heart will wield into the raising of the Self into the ONE.

Lest you should feel that the Earth plane is left without succor while the Brotherhood have entered the Higher Octaves through Shamballa, let Me explain that each One established, in the locality and atmosphere which has been His sphere of service, a permanent Pillar of Light magnified and magnetized by His own Life and Light and pinned into the Earth through His Directive Will. This activity He sets into motion several weeks before He enters the Great Silence, and into this Pillar of Force He directs the radiation and sustaining power required to hold the focus which He has set up until His return. Therefore, although He Himself withdraws to take His short and well-earned holiday in the Heart of the Great Silence, the radiation and comfort of His Presence remain to sustain His activity while He re-energies His own valiant spirit.

As this is Our Christmas Message designed to give you a little joy of the Season, I thought that this short description of how We, the Ascended Host, spend the Holy Season of Christmas might please you.

All the Hosts of Heaven join Me in wishing you, each one, a most Holy and Happy Christmas Time.

Blessings and Love, MAHA CHOHAN

One of the most beautiful activities connected with the closing of the yearly cycle is the mystic ceremony whereby the Lords of Karma close the individual Book of Life for every lifestream incarnate upon the Earth during the twleve-month period that has passed.

This ceremonial takes place on the last evening of the old year in the Great Temple of Karma located within the Etheric Belt. It is a particular service for embodied individuals and, although it includes those who had any portion of an embodiment within the year, it does not include the discarnates or those who have not had an active Earth experience for at least one hour of the twelve months. This is the merciful Office of the Karmic Board and is performed in order to allow the lifestreams of the race to be freed from a portion of the errors and mistakes of the past year made, not so much through wilful disobedience to the Law as through lack of discernment, discretion and discrimination. In other words, the mitigation of evil effects relate only to those whose causes are motivated with no evil intent but which, nevertheless, oftimes produce unnecessary confusion and distress in their wake.

You would be surprised and gratified to know that almost a quarter of the karmic legacy of the race is caused through 'blundering' rather than wilful disobedience of the unseen or manifest Law, and the mercy of the Karmic Board (from the beginning of mankind's experiment with the Law

of Cause and Effect) has always allowed, at the close of the year, this merciful melting away of the karmic punishments due to this laxity, which accounts for the lightness with which individuals enter the New Year - filled with hope, resolutions and a strongly embedded desire to improve upon their nature, character and manifest expression.

There are over four billion souls who come under this beneficent mercy of the Karmic Board during this ceremonial. Each lifestream, from the ignorant savage to the most elect and select student, passes through the Halls of Karma and his load is lightened according to the intent of his motives during the past twelve months. Thus, all are enabled to enter joyously into the New Year Councils and receive the greatest possible benefit from the directive energies of the Master Beings who set up the Keynote for the coming year.

The Lords of Karma Themselves allow the lifestream of every individual, at the close of each year, a certain percentage of Grace and Mercy which mitigates anywhere from one to forty or fifty percent of the karmic debts of the year; and this Mercy is always measured against the motives behind all action. After the Lords of Karma have measured the Light of the lifestreams, each one is then placed within the Ceremonial Fire of Purification which is projected and sustained, of course, under the direction of the Beloved Master Saint Germain with the help and sustenance of the Angelic Kingdom and the Initiates who are educated in the direction and sustenance of the Sacred Fire in Its purifying aspect. Thus, consciously or unconsciously, every lifestream upon the planet tastes and experiences

within his own body the purifying action of the Seventh Ray at the close of each year, and the soul and the inner bodies step forth from this purification with a greater opportunity for progress and less accumulation of a binding nature. Of course, it must be understood that each lifestream receives the ultimate amount of Mercy and Grace that his own merit for the past year has allowed him.

If it were not for this yearly purification, mankind would, within seven years, destroy their minds, bodies and possible useful service for that incarnation. To a certain extent it performs the same service that every soul is blessed with at the close of each embodiment when, through the Purifying Fire of Cosmic Mercy, it is released of the karma of that entire life span which was created more through ignorance and stupidity than through conscious intent to do evil. This is the Comfort and Mercy extended by the Father of Love to His children, and it is the only hope for the survival of life upon the planet. My particular Office requires My Presence in the Hall of the Lords of Karma during each individual judgment, because every lifestream comes under My individual radiation, and it is important for Me to see what the year has yielded in soul growth and possible expansion of Light.

You have been told how, on the stroke of midnight on each New Year, the Silent Watcher releases into the consciousness of Sanat Kumara the Keynote for the incoming year; and it may interest you to know that the Keynote for the Year 1950 was the Love Star; for 1951 it was My own Insignia - the Dove of Peace; and for this Year of 1952 it was an Ear of Wheat - signifying the

accomplishment of each lifestream.

In this Year of 1952, which is called 'the Year of the Harvest', we find that the accomplishment of the individual intelligence will be a paramount issue before the Karmic Council because the edict for the year was that every intelligence, Divine as well as human, was required by Law to utilize the talents, powers and capacities developed by the lifestream in contributing to the expansion of the Light through the human race.

Because of the fiat concerning the Ascension of the Sun and Its System within the twenty year period provided for preparation, more than ordinary measures had to be adopted for those capable of understanding and cooperating with the requirements of the Law. It is, therefore, an Age of unusual opportunity for the aspirants, as well as extreme leniency, in the Grants from the Higher Authorities, and also a period of extreme responsibility for those who are privileged to share in the inner significance of the Cosmic Moment.

As the Great Conclave at Shamballa closes, and the Brotherhood prepares for Its individual and collective audience before the Lords of Karma at the half-yearly Conclave, every unascended being will do well to remember that as he has shared in the Vision of the New Day and is aware of the significance of the Year, he will likewise be called upon to render a personal account of the utilization of his talents and energy during the course of the past year in a public meeting before both the Lords of Karma and the entire assemblage of ascended and unascended

beings who will all enter the final Outpouring of 1952 each carrying his own Sheaf born of the single Ear he had received on New Year's Day from the hands of the Silent Watcher and Sanat Kumara.

It is needless for Me to say that it is the earnest and heartfelt prayer of each member of the Ascended Host who has stood Sponsor for the unascended lifestreams that the harvest gleaned by each one will justify the faith such Sponsor had in the capacities and endeavors of each individual student and chela.

Blessings and Love,

MAHA CHOHAN

The consciousness that a man has evolved from the beginning of time is really the only intelligent possession which endures through the cycles of birth and death. An individual's consciousness is also the only focus through which the Godhead can increase the wealth, not only of a particular lifestream, but of the manifest world. Each individual endowed with a consciousness, the faculties of intuition, of spiritual perception and inner sight can, by self-conscious effort, raise his own consciousness to union with the Cosmic Christ and, by so doing, become an invaluable instrument in the fulfilling of the Divine Plan through cooperation with the Will of the Father.

When great lifestreams, such as the Master Jesus, prepare the instrument of their consciousness for many lives in order to provide an incarnate focus through which the Godhead's Purpose might be fulfilled, they are serving a Cosmic Purpose far beyond the comprehension of the human self.

In the physical birth of the Master Jesus We have the far more mystic and exquisite manifestation of an individualized self-conscious Intelligence who, by persistent effort through centuries of time, evolved a consciousness whose vibratory action was pure enough, sensitive enough and rapid enough to be the Grail of the Divine Will of the Universal Father. The Father and the Son became ONE, not only through the descent of the Cosmic Consciousness, but through the tremendous

individual endeavor of the Master Jesus to evolve and quicken the vibratory action of His own Consciousness through century after century of personal effort, and to sustain it at a high enough level that the subtle currents of the Cosmic Christ might be held within it, and translated by the Mercy of Transmutation into a language of Light as well as sound that could be interpreted and understood by the outer mind of the masses.

In entering the Holy Christ-Mass Season, the human consciousness of every aspirant to the Light may become a Grail into which the Divine Consciousness, which Jesus lived and expressed, may enter. To cultivate, to think and meditate upon the Consciousness, the Feeling and the Radiation of the Master is to become like Him in Nature, and to become like Him is to gain your own Freedom and to give Him another instrument or vehicle through which He may pour His Radiation in order to fulfill His Work as Representative of the Cosmic Christ.

There could be no more beautiful Gift to Life than to dedicate one's daily activities, one's whole nature, and one's being to the Presence of All Life and to the expansion of the Christ Spirit, for in losing one's lower self, one finds the Greater Glory of the Higher Life.

As the Presence of the Master is only able to reach the consciousness of the individual through the medium of silent prompting within the feeling nature, or through brilliant flashes of illumination through the medium of the Holy Christ Self, we must all learn to cultivate, particularly through this Holy Season, enough Silence in our own outer nature to allow the vibrations

of the Presence to record, with sufficient quality of intensity, the inspiration which becomes the Guiding Activity of our daily lives.

Let us practice, then, the habit of listening to the Voice of God instead of the clamor of the outer chaos, because the Voice of the Presence has, unfortunately, too few outposts through which It can guide and protect the destiny of the many in the days ahead, and the momentum of balance must be gained beforehand if we are to be of use in the coming hours and days.

If you can and will make this effort, you will find the Divine Teacher will set your Path in order and things will progress to a point where you become of greater help and assistance to those around you. This must come for every man, every woman, every child, for it is pre-ordained by Life; BUT we can press that day if we are wise.

This is the Happiness and Privilege, Joy and Ecstasy of the True Nature of Man when he fulfills his Divine Estate and, tasting the Joy of co-creation with God, becomes established as a Potential Sun of a New System.

Let this, then, be your Christmas and New Year's Endeavor.

May the Joy and Accomplishment of the Beloved Jesus' Cosmic Christ Consciousness be yours now and forever.

Blessings and Love,

MAHA CHOHAN

The Great Council Chamber at the Rocky Mountain Retreat was opened in order to accomodate more than five thousand members of the Ascended and Angelic Hosts who participated in the Transmission of the Flame around the world last evening.

It was a beautiful sight to behold as every Guest, in honor of the Year of the Harvest, wore pure white robes with a sheaf of wheat embroidered upon it in gold, resting over the heart, and bands of color on the full sleeves and around the hem designating the particular Ray and Sphere to which each One belonged. Each One also wore the golden-crested scarf over the shoulders, carrying the insignia and office of each member.

The floor of the Great Council Chamber slopes gradually toward the front, and each high-backed Throne Chair was draped in velvet bearing the insignia representative of the Office of the occupant. The color of the velvet corresponded with the band around the sleeves and the hem of the garment of each One. A large velvet cushion of the same color, with a tassel at each corner, on which the feet rested, completed these appointments.

The Throne of Sanat Kumara was centered facing the High Altar, with the Throne of Lord Maitreya on the right, and that of the Maha Chohan on the left. Those of the other Members of the Hierarchy were arranged in a semi-circle around the central Throne.

The beautiful Throne Chairs are the permanent property of each Master. They are fitted into a groove in the floor, but can be removed and rearranged according to the nature of the Ceremony or the position of the Master officiating.

For instance, the Thrones of Serapis and Lanto were placed upon the platform facing the audience, but on New Year's Eve, the Throne of Sanat Kumara will be moved from the audience floor and put in the place of honor on the platform.

The entire Council Room was decorated with lilies, and the Master Kuthumi, wearing heavily embroidered golden bands on His sleeves and robe - complimenting the natural beauty of His appearance, played on the great organ.

Lanto and Serapis, because of the great number of guests, chose to draw the Flame from Its own Chamber into the Council Room as there were not sufficient facilities in the Flame Room to accomodate all the members who wished, voluntarily, to participate in the expansion of the Flame.

On the center of the great Altar, the Golden Flame took the form of a lily, and the Green Flame - the leaves and stem, from which it rose as high as the nave in the vaulted ceiling.

The Thrones of the Lords of Karma faced the audience from high in the atmosphere over the Altar, and the Presence of the Silent Watcher, clothed in azure blue, encompassed the entire assembly in His Radiant Presence.

The Throne Chairs of Jesus and Mary, each canopied entirely in lilies, were placed one at

each end of the semi-circle forming the first row, so that they connected with the wide Altar and formed two arched doorways of lilies into the Great Flame.

Because of the interest of the Holy Christ Selves in the Activity of 1952, the upper atmosphere was filled with a great multitude of these Christ Selves, and a beam of Light from the heart of each one entered into the lily-formed Flame on the High Altar.

The Sponsors of the various groups left Their seats just prior to the actual Ceremony, although all the Masters spent an hour in contemplation of the Flame before taking up Their posts in the different localities. Through the faculties of Their own vision and contemplation, They drew a tremendous concentration of the Flame into Their own Consciousness and re-created these beautiful lily forms in the vicinities where the groups were gathered.

The Master Serapis, completely clothed in white, and whose vestments were unrelieved by any color, presided over the actual projection and direction of the Flame. His robe was of a shimmering material, the contrast on sleeves and hem emphasizing His Ray being of a crystal-like substance.

The Master Lanto, who served with Him, also wore a pure white vestment, but His was complimented with jade green.

The Members were asked by Serapis to visualize the Flame Lily around every lifestream belonging to the Earth's evolution, both incarnate as well

as those waiting for re-embodiment, and for thirty minutes, while Kuthumi played the sacred songs honoring the birth of the Master Jesus, this visualization took place. Then, at the moment when the Flame was to be directed, both Serapis and Lanto projected Their Flame into the Sacred Flame-Flower which made it grow larger and more brilliant, and was the signal for the Brotherhood to breathe it IN and then project it forth upon the Pathway around the world.

The reception of the student body was so beautiful that it took less than thirty seconds to encircle the planet and return to Its source. Every lifestream upon the Earth received a permanent focus of that Flaming Flower which will act as a stimulus to the development of their own Christ Nature.

The entire Earth took on the appearance of a gigantic lily resting on a green base, and during the half-hour's contemplation following the projection, the inner atmosphere of the planet and the various kingdoms, as well as the very substance of the Earth itself, was blessed with the greatest outpouring of the Cosmic Christ Light that has been known since the last Golden Age.

Now may the Happiness and Joy of this Holy Season enfold you, each one, and those you love.

The Glorious Ceremony of Purification and Merciful Forgiveness for the misuse of Energy and Light during the twelve month period that is passing into Eternity begins today in the Heart of the Great Rocky Mountain Retreat.

There are no words to describe the compassion of that Forgiving Love of the Cosmic Christ into which the souls of every lifestream upon the planet are consciously drawn that their karma might be lessened, and that they may step forth into the pulsation of the New Year with a new opportunity to find Mercy, and through Mercy - PEACE.

The Great Audience Chamber is completely decorated in all the variegated tones of the Purple Ray - from the most delicate pink violet and blue violet tones to the rich deep purples which represent the most concentrated essence of that Flame of Mercy, Forgiveness and Compassion.

The velvet chair backs and cushions are all a royal purple embroidered in gold, and the Masters and visiting guests wear robes of the varying degrees of the purple color tone representative of Their particular activity in connection with the Flame of Mercy.

Saint Germain's Throne Chair is placed in the center of the platform facing the audience. On His right is the Throne of Kwan Yin, the Goddess of Mercy, and on His left is that of Mary, the

Mother of Jesus. Sanat Kumara maintains His position in the Central Throne facing the Altar, and the two end seats of the semi-circle (previously occupied by the Masters Jesus and Mary) are the Throne Seats, today, of Oromasis and Diana, the Prince and the Princess of the Fiery Element.

The glorious archways connecting the platform with the audience are composed of violets, shading from a delicate pink to the deep velvety purples.

The vestments of Saint Germain embody all the beauty, dignity and courtliness which have earned for Him the reputation of the 'Prince of Heaven'.

A moment or two before the Ceremony commences the Lords of Karma take Their places in the atmosphere above the High Altar. They also wear Their Robes of State, with seven-pointed Crowns upon Their heads richly encrusted with diamonds and amethysts.

The Silent Watcher standing with Arcturus high in the atmosphere above the mountain, bathes the entire locality in the substance of the Violet Light which flows from His Luminous Body like a beautiful garment of the finest of chiffon that has yet a softly luminous quality in its gentle radiance.

The Master Saint Germain, at the moment of the invocation, charges into the atmosphere directly in front of the Altar (before which He stands) a Flash of Flame from His Heart, Head and Hand. This becomes the initial impulse for the Flame of Mercy through which the mankind of Earth will pass.

From the center of this Flame petals unfold, until a great Lotus Flower is formed, its purple petals extending the full width of the wide platform. This beautiful Thought-form is at first transparent, made of a gossamer substance, but which continues to intensify and condense until it forms at last a fairly wide pathway which can be observed by the Lords of Karma who are facing the audience, as well as by the audience itself. This beautiful Lotus pathway is suspended in the atmosphere by a gently curved band of purple Light which is anchored through the violet archways at each end of the platform.

The Goddess of Justice, as Spokesman for the Lords of Karma, then begins to 'call the roll' of mankind. As their names are called, they pass through the archway of violets up onto this pathway of Purple Flame, accompanied by their Sponsors (if they are conscious chelas) and by their Guardian Angels if they are among the masses.

As each one stands for a moment in the very Heart of the Lotus Flame, the motive which prompted the creation of the karma for the passing year is examined, and as much of that karma is wiped away as the motive within the heart will allow.

A steady stream of souls thus proceed across this Flaming Pathway of Mercy and down the further side joining the Assembly (if they are students of Light) or returning to their various homes if they are not yet awakened to the Inner Life.

Every lifestream who has had even one minute of incarnation during the closing twelve month

cycle is given this opportunity for purification and soul-cleansing. Therefore, you will see that the process is a lengthy one and comprises a steady and constant stream in order to bathe and free some four billion souls prior to the release of the vibration of the New Year. We expect this purification process to continue, day and night, up until the midnight preceding New Year's Eve.

The mass of the people is passed through speedily, but the students of Light receive individual attention and assistance.

At the close of this exquisite ceremony, the Lotus Flame is expanded out over the entire Assembly and then, through Their cooperative endeavor, it flows outward and covers the entire Earth with Its Merciful and Forgiving Radiance.

After the completion of this Purifying Activity, mankind is prepared to receive the impetus of the Spirit who is to ensoul the Coming Year, and the Thought-form which will be the Directing Intelligence.

May each and every one of you experience in your feelings the uplifting Grace and the Joyous Release which the participation in this exquisite Ceremony of Compassion and Mercy imparts.

Blessings and Love,

MAHA CHOHAN

In preparation for the Initial Pulsation for the Year 1953, all of the Members and Guests of the Great Rocky Mountain Retreat wore Robes of blue shading from the most delicate sky-blue to the deep intense royal and indigo tones. The chair backs and cushions were of an exquisite royal blue velvet trimmed in gold. Each member present wore the insignia of His own Retreat embroidered over the heart, making it easy for the Assembly to recognize Their specific service and Representation.

Upon the center platform, the Throne Chair of Sanat Kumara was centered facing the audience, with Lord Maitreya on His right and Myself on His left. Sanat Kumara wore vestments of the most exquisite sapphire blue with crystal bands over eight inches deep at the hem and around the flowing sleeves. The garments of Lord Maitreya and Myself complimented His appointments; only the details of the Illumined One's vestments revealed the supremacy of His Great Office.

From Shamballa, Lord Maitreya was allowed to bring the Sceptre of Power, which is the Mystic Pole holding the souls of men within the orbit of the planet which has been designated as their theatre of evolution.

The seats in the first three rows of the Assembly were occupied by the Hierarchs and Representatives of the Retreats of the world; the Members of the Brotherhood and the conscious

chelas filling the rest of the vast Assembly Hall as well as the atmosphere above the entire locality.

The Lords of Karma wore pure white robes with sapphire blue neck bands, and each One wore a seven-pointed Crown (which is the Symbol of His Office) studded with sapphires for this occasion.

The first activity of the year was the presentation of the petitions and suggestions by the members of the Retreats as well as the conscious chelas. After reading them, the individuals making the petitions were given the opportunity of asking for what voluntary support any member of the Assembly or the Brotherhood might choose to give to their Cause.

The Goddess of Liberty, as Spokesman for the Lords of Karma, recorded the requests as well as the Sponsorship of each for the private deliberation of the Karmic Board before the answers to these petitions are handed down within the next several days.

I was so pleased and delighted at the initiative and the voluntary contributions of the various students who had become aware of this great opportunity and made such requests as they felt would be of benefit to the individual soul as well as to mankind at large.

At the end of the Ceremony of Presentation, the Master Serapis Bey presented His report of the progress of the Holy Christ Selves through the 200,000 individuals who were chosen to be the vanguard of the New Dispensation. This report was also given to the keeping of the Karmic Board for

due consideration, upon the findings of which will depend the Grants for 1953. This will be made known within the next few days.

Sanat Kumara acquiesced to the petition of Serapis Bey that the Retreat at Luxor might be Host to the people of Earth for the first period of the New Year in order to give the strongest impetus possible to His Illustrious Successor's endeavors; so from January 15th to February 14th mankind's attention will again be focused in the Heart of the Luxor Retreat in Egypt.

The exquisite Ceremony by which the Master of the past year transfers His authority to the succeeding Master is beautiful in the extreme.

The seats at either end of the first semi-circle in the audience were occupied by the Beloved Archangel Michael and the Great Angel representing Unity (Lord Micah)(see note 1). The center seat facing the Altar was occupied by Serapis Bey, the Presiding Master of the Year 1952.

The beautiful arches on either side which connected the platform with the audience were made up pf Living Cherubim - Their forms bathed in every conceivable shade of the Blue Ray.

When Sanat Kumara signified that the moment had arrived when the Thought-form which would be the Keynote for 1953 was about to be delivered from the Silent Watcher, the entire Assembly arose quietly, and Lord Michael, the Angel Micah and Serapis Bey joined Us upon the platform. We stood in the form of a five-pointed Star with Sanat Kumara in the center facing the audience. The Silent Watcher, who had overshadowed the entire Assembly in His Cosmic Proportion, chose to condense His Great Being to a point where He stood, plainly visible to the entire Assembly, in the atmosphere just above Our heads.

Sanat Kumara then directed the Thought-form of a Cup or Chalice into the Omnipresent Universal Light, to which We all contributed by Our concentrated and directed energy, and this Chalice became the Receptacle into which the Silent Watcher was to direct the exquisite Pattern which would form the Keynote for 1953.

When all was in readiness, the Silent Watcher, raising His hands above His head, revealed within them an exquisite pair of outstretched Wings, with the Head of a most beautiful Cherubic Being resting between them. Slowly, majestically, as the Great One lowered His hands, this form descended and hovered over the Chalice and began to pour through the Vessel, as well as Our upreaching Consciousness, an essence and substance of Love indescribable.

Sanat Kumara, reaching up His hands, took the Chalice and lowered It; then, holding this exquisite Vessel (with the beautiful Cherubim hovering above It) in front of the entire audience He maintained this position until every member of the Assembly had absorbed it into His or Her Consciousness. At no time, however, did the Cherubic Figure enter the Cup; Its essence just poured into and through It from about an inch or so above the rim.

For about thirty minutes every member of the Assembly concentrated upon the absorption of this exquisite Design which is the Symbol of Love

coupled with action, and which is the Grail or Cup of mankind's Invocation for Union with God - no matter by what term the individual knows Him.

The Great Lord Michael and the Angel Micah (co-Sponsors for 1953) then received the Cup from the hands of Sanat Kumara and held it together with hands entwined while Serapis knelt and received the Blessing of the Lord of the World for His Service for the Year 1952.

The two new Sponsors for the current year, with Sanat Kumara, then signified to the Assembly that the moment had come for the sending forth of the Thought-form to the waiting world through the cooperative endeavors of each one of the Assembly's own creative faculties.

As ONE, Sanat Kumara and the two Angelic Beings stretched forth Their hands and the entire Assembly took a long in-drawn breath. Simultaneously with this action, across the breasts of every one present, the Grail and the hovering Cherubic Figure were formed. Then, on the outbreath, the whole Assembly and the entire Host of Inner Bodies, representative of over half the race, breathed out this Thought-form and it was as if the mountain itself shook with the powerful radiation, and millions of Angelic Beings sped North, South, East and West over the face of the Earth and into the consciousness and feeling worlds of all people everywhere, bathing both the incarnate and discarnate souls in the Glory of the Holy Grail. Let it be understood that a Thought-form of an Angel or a Cherubim is a Cup which may be ensouled by a living, breathing Being from the Angelic Kingdom IF the lifestream receiving it can sustain and magnetize it and

keep itself worthy of such a visitation.

This Activity of sending forth the Thought-form for the Year is like the planting of the seed from whence a crop of merit may, by wise gardening, be rasied up. I might add that of the countless millions of this beautiful Thought-form sent forth through the thirty-minute period of consciously directed precipitation, many millions were returned to the Universal, and perhaps only hundreds became the habitation of those Beings who are willing to enter and ensoul those Thought-forms, if so be they are sustained and nourished by the recipients. Thus do Angels come to dwell along the alert and receptive - and the humble.

The Great Central Sun Messenger, who will bring the results of the Grants and Dispensations through the cooperation of the Karmic Board, giving the Brotherhood certain liberties in directing the Work for the Year 1953, is expected on Sunday, January 4, 1953, and Our Report on His merciful Gift from the Supreme Father of All Light will follow.

Blessings and Love,

MAHA CHOHAN

Note 1 - Micah is the Great Angel on Whose Crown blazes the word 'UNION' referred to in Washington's Vision. He is the Son of the Beloved Archangel Michael, and was the Guardian Angel Presence for the Jewish Dispensation at the time of Moses, as the Beloved Cherubim Lovelee is for Saint Germain's New Activity today.

When the Ascended Masters choose lifestreams who, They hope, will assist Them in carrying out the Divine Plan for the planet, They are limited by the fact that They may only take volunteer workers. They cannot go to a University and place Their fingers upon likely members of the race, but must await the voluntary offering of some lifestream to the work of serving humanity which is, in most cases, a thankless as well as a tedious task.

When the volunteers do appear (at rare intervals), the Master in charge of a certain type of work, which the applicant feels he is fitted for, first takes stock of the nature of the individual. He finds out how calm this one would be under emotional strain. He has to decide on the quality of his mental body, and whether he is capable of setting aside his own personal opinions on a given subject and accepting the inspiration of the Master, although it may seem to be against all 'human reason'.

He can tell by looking at the inner bodies how an individual will react if he is put into association with lifestreams who have hurt him in the past, and whether the applicant will react unpleasantly to this etheric memory, thus hindering the Master's work. He must also examine the fortitude of the physical body, as well as look into his intuitional development, which latter will form the only link by which the Master can reach His student in times of crisis.

Having carefully gone over the lifestream, the Master will then place the student in a position where the strain will not be beyond the development of the entire nature. This position oftimes seems of great importance to the outer self, but very unimportant as regards the Masters' work, and vice versa, BUT as soon as the Master takes this material in hand, no matter how poor it may be, He must, like a wise carpenter or engineer use mechanical means to repair the weak places, and if possible, make the lifestream more capable of the Service it is to render Him in the future.

Thus it very often happens that an individual will, at inner levels, present himself before the Karmic Board and offer his services along some particular line in which he has a sympathetic interest; in the majority of cases, the outer mind being utterly unaware of this act on the part of the ego. This very often accounts for the strange conditions and circumstances that the aspirant on the Path finds have come into his experience and which the outer mind cannot account for. This, however, is but a strengthening and tightening of his spiritual 'muscles', so to speak, preparatory to his entering the Cosmic Service for which he has applied.

This condition should not cause undue distress to the outer mind, for be it known that every Being who has ever made His Ascension from the wheel of birth and death has been tested and tried in every conceivable way in order to prepare Him for His Cosmic Service of the future.

A chain is only as strong as its weakest link and the consciousness of the evolving spirit must

be tested over and over again for hidden weaknesses, lest perhaps, when He has attained to great cosmic heights and the fate of a planet, let Us say, depends upon His decision, this hidden weakness might assert itself and cause what could be a cosmic catastrophe.

If the students of the Light will look in upon themselves and determine wherein their weaknesses can be strengthened, We shall have material which We can use with much greater efficacy in the future. All require a tremendous intensification of poise and emotional stability which will allow a greater responsibility from the Higher Octaves to rest upon natures capable of accepting the direction of more energy and the sustaining of that energy in a constructive channel.

Up until the last few years, the meetings and work of the Brotherhood were completely isolated from any contact with the consciousness of unascended beings, and the plans, once promulgated, were sent forth for execution. As all such plans, however, must pass the Board of Karma, the very fact that mankind was not an active and cooperative part of the formation and manifestation thereof, limited the acquiescence and backing of this August Assembly (the Karmic Board).

We are well pleased, therefore, with the opportunity which this conscious cooperation between ascended and unascended beings affords Us, and I cannot urge you too strongly to acquaint as many as possible of the student body of the monthly gatherings at the Retreats designated, so that their outer consciousness may be turned toward Them, and their feelings open to the expression and infiltration of the Plan and Design

of the New Day. In this manner, they may, according to their capacities and worth, become valuable instruments of expression of the God Will.

Let us all, then, with humble hearts and contrite spirits, send Our Love and Gratitude to the Great White Brotherhood and the Lords of Karma from the bottom of our hearts at this season as we begin the New Year, that the Keynote of the Year may abide in our hearts and direct our destiny, keep us free of error, and make us radiating centers of Good for the future.

Blessings and Love,

MAHA CHOHAN

REPORT ON THE DECISIONS OF THE LORDS OF KARMA AT THE NEW YEAR'S EVE COUNCIL MEETING

Because over 100,000 of the 200,000 lifestreams chosen to give particular obedience to the Holy Christ Self have not responded in any manner, the Great Central Sun Messenger did not give another Grant widening the number to receive this Special Blessing for the next six months.

Serapis Bey, in order to give His Successors every assistance, asked if He might play Host to the world, and particularly these 200,000 lifestreams, for the month beginning January 15th through February 14th and endeavor, in a series of nightly lectures, to secure more cooperation from these individuals. THIS WAS GRANTED.

In response to the call that the Holy Christ Selves of the younger generation might take possession of the outer selves at the age of six, rather than eighteen, which is now the Law, a limited Grant was given whereby the Holy Christ Selves were given authority to take possession of the children at the age of twelve rather than eighteen. This is a tremendous opportunity for the race because it gives the Christ Self control before the age of puberty, rather than afterwards, when so much damage has already been done. The Goddess of Purity and the Builders of Form are very grateful for this assistance, as is also the Elemental Kingdom.

The Body Elementals (see article on page 199) have been released from the responsibility of creating new physical forms for lifestreams which are such distortions to life. In other words, when a soul is ready to incarnate, and the Body Elemental is called before the Karmic Board and shown the etheric pattern the soul has made, and is given the 'soiled' elemental substance which is the heritage of the personal ego, the Elemental does not have to submit to the Will of the soul. This is a tremendous blessing for the Elemental Kingdom, for if the souls of men realize that nature will no longer create and sustain bodies for them through which they must attain their freedom and mastery, they will not be so free in outraging the vehicles they wear, and they will eagerly and willingly promise cooperation to the Elemental before incarnating, knowing full well that if the Elemental does not rpovide a body, they have no 'open door' through which to pass to finish their journey. The Elemental, if given the cooperation and assistance of the soul, will, of course, provide a body, BUT the master-slave attitude of the past ages is no more.

Because of the response of the beloved students in the British Isles, My (Morya) repeated request for the saving of the Islands in the cataclysmic changes of the future was granted. We are all rejoiced at this for these Islands have so many memories of sweetness through the centuries. The assistance of the Etheric City over Glastonbury carried a great deal of weight in the bringing down of this decision to seal these Islands in God's Protection.

The absorption of the moisture from the Polar

Ice Caps is being effected through the intercession of Helios, Vesta and the Beings from the Sun so this tremendous concentrated mass may be melted and yet not flushed into the over-full seas, causing the inundation of vast areas of coastal land occupied by mankind at this time. What excess of water has to be disposed of will be channelled through the Pacific Ocean wherever possible. This will change the currents and, to some extent, the climate of the Pacific Coastal areas and the islands in and around them.

The many, many calls for the cessation of war and the cause of war brought a tremendous response from the entire Council, and every lifestream there - ascended and unascended - stood voluntarily as Sponsor when Kuthumi presented this petition. Kwan Yin, as Spokesman for the Lords of Karma, spoke at some length upon this subject, emphasizing over and over again that war is the outpictured consciousness of every man, woman and child on the planet. She explained with deep feeling that to stop all war was comparatively easy, but that in the matter of thirty seconds, the seed of another war would have arisen between two neighbors, the members of one family, or the individuals in a community, and that it would be merely a matter of time until another war would burst. She said that IF the 200,000 chosen lifestreams could PROVE that they could live in harmony and peace, the Karmic Board would be willing to assume the accumulated karma that is now spending itself in Korea, and dissolve it without the necessity of it spending itself in suffering, BUT, if no lasting proof was forthcoming from the hearts of men, the stoppage of the war would mean a needless expenditure of God-Energy. Mankind must learn to cease generating the causes of war, and the effects will be handled, then, in Mercy and Love.

Kwan Yin has offered to assist anyone who calls to Her in overcoming the tendencies to create discord individually and thus become a definite outpost for Peace and Goodwill to all men.

The request that the lifestreams of Earth be made cognizant of the Light-Bearers of the world and give cooperation and recognition to Them was given favorable assent by the Board, and it is hoped that mankind will begin to outpicture Courtesy to the Light of God and those of you who carry it.

The many requests for the Immortal Bodies of Endurance brought forth a long and beautiful lecture by Leto in which the principles outlined by Kwan Yin regarding the war were again stressed. Mankind has been healed of so many distresses through the centuries, at a tremendous expenditure of energies on the part of God Beings, only to re-create the same conditions through infringement of the Law of Harmony and Love. Self-control, self-correction and harmonious management of energy are required by the Law before the assistance can be given toward Eternal Youth and the Glorious Light Bodies which are the pattern of the Divine Self.

Those who are endeavoring to serve the Cause of Good, and who asked for financial freedom were invited to enter a specially designed class wherein they might dissolve the karma that causes financial limitation during their sleeping hours, and then be trained in the moulding of substance

and energy into form through the creative faculties of thought and feeling. All registered, and the Master Surya, who offered to take charge of this course of instruction, with the assistance of the Lord Maitreya, will have to have many helpers from the Brotherhood in order to serve the great numbers desirous of setting their worlds in order in this regard.

The requests for the visible tangible Presence of the Ascended Masters made Us all happy indeed. The closeness with which the student body has accepted Our Presence makes the veil exceedingly thin, and it is not impossible, where Harmony is maintained, to have that veil severed on occasion.

Every lifestream who has signified within the Heart Flame that they will serve the Light, had the release of Light and Power from the Presence through the Silver Cord increased ten to thirty percent. This is of tremendous import to those willing to use this Light in application.

Seven Healing Melodies were given to Saint Germain for release through some chela in the course of the coming twelve months.

Twelve scientific 'discoveries' were allotted to the Master Hilarion to pass on to some intuitive son of man which will bring Religion and Science into closer harmony during the current year.

Particular blessings were poured through the New Administration in the U.S.A. and the Crown of England, both of which, significantly, begin their service in the Year of Unity.

A new pigment which was used in the beautiful art work on Atlantis was given to the Venetian Master to be released through some chela, which will add to the durability of the colors in paintings of the future.

Because Nehru has made a very good record at inner levels, he was granted sixth place by the Karmic Council, and great hope is present in the hearts of the Brotherhood for India and China in overcoming the Communistic elements this year.

All of those able to accept the New Dispensation and the work of the Maha Chohan came in the first quarter of the ratings handed down by the Karmic Board.

THE ASCENSION FLAME AND THE LUXOR RETREAT

The honoring of the Ascension Flame at Luxor through the conscious recognition and cooperation of individuals functioning yet in the physical appearance world is another milestone on the Pathway of Progress from darkness into Light.

The Ascension Flame in Itself is a Bridge from the third dimensional world into the Inner Spheres where emancipated man may live freely in his Fulfilled Destiny.

It is the most powerful concentrated action of centripetal force by which the gravity pull of Earth is reversed and the soul of man swept upward again into the God Estate from whence he came.

The Keepers of this Cosmic Bridge of Pure Flame are the Brotherhood at Luxor who, together with Their Great Hierarch, Serapis Bey, have maintained a constant watch over this Focus of the Sacred Fire so that whatever few members of the race might desire to return Home within the yearly course of each minor cycle could have the impetus of that concentrated power of the Sacred Fire which has been drawn from Atlantis and sustained to the present day through the fidelity of the few.

Last evening, the Brotherhood at Luxor, as well as the visiting Members of the Hierarchy,

all wore white robes - the Beloved Serapis wearing the head-dress of the Retreat - a golden band with two wings of Flame from the forehead - which was the sole distinguishing characteristic of His High Office.

The Luxor Brotherhood entered the Sanctuary of the Sacred Fire and, at a given moment, the entire thousand Members stepped consciously within that Flame. In exactly the same manner as physical fuel expands a fire, so did Their individual Heart Flames increase the Sphere of Influence and expand the Ascension Flame westward to the tip of Africa, northward to cover the entire European Continent, southward to the Cape of Good Hope and eastward through the Arabian Sea to India. This was the size of the great Flaming Lily of White Fire BEFORE its transmission around the world began, and you will note that it covered a great deal of the landed surface of the Earth where particular world conditions at present warrant the assistance of the Brotherhood in dissipating vortices of evil.

As Serapis Bey prepared the Brotherhood for the direction of the Flame, all breathed It in, and it was sent to the Retreat of Jesus and Mary over the Holy Land, forward to India, and then followed the same track as previously used around the entire globe.

Whereas the previous Flame circled the Earth several thousand feet above its surface, this time, through the cooperation of the Forces of Nature, the Flame was projected right along the surface of the land ans sea so that the physical bodies of man and beast were permeated with Its pressure, and not only the inner bodies con-

structively affected. It acted, in a measure, like a razor cutting the lines of force which connected the consciousness and vehicles of the inhabitants of Earth with the downward currents which have grounded the consciousness. As this was repeated over and over again, the pull of the senses, appetites and passions, which are all part of the gravity by which man is held in the lower octaves, was tremendously lessened.

It served, to some extent, like the Sword of Blue Flame wielded by Lord Michael and the Angels who work in the astral and psychic plane in literally shearing the accumulations which had grown into the consciousness like barnacles attach themselves to a ship.

You will see that when the tremendous downward surge of energy was lessened, the buoyancy of the Heart Flame in the people could respond to the upward surge - which is the Ascension Flame in Its Essence.

After fifteen minutes of the cutting away of the 'adhesions' in the consciousness, the Brotherhood began to pour the buoyant raising action, which is the true Nature of the Ascension Flame, into the hearts and into the individual Flames, and it seemed to have the same effect as helium within the dirigible.

If the conscious students and those aware of this service wish to revivify this activity through their own consciousness in private application, and particularly to overcome a tendency toward depression, they will find the use of the Ascension Flame at Luxor a most powerful means of sustaining the enthusiasm which is Life's rhythm

by which the soul and consciousness rise Godward.

We are extremely grateful for the cooperation of the Groups who, together with their Cosmic Sponsors, made this possible, and We look forward with Joy to the day when thousands of such foci will be actively engaged with the Brotherhood during such thirty-day periods in cosmically remedying the conditions under which the masses function in so limited a degree of awareness of the ever-present and potent powers of the Sacred Fire which are available for their use at any time.

Blessings and Love,

The fruit tree is a beautiful example or likeness of the entire identity of man, and that is why, in the early days, the Symbol of the 'Tree of Life' was used as both a method of teaching the Law of Life and a reminder to the multitude of the great scope which one's individuality, in its entirety, covers.

The great trunk of the tree is representative of the Cosmic Ego, or the Spiritual Presence, and its many branches are indicative of the Ego's activities throughout the various spheres of life. The bud, followed by the leaf, flower and fruit are all representative of the temporary personality and expression of the lifestream in a given incarnation (season).

The nature and identity of the tree endures unchanged. As maturity is reached, the branches spread out and increase, and the ultimate manifestation of fruit makes for a larger harvest.

Studying the rhythmic course of the season would show that bud, and leaf, and flower, and fruit make but a temporary entrance; abide for a time, and then disappear, but even the unawakened know that the tree in no wise ceases to be by reason of the passing of its seasonal harvest. Yet, in the course of man's entrance into thousands of individualizations or incarnations, he places all his interest, faith and consciousness on the bud, flower and fruit of one season. If, through late frost or some other natural manifestation, the bud is lost and the flower does not bloom, man suffers unnecessary grief in seeing the extinction of what he would call the presence of a soul on Earth. Yet in Nature's Kingdom, the early bud is replaced by another bud and flower in another season, and there is no great harm done in the produce of the tree itself. It is thus, also, in the world of men.

Study, then, the Kingdom of Nature, for in its natural expression that surrounds all people, is a lesson of the Truth of Life. From the great trunk, the branches derive their sustenance, and from the branches, the bud, the flower, the leaf and the fruit receive their perfume, substance and nourishment. Jesus understood this well when He gave the parable relative to the branches of the fig tree, and it is often that the great parent tree itself ceases to pour the substance of its life into an avenue of activity and service that is not for the ultimate good of the whole. In these cases, particularly at times of cosmic import, the parent stem of the lifestream can and does withdraw the sustenance of the personality which opposes the progress of the race as a whole and, in such cases, the Spirit and Cosmic Ego of the erring personality does not, by this action of the Presence, suffer any more than the tree does by the removal of a withered branch, and in time it will bring forth new shoots of a healthy nature.

It is in such an hour that we live, and those individualizations who represent tyranny and human aggression will, in the mercy of life, cease to feed the discord of the world.

Although the diversity of activities that come

under the direction of the Being who is vested with the Office of Maha Chohan requires a tremendous expenditure of energy, it is a personal pleasure for Me to see the Wisdom of the God Plan through those Intelligences so far superior to the growing and evolving life expression. My activities in the Nature Kingdom have helped Me greatly in understanding the development of the Divine Plan through the human race.

I will confess, however, that working with the Kingdom of Nature is a more comfortable and happy experience than working in the human kingdom because of the absolute obedience and cooperation in the inhabitants of the former kingdom and the almost complete absence of the same qualities in the latter. However, working with mankind brings with it an opportunity to develop greater Light, Patience and Understanding by which I, too, prepare for a greater responsibility and opportunity to serve the God Life.

Many students have wondered why it is within the compass of the Third Person of the Trinity to deal with the evolution of the individuals and to draw, control and direct the energies by which the natural kingdom is sustained, and yet, when understood from the inner standpoint, the two services are very parallel in nature, and it is a marvelous thing to see how, through the consciousness of the beings in each kingdom, greater perfection and beauty is manifested.

It is also cause for wonder why lifestreams are drawn together in such intimate relationship, but it is that some quality in each might be developed and another tendency retarded, which will eventually make the harvest of that 'tree' so

abundant and beautiful. In My capacity as 'Cosmic Gardener', I often actually 'feel' the discomfort of the little roots and bulbs underneath the earth in their growing period as they seem to jostle and push each other in their eagerness to grow and expand; but then I also 'feel' their individual joy and happiness when at last their little heads appear above the hard earth and they 'see' their reason for being. It is the same way with the human consciousness. Sometimes it wonders and rebels at the positions in which Life places it, not understanding that a wise and loving 'Gardener' is hovering over it, watching its 'growing pains' and rejoicing when it glimpses even a tiny portion of the Cosmic Divine Plan.

In closing, the only thing that I can say is that as I give you a small picture of the Garden of the future, I trust that you will have Faith in My clarity of perception, and that you will all flower together in great beauty and harmony, and the perfume of your individual beings will blend to make this Star one of the most glorious in our firmament.

This is My desire; this is the Hope of My Heart; and, knowing you, I am confident in its fulfillment.

Blessings and Love,

The Law of Life is so simple in its essence that mankind passes it by for the very complicated involved terminology with which they have completely smothered the simple Truth.

The Law of the NEW AGE; the Religion of the NEW AGE will be so simple that no study will be required to understand it. It is the Law of Harmony. Some people call it LOVE, but when you call it LOVE, you immediately begin to enter into variations of expression and interpretations that distort its true sense.

As the Representative of the Holy Spirit, it is My Office to present to mankind the plain Truth so that 'all who run may read'.

Life is Energy. Every man, woman and child that breathes draws that energy into themselves by a conscious action, for the in-breath is a drawing into one's self from the One Source - God - the priceless Energy that is His Life, and when an individual does this, he or she becomes accountable to the whole universe for the use of that energy loaned to him by the Godhead.

The breath in your body is yours because you drew it forth from the Heart of God. In your inner soul you promised God that you would enrich His Universe if He would allow you the use of His Life, and God, being LOVE, granted your request and gave you all the love you required - and still does - with but one counsel or condition -

that His Life or Energy must go forth from you qualified harmoniously to bless and enrich His people and His Universe and all its parts.

If the energy is not qualified harmoniously, the Cosmic Law governing the Universe is that your own Holy Christ Self will draw that energy back into your world after it has accomplished that for which it was sent forth, and it comes back with the same qualification with which you clothed it on its outward journey, amplified by vibrations of a like quality which it has attracted to itself while it was absent from your aura. The reason for this is that the evolving soul may learn first, the nature of the energy he is using, and second, that the Guiding Intelligence within his own soul is an integral part of God and therefore Love in Action. The outer personality is then forced to learn, from this return of his own energy, that is is more comfortable to abide by the Law of Harmony and enrich the Universe by the Life that God has loaned him than to suffer the consequences caused by the unlawful use of the Fire-Breath of God.

The particular traits and characteristics that annoy you in other people are, almost without exception, the energy of your own world that you have sent out in a similar manner in previous lives. Your Holy Christ Self shows you how discordantly qualified energy distorts the universe. When the individual becomes uncomfortable enough, he feels and speaks resentfully of these appearances, but if the person would recognize that he or she has created those very things in the past, he would, on encountering them, call on the Law of Forgiveness for his part in creating those inharmonious appearances, and then, through his

knowledge of the Sacred Fire, blaze the Cosmic Fire of Freedom's Love through the cause and effect of such a manifestation. Thus, he would not only be cleansing and purifying his own consciousness and world of the cause and effect of these qualities, but he would be helping to eradicate them completely from the universe in general.

If a person is big enough to bless those human appearances that manifest in the lifestreams of those around him into freedom, he will find those very annoying traits and characteristics will cease to appear in his own world because the law of his lifestream is that when it is cleansed and purified from those habits that he dislikes, and their momentum consumed in the Flame, he will not be required to live under the pressure of any experience that is not of his own making.

Your Holy Christ Self is your only Judge. It is your Mentor and your Spiritual Teacher, and until you fully awaken to a full realization of yourown Divine Identity, is consciously and constantly returning the energy that you have sent out discordantly qualified in the past, asking you to bless it, charge the Purifying Flame through it and set it free once more into that glorious state of Peace and Happiness which it knew before you drew it into your world through the conscious act of breathing.

When the energy which you have drawn forth from Life to date has been harmoniously requalified and freed, then the Earth can no longer hold you. Your Divine Plan is completed; your service to Earth is finished, and you rise, an Ascended Being, having completed your cycle of individual

evolution and learned the Law of Harmony - which is the Law of the Universe.

Saint Germain and other Members of the Ascended Host are balancing and removing thousands of tons of misqualified energy from the Earth and its people daily and yearly, and I trust, for the sake of your own speedy freedom, that you will learn to live gently and kindly, and that you will realize when you experience, through others, that which seems to be so distressing, it is not really some other person's fault, but the reflection of what you have done to life through the centuries, and that you will use the Purifying Flame of Freedom's Love unceasingly so as to banish it forever from God's Universe.

Blessings and Love,

I am come this morning to bring the Feeling of Comfort which is experienced when the life-stream learns to know the power that lies within the constantly flowing stream of energy which forms the very heart-beat of all animate form.

Comfort lies within the recognition and acceptance of the ever-present Power of God - forever Master over energy through the individual being.

When the chela applies for admission into My Retreat at Ceylon, motivated by the desire either to receive Comfort or to become a Comfort to life, it is My endeavor to acquaint his consciousness with the Master Power of the God within himself.

When the outer consciousness is able, at will, to enter the Secret Place of the Most High and let the ever-flowing substance of the Universal Life, through him, externalize God's Will, he is then prepared to be a Comforting Presence and he himself lives in the assurance of the Ever-present Power of God as the Master Control of all circumstance.

In the Twenty-third Psalm, I endeavored, through the consciousness of David, to convey the assurance that, in the natural flow of life through the heart to the periphery of the life-stream, there was everything required according to the specific activity of the moment.

For the student to follow the flow of energy from the Presence into the Flame within the heart and then visualize the substance of that Flame become the Path upon which he proceeds through the universe, is to enter into the feeling that truly this Intelligent Light does lead him 'into the Paths of Righteousness and prepares a table before him' according to the requirement of the hour. Such an one abides in that feeling of 'goodness and mercy all the days of his life'.

The Intelligence within this natural flowing stream of energy, if acknowledged and actually visualized as externalized substance fanning out from the heart, would make every day a Day of Grace, Harmony, Happiness and Fulfillment, and by the Intelligence within that substance would the pertinent need of each hour be fulfilled.

If the student could visualize this substance becoming a Cup from which he would drink; the knowledge upon which he would rest; the bread of life which is the nourishment of the body; the Mercy by which returning karma would be melted into nothingness; an actual shield between him and all appearances of evil; as well as the inspiration of the soul and the cleansing, freeing, purifying Spirit by which all lifestreams who contact It would be blessed, then truly would he find the counsel of the Sage filled with Wisdom, when He bade the aspirant:

"BE STILL AND KNOW THAT I AM GOD!"

As We close the thirty-day period during which the Master, Serapis Bey, was Host to a number of the members of the human race as well as the Ascended Masters of the Spiritual Hierarchy, I would like to incorporate the final address which He made on Saturday evening, February 14th, to the assembled Guests. The number of lifestreams who attended the meetings at Luxor was much smaller than the number who were in attendance at the Rocky Mountain Council, because people, even in their inner bodies, shy away from the purity and honesty of purpose and motive which the Ascension Flame and Its Great Guardian demand of all who come within Its compass and aura.

SERAPIS BEY'S ADDRESS TO THE ASSEMBLY

All the world is seeking Peace - individually, nationally and internationally. That Peace comes only when the outer self voluntarily returns like the prodigal son, to the Home of the Father and decides to surrender the personal will and purpose to the Wisdom and Design of the God-Self.

Watching, through the centuries, the constant conflict between the Light within the soul of man which desired to come Home and the ceaseless demands of the senses for the use of Life to gratify their temporary appetites, I AM well equipped to

engage in the joyous endeavors of the Cosmic Law to bring Peace to every man who honestly is willing to 'pay the price'. What is this price? Surrender of the personal self to the Presence of God within.

Many times, through the centuries, I have stood, absolutely alone, guarding the Flame at Luxor, and every one of My disciples, grasping in his hands the gift of life, went forth, each one taking some blind alley, seeking happiness and peace. The blessed ones, scattering the precious life energy carelessly upon their journey, sooner or later, came to the end of the road where stood the Karmic Angel with the Flaming Sword who pointed them back along the very path they had so eagerly come - believing it to be the Way to Freedom and to Peace; and to each one the Angel gave a basket commanding the soul to gather up the life energy thrown away in careless abandon on the heedless adventure. Ah! the wearisome return, reaping the harvest of tears; the soul required to wipe away the traces of carelessly expended energies from the lifestreams it had passed upon the road until each one came to the point from whence it had started forth.

Here, for a time, subdued and humble, the soul light again asserted its desire for freedom and into Luxor would return the aspirant. I, mirroring the karma of the centuries in My heart, would bind up the wounds of experience and endeavor to provide the necessary disciplines and applications by which the seeds of undeveloped vices might never grow and prod the neophite to another journey into the world of maya - and I would hope - and pray!

But when the Flame flowed freely, and the memory of the unpleasant journey of the past grew dim, and the life vitalized the restored inner bodies, again the neophite would ask that he might take 'his portion of life' and go forth - usually to redeem the world. Another blind alley, for the most part, because for the one who might remain true to such a course, there would be a thousand who, although motivated by sincere desire to raise the race, would soon be caught up in the momentum of the people and the life energies blend with the 'ways of the world'.

Today the Christ Selves of 200,000 lifestreams presently incarnated upon the planet Earth have applied to the Cosmic Law for permission to consciously impress and direct the outer selves which they have sustained through the centuries. This Grant has been given and I, Myself, have stood Sponsor for each such one. My service is to prepare the field for the sowing. In other words, it is My particular service to reach the outer consciousness and make it willing to accept the God Design and receive the Spiritual Bridegroom (the Presence) NOW. In this manner, the Christ Self, through each one, may stand revealed in all the Glory and Perfection which the Master Jesus manifested in His Ministry.

You who have gathered here each night know something of what is required of you. Surrender of the outer self to the Presence of God that beats your heart; constant, conscious returning of your attention to the Presence as the Directing Intelligence until you become acquainted with Its Nature, devoted to Its purpose, and sensitive to Its slightest prompting - not only in times of contemplation, but in the noisy tumultuous currents of daily living as well.

Your life must become a channel for the Power, the Peace, the Healing and the Supply of your own Presence which is ONE with the Father of All Life. This is your reason for being, and for this came you into the world. You shall know neither Peace nor Happiness until you fulfill this purpose consciously.

PRESS your outer consciousness against the Great Body of God until you can actually and actively FEEL His Strength, His Omnipresence, His Omnipotence, His vital Health and Well-being, His Peace and His Power. The Nature of God is the most contagious of all natures, but you must expose yourself to Its influence in order to experience Its Presence alive within you and flowing through you to expand the borders of the Kingdom.

The Transmission of the currents of Mercy, Forgiveness and Love Divine from the Cosmic Temple of Kwan Yin in China last evening through the kind contribution of the energy, time, visualizing faculties and breath of the beloved students, in conscious cooperation with the Ascended Host of Light, was another Cosmic Milestone in the spiritual evolution of the race.

This accomplishment fills My Heart, particularly, with gratitude, that so much has been accomplished in such a very short time, and that the beloved students have grasped so quickly the importance of this endeavor, and have become such a valuable and active part in assisting Us to render this service to Our evolution and to the Beloved Sanat Kumara. The releasing of Cosmic vibrations with a certain definite qualification, whose rapid revolution around the Earth and through the bodies of the people and the nature kingdom represents the most concentrated action of the Sacred Fire ever drawn, focused and projected for the upliftment of mankind on this planet.

Many times have great heights of spiritual glory been attained, and Golden Ages manifested upon the face of the Earth where the Power of the Sacred Fire was invoked and utilized for the benefit of the people, but this is the first time that it has been consciously directed around the entire globe again and again with the specific intent and purpose of setting mankind free from

the misqualification of energy with its attendant results of karmic misery and limitation.

The Beloved Kwan Yin began to draw the Cosmic Power of the Sacred Fire twenty-four hours before the actual transmission of the currents was to take place. The Brotherhood who abide within Her Temple of Mercy have woven for Her the most exquisite Robes of State and Vestments of Power in the glorious Royal Purple and Gold which She wore over Her own simple gown of mauve silk. She, together with the twelve Ladies who represent Her Spiritual Court, took Their positions before the Altar upon which blazes the Cosmic Lotus of Mercy, long before the assemblage gathered and began to tie in the currents from the Temples of Light around the Sun of our System and the Spheres of Light, which caused the Flame to expand and intensify in Its concentrated Power until It was so brilliant in Its activity that even We found it difficult to look upon Its blazing Presence for more than a few moments at a time. From the Cosmic Temple of the Elohim of the Flame of Mercy around the Sun, the Great Purple Ray flashed forth and connected with the focused Flame in the Temple at Peiping.

Then, from the seven Temples of Mercy, Forgiveness, Love, Freedom, Purity, Kindness and Ordered Service that abide within the Seventh Realm, seven Great Rays were directed by Angel Devas of the Violet Fire which, joining with the Master Ray from the Sun, entered the heart of the Cosmic Lotus, expanding It until Its petals covered the entire country of China, well up into the Siberian State, across Tibet and the Malay Peninsula and out through the Pacific blanketing the Korean battlefields in Its potent Power.

From Inner Levels, it looked as though the lovely Earth had put a beautiful jewelled Lotus in her hair, and the attention of Beings from other Stars and Planets was forcibly drawn by the tremendous magnetic power of that Light. These glorious Celestial Visitors began to gather in a wholly spontaneous spirit of homage to the Flame. The Earth has not offered such cause for spiritual visitations since first she was created as the cradle for the evolving race.

The spiritually sensitive chelas and students fortunate enough to be within the actual physical locality of this activity were also drawn by this concentrated power of Love, and it was not unlike the gathering of the wise and innocent around the birthplace of the Beloved Jesus at Bethlehem so long ago, as they again responded to the magnetic power of Love and the Gift of God imparted for the blessing of all peoples.

Just before the Transmission of the currents was to begin, the Members of the Brotherhood took Their places within the Temple proper, and at the given moment, Kwan Yin gave the signal and all breathed into the Purple Fire Lotus Their blessing and Their breath. Kwan Yin and Her Court stepped within the Flame, and then the Brothers each drew in a deep breath, absorbing the Power of Mercy, Forgiveness and Love Divine, and then breathing it out powerfully toward the Retreat at Suva where it was immediately conveyed to the Blessed Ones on the Western Coast of the United States of America. In the matter of less than thirty seconds, this exquisite Transmuting Power of Merciful Forgiveness had completely encircled the Earth and there was not a home, an asylum, a hospital, a human heart, or a member of any kingdom evolving upon the Earth but had that current pass right through its center, melting away shadows as the sunlight melts away the darkness of night. Although the center of the Ray passed from each designated group of Beloved Masters and chelas, the entire activity was a blanket outpouring of Purple Flame that reached from pole to pole from the very first breath.

All at the Temple were so intent on the amazing power being released that We were not prepared for the Magnificent Visitor that was to come among Us, in His usual silent, humble and beautiful manner, to sweeten the essence of Mercy with His Presence.

Suddenly, at the edge of the group of pilgrims who had gathered in the large field that surrounds the Temples, it was as though a gentle wind had blown through a wheat field, and each pilgrim silently prostrated himself to the ground. The stir of energy soon reached Those in the Heart of the Temple, and upon looking toward the opened Temple doors, there stood the Beautiful Presence of Lord Gautama Buddha with His hand on the arm of the faithful Ananda. Smiling gently, They proceeded down the aisle of the Temple to the place of Honor immediately prepared for Them. As always, He wore only the simple robe with no adornments; His dark brown hair hanging loosely around His serene and gentle face; His luminous eyes smiling at each one with the Love which He has learned is the Nature of His God.

It took the utmost self-control and concentration of the Brotherhood to continue the unbroken rhythmic breath, because even at the Wesak Festival, at which time Lord Buddha blesses the race, He has never come into an Assembly in His

actual Light Body since His Liberation so many centuries ago.

Kwan Yin offered Him, silently, the Place of Honor as Officiating Master within the Heart of the Flame, and it was with great personal effort that She continued in Her Service, so overwhelmed was She with Gratitude at the Presence of Her Great Lord and Teacher. He just smilingly waved Her on, and remained the center of all hearts' love and interest as the Transmission continued.

At a given moment, He arose, and with His Beloved Ananda, together They placed Their Holy feet upon the Bridge created by the breath of the Brothers, and these two Beautiful Gods walked slowly and majestically over that Bridge toward the Retreat at Suva, from whence They proceeded into every Retreat and Sanctuary and Home where the currents were being drawn, focused and transmitted, until after about fifteen minutes, They again appeared in the Temple, having circled the Earth and blessed, personally and individually, each lifestream who was a part of the transferring of the Mercy Flame of Love Divine.

There is no need to emhpasize the tremendous import of such a visitation, nor to point out the spiritual significance which lies within the return of Lord Buddha. There is only the reminder that you walk in 'strange days', and in the Presence of Guests whose coming is even unheralded to the Brotherhood, and blessed are they who are gathered together awaiting such blessing in whatever day it may come.

Love and Blessings,

MAHA CHOHAN

Through the great gift of free will, the evolving life on every planet and in every system determines, within itself, the course of its evolution, and the specific qualities and momentums required all stem out of the use to which the evolution puts the priceless gifts of life. Those Causes are the pointing finger by which the Intelligences whose sole duty, responsibility and joy is the ultimate Victory of every particle of life, know what the future requirements of the race will be; each Cause being bound to manifest Effects that will either help or hinder the manifestation of the Divine Plan.

Therefore, different planets, different systems and galaxies have Represnetatives of distinct Qualities which that evolution requires or will require to fulfill its destiny. On many planets, the Resurrection Flame is not required because there have been no Causes set up which will manifest as disease, decay, disintegration or apparent death.

The Office and Cosmic Activity of the Holy Comforter came into being at the moment that the first man (Adam) chose to experiment with the Creative Centers of his own thought and feeling and a form short of Perfection was conceived and externalized which was the first chain of the karmic heritage of the race. At that time, the Great Silent Watcher, knowing that every Cause breeds Effects, and the Effects, in like manner, generate many Causes, realized that some time and somewhere would the call come from life for

Comfort. Unto that day and hour was prepared the Cosmic Temple of Cosmic Comfort to Life which abides within the Heart of the Electronic Belt around the Sun of our System.

Therefore, you will see that the Cosmic release of Comfort to man was pre-ordained from the moment that the first shadow stole stealthily from the mind of man, and the Silent Watcher, knowing the prolific generating quality within that shadow, prepared for the hour when the Light in the heart of man would know the spawn of the first parent error and be smothered beneath the pressure of the 'original sin'.

It was then that the first Maha Chohan drew from the Bosom of the Father of Light the Quality of Comfort, and the Glorious Cherubim with Him created the Chalice into which, through all succeeding ages, every Comforting Presence has poured that portion of His Life which He chose to dedicate to such a Cause; and in the history of the ages there have been many such Blessed Hearts. Today, the final hour in the history of our planet is at hand, and the Message of Aquarius is to be fulfilled as the Cherubim inverts the pitcher and allows the Comfort of Life to flow which will bring release to the Light in the heart of every man.

The past, present and future are as one to the Great Intelligence who governs the evolution of planets and galaxies, and truly the statement: "Before they call, I have answered!" is a manifestation of the Love and Compassion of the First Great Cause who has prepared for a race's evolutionary process, nourishment which will be a sustaining comfort as well as salvation to them in a given hour.

The Angels of Comfort have winged Their way, century after century, into the Cosmic Temple of Comfort which is presided over by the Glorious Cherubim whose service it is to hold this Quality in its concentrated essence. Here They have filled Their Cups with God's Comfort, carrying it to the hungry hearts who have sent out a call or a prayer for this Divine Quality, and for every Cup that was filled, from the Heart of the Sun came ten times that amount again so that in no measure would the gathered momentum of Comfort guarded by the Cherubim be lessened.

The activities of the great Cherubic Hosts are particularly concerned with the guarding of qualified energy which is to be utilized by the Intelligence of the Godhead for a specific purpose.

All of the energy qualified by a certain Quality which will be of benefit to a Cause which will benefit a race, a planet or a galaxy, is seized by Great Beings who ensoul it to keep it from returning into the Primal State of Universal Light. Thus, when a Great Being becomes invested with the responsibility of embodying a Quality of the Godhead and, through His very Self, awakens a like quality in any sphere, a member of the Cherubic Host volunteers to hold the drawn, concentrated and qualified energy of such an one, and all the contributed energy of those lifestreams which the Sponsor can interest in a similar Cause becomes the momentum which builds until the hour of fulfillment is at hand, and then, through the Heart Center chosen to be the channel or faucet for its release, the gathered momentum of the ages flows and the life of a planet or a galaxy is enriched thereby. The guarding of the energy, until such a moment arrives, is the service of the Great Cherubim.

These Beings never, for an instant, deviate from this concentrated service to life. It is almost impossible for the human mind to conceive of such one-pointed, patient, constant devotion and yet there are Beings belonging to this system and others who have rendered service of this kind for billions of years. They become Silent Watchers of Universes, systems of worlds and galaxies in time. The small elementals that sustain the pattern of a flower during its comparatively short existence in a given season, and the greater Devas who sustain the pattern of the oak tree or the great Redwoods of California for hundreds of years are examples, in the Kingdom of Nature, of this service to Life.

The name of the Beautiful Cherubim who sustains the Quality of Comfort in the Great Cosmic Temple devoted to that service and quality is LOVELEE, and I ask that your conscious recognition go to this Being who, voluntarily, of Her own great Love, chose to preserve and sustain the Quality of Comfort until the hour when man should require it most, and the demand for Comfort rising from the hearts and minds of all men might no longer be denied.

At this moment, I, as the privileged Representative of this Quality, will act for Myself and My Illustrious Predecessors and ask that the Pitcher of Aquarius be inverted NOW and the Cosmic Comfort to Life flow to every evolution which belongs to this chain.

Blessings and Love,

MAHA CHOHAN

This week, I would like to elucidate a subject which, perhaps, has not come to your thought and, not being presented in the mind, could not be meditated upon for the nourishment of the spiritual nature. It is in regard to service, and the balance that the lifestream can voluntarily pay to the Universal Law of Love in order to ensure freedom from the wheel of birth and re-birth.

You have been told that the Cosmic Law has offered to balance forty-nine percent of the debt each lifestream owes to life through the misqualification of pure God Energy. This is done through the Cosmic Expansion of the Sacred Fire through the beings and worlds of evolving humanity. This means that fifty-one percent, or a little over half of the energy of the individual, must have gone forth in a constructive manner (not necessarily in a spiritual way) before the pendulum of your life's experience swings toward freedom from the magnetic pull of Earth and the things of Earth, and your Ascension is assured.

Now, we must understand that all lifestreams are not alike. For instance, a powerful, forceful, intense person releases ten times the energy that a lethargic and placid individual would emit. Therefore, the quantity of energy cannot be measured equably with regard to every evolving spirit. Strong spirits who have incarnated from the beginning of manifest time have released sometimes as much as five hundred times the energy that has been released by the masses, and

for that reason fifty-one percent of the energy of these 'hard-living individuals' is uncomfortably more than fifty-one percent of those who have not lived so intensely. This is true of all outstanding individuals since the beginning of time, and therefore, the Law of Life, which is inexorable, requires the release of as much constructive energy as the destructively qualified energy released by these people in the past.

Looking at this picture objectively, one is inclined to become a little weighted down with a sense of responsibility and futility, but this need not be because the lifestream who has built a momentum of drawing and charging a large amount of energy can balance his debt much more quickly, because his every gesture, every word, every movement releases the momentum of energy he has builded in the past, and he may build his account for Good in the Causal Body as rapidly as he has built the chains in the past when he is willing to face the score written against him on the Book of Life, and return the energy passing through him daily as a balance. On reading these lines, some might regret the enthusiasm and zeal that prompted them to incur such large obligations, but let Me assure these people that, in drawing the larger amount of life energy, they were merely following the promptings of their Divine Nature, as their future destiny lies, for the most part, in the Cosmic Field of Service.

It is My endeavor to show you that the Ascension is a practical activity that is taking place through your hourly living, and not just a transcendent burst of glory at the end of the Earth life predicated on nothing. It is safe to say that all those lifestreams who have rallied to

Saint Germain's banner have rendered valuable service to life in the past, and it is for this reason that the Cosmic Law has permitted you to have this private instruction now, wherein your balance to life can be paid in Cosmic Service while you still walk the Earth, through your decrees and calls for the freedom of life everywhere on this planet. Weary not, therefore, in your Spiritual Service, for every ounce of energy used in this endeavor is accepted by your Holy Christ Self as partial payment of your individual debt to life.

Now, when We say that fifty-one percent of the energy of the lifestream must be balanced harmoniously, many people think that the only way this can be done is through devotion, prayer, ceremonial service and solemn invocations directly concerned with spiritual aspiration. I would remind you, however, that all constructive and harmonious energy is a natural expression of the God Life, whether it be the singing of a happy child or the dancing of happy feet; whether it be the loving service of friend to friend or the constructive creation of a bench, a chair, or a garment.

All those expressions are expressions of the Holy Spirit Whom I am privileged to represent. All constructive activity and service are facets of My Consciousness, and they are all accepted by the Cosmic Law as a balance for each lifestream wherein that one may ascend into his Eternal Glory.

The passing human experiences, however, have grown so heavy that in the course of a natural life, sometimes there are less than twenty or

thirty hours wherein the energy of the people is qualified harmoniously enough to become part of the constructive balance of that lifestream, and at the close of the Earth Life, when the Book is read, after all the vicissitudes of years of living, the Holy Christ Self has but a fragmentary balance of good and a heavy balance of unhappy energy, which shows that the soul has made so little progress on the spiritual ladder toward freedom. Therefore, aside from all the great spiritual knowledge of service and work which We have opened to your consciousness, there are so many homely things that a lifestream can do in the course of daily living to engender the leaping of the Flame in another heart, and the release of a burst of constructive energy from that one which the Holy Christ Self immediately seizes and adds to the constructive balance. For instance, the baking of a cake, the bringing of a flower to an ill person, or rendering some fleeting small service to lighten the burden of a lonely heart is a service of Comfort, and the resulting happiness to the recipient is very often the only energy that the Holy Christ Self of the lifestream could use in that entire embodiment. Therefore, any individual who is the means by which another person releases even an ounce of happy energy has given him an eternal gift, because in a far distant day, that energy which you coaxed into harmonious expression may be just the ounce required by the Presence of that one to bring the balance over the fifty-one percent limit and take such an one Home. Can you not see, then, how intricately are woven the threads of different individuals' lives, and how potent a force you are in your environment and community which is either generating good karma for those around you or adding to their chains.

I would suggest, then, that you keep watch over yourself for a twelve-hour period and see if more than fifty-one percent of your energy was qualified harmoniously. If it was, then you are making progress; if not, you will see that there is a certain amount of retrogression which must be balanced later. I could go on and on giving you these homely illustrations by which you may add to the treasures held in your Causal Body against the day when you, yourself, will stand before the Karmic Board and render an account of what you have done with the God-Life entrusted to your care. LET YOUR LIGHT SHINE BEFORE MEN.

Blessings and Love,

Beloved Sons and Daughters of God:

May I congratulate each one of you on the very glorious contribution of your life energies in creating a Bridge over which the Holy and Blessed feet of the Lord Buddha and His Dear Disciple could pass in Their self-chosen Visitation through the concentration of Mercy, Forgiveness and Love Divine at the Retreat of Our Blessed Sister, Kwan Yin, in China. The Mercy Fire from the Spirit of God was a magnetic power that drew the attention and presence of many Beings who had not had any connection with the planet Earth in many centuries.

As the attention of the chelas turns toward the Great Lord Maitreya, and the mankind of Earth experiences the radiation and feeling of the Cosmic Christ Love which He is preparing to release on the next night of the Transmission of the Currents throughout the world on Saturday evening, March 21st, 1953, We are hopeful, on that occasion, to establish greater cooperation between the outer selves of the sincere God-loving people of Earth and their own individual God Presence.

This is the particular service of the Great Initiator (Lord Maitreya) Who is always present when the contact and connection between the Christ Self and the outer self is permanently established and the individual ego moves forward to externalize the Divine Plan. You will remember that this Spiritual Baptism took place when the Beloved Master Jesus (through His Precursor,

John) was visited by the Holy Spirit on the occasion of His Baptism in the River Jordan, when His outer self became anchored in His own Christ Nature.

What the Lord Maitreya accomplished for the Master Jesus by fusing His own Christ Consciousness with the individual Divine Self of Jesus, giving the full Cosmic Momentum and Power of His (Lord Maitreya's) Lifestream into the 'keeping' of Jesus to further His Mission, He desires now to do through all mankind. The 'Second Coming' is not to be an individual, but a Cosmic event, and each blessed chela, standing with up-raised head and humble heart, will have the Blessing of the Lord Maitreya pass through his own Christ Self to assist in the blending of the Divine Nature with the personal ego, which is the instrument of the ONE in the world of form.

We are informed that the Great Ceremony will take place in the countryside around the Kashmiri Hills, for there is no auditorium in the Eastern Hemisphere large enough to hold all the Guests who will attend, not only from this planet, but from other systems of worlds as well. The Christ Self of every lifestream belonging to this evolution will be in attendance, even That of those who are not presently in embodiment, and it also includes those whose souls are sojourning in the astral and psychic realms. No Divine Presence, whose hope lies in working through the personal self which it has sustained for aeons of time, will miss the opportunity of having the Presence of Lord Maitreya fill It with the pressure of His Presence which, like a strong Hand, will move the individual God-Presence toward the personal self with a Power that cannot be denied. Of course,

the Holy Christ Selves of the conscious chelas will be particularly blessed, and each lifestream should prepare for this hour that he may be ready for the 'Coming' of his own Lord of Life.

The Great Initiator and the Representative of the Holy Spirit (Maha Chohan) are always present at these Cosmic Baptisms, and that is why the Dove is often seen with the inner sight by those who have developed that vision, at the moment when the Christ Self draws close to the incarnate consciousness.

I would suggest that the beloved students visualize the gentle slopes of the Kashmiri Hills and feel themselves among the group of pilgrims awaiting the coming of the Great Brothers, each chela contemplating, according to his individual capacity, the Nature of God within himself.

Above the huge Assembly, the Christ Selves of the entire human race hover like a canopy of glorious White Angels. Let each individual, then, turn his attention toward his own Christ Self until the magnetic power of his love draws his own Christ Self from the hovering group and It stands clearly and distinctly above the head of the contemplating chela. The Love from the Individual Presence and the love from the chela, flowing back and forth from the heart of each, makes a bond of unity and oneness, so that when the Lord Maitreya comes into the atmosphere and ensouls each Christ Self with the Cosmic Christ Consciousness, the soul, working through the outer consciousness, has drawn its own Presence as close as it can by its own endeavors, and then the Cosmic Impetus of Lord Maitreya's Love will sweep the two into ONE.

The Keynote of Lord Maitreya's Retreat will be best sounded within the lovely song 'Ah, Sweet Mystery of Life', and the color of the Cosmic Christ Flame is a beautiful canary yellow, delicately shaded with white toward the outer edges.

Speaking of the breathing activity in the Transmission period, I would remind the students that the rhythm sustained in each of the four parts of the activity is most important; that is, the in-breath, the held-breath, the out-breath, and the directing-breath. Also, that the visualization, held in the mind, of the Flame and your part in Its expansion, is invaluable. The vision of the sweeping Flame and Its effect upon the life of the planet held strongly in the mind makes each one of you an important and integral part of this Cosmic Service. Comprehension of an idea is an activity of the Intellectual Body, but the performance or carrying out of the operation belongs to the emotional or feeling body, and it takes the cooperation of both to render any service effective.

It is Our desire to make it as easy as possible for each dear heart to contribute his breath to this great service without strain, struggle, tension or depletion. All Our activities are embodied Happiness and Peace.

I am looking forward to greeting you all in beautiful Kashmir.

Blessings and Love,

MAHA CHOHAN

"KASHMIR"

The Activity at Kashmir last evening will be re-enacted every evening through the 14th of April in order to give every possible assistance to the Christ Selves of the entire human race in Their endeavors to become the Master Control of the outer personality which They have sustained through the centuries through the outpouring of Love, Light, Blessings and Patience indescribable.

May I point out that the beautiful Christ Self of every lifestream belonging to this planet was created by the Father-Mother God long before the personal self came into physical incarnation. This beautiful Presence desires, through the personal self, to complete Its glorious Pattern and Plan in the world of form, fulfilling the Edict of the Eternal Father and rendering a particular service which adds to the Glory of the Divine Pattern and Plan of the Universe. Until each Presence is enabled to fulfill Itself, the Full Perfection of the Divine Plan is not manifest, and no other Christ Self can render that particular service for such an one.

Through the unhappy use of free will, the Christ Selves of the far greater part of this evolution have been denied fulfillment and have sustained the personality with the hope that, some day, enough grace would enter the heart and consciousness of the outer self so that it would at least desire to cooperate with the Presence

and manifest its reason for being, and justify the expenditure of the energies of God, Nature, the Angelic and Elemental Kingdoms which have sustained life in the personality in the aeons of time. The Cosmic Law, however, has taken a hand and refused to allow further expenditure of the pure energies of God, Angels, Masters and Elementals to sustain the foolishness of the human ego, and within the next twenty year period, the Christ Selves must connect with Their own outer selves and serve Their Cosmic Purpose or descend with the personality to the solar system below the one upon which They are presently evolving, and endeavor, on this lower sphere, to complete Their evolution. Naturally, the Divine Selves desire to complete Their service to God and man in the evolution to which They belong. Hence, the request for the Dispensations whereby the human free will might be set aside and each Christ Self surge through the outer and compel the Divine Plan fulfilled.

Lord Maitreya is the Cosmic Christ representing the Father of Life to all the Christ Selves of unascended mankind evolving on the planet Earth or awaiting incarnation. Through His Momentum and Power, the individual Christ Self is enabled to draw much closer to the outer self, and also impress the outer self with the hunger-thirst after righteousness and spiritual understanding. It is for this reason that He has been asked, for the thirty-day period in which He now abides, to enter the Christ Selves of the entire race and increase the pressure of the individual Christ Self through the Silver Cord.

The Christ Self of every member of this evolution, including all those not presently in

incarnation, and all the lower astral and psychic realms were present for the service last evening. Over the continent of Asia, these beautiful White Fire Beings stood, canopying the sky with the Blazing Light of Their Presence. The most exquisite music filled the atmosphere, composed of the Keynotes of each One; the Angel Devas of Music grouped Them into sections and combined Their songs into anthems that filled the inner atmosphere, not only of the Earth, but of the seven solar systems belonging to Our Central Sun.

The Beloved Sanat Kumara and Lord Buddha were the Guests of Honor, and a beautiful bower of Lotus was woven over the white marble Thrones upon which these Noble Gods sat together facing the members of the Brotherhood. When the hour of Transmission was almost upon Us, the Christ Selves of the race gathered together in a great shining White Spiral of Living Beings over the hillside, and Lord Maitreya stepped into the center of this spiral which stretched from the surface of the Earth well over 10,000 feet into the atmosphere above. Lord Maitreya wore pure snow-white garments, and a lei of white Lotus flowers around His neck was the only adornment of any kind.

The Light of His Presence is so exquisite that one is always drawn toward His Presence just to bathe in the substance of that Divine Love. His hair shone with the Radiance of the Godhead and His beautiful violet eyes were filled with the warmth and Love that are His Nature. A snow-white Dove perched upon His shoulder and two lovely Angels, also in pure white, walked behind Him, each carrying a long white staff from whence blossomed the mystic Flower of Shamballa.

We all stood as He entered the Circle composed of the Christ Selves of the entire human race. Even Lord Buddha and Sanat Kumara inclined Their heads toward Him in honor of His Service and Office as the Cosmic Christ.

As the moment of the first breath approached, a pure white Flame rose around His Figure and He disappeared within it. The Flame itself rose from the Earth in a Pillar of White Fire to the crest of the Celestial Figures surrounding it. At a given moment, a burst of Music, containing Lord Maitreya's Keynote, sounded from within the Flame, and We all breathed it in, blessed it, and sent it forth for its journey around the world.

Simultaneously with the direction of the Flame from Kashmir, the Christ Selves of the race spread out and took Their positions above the physical bodies into which Their Flames have been anchored for the centuries, and Lord Maitreya again appeared from within the Vestments of Flame shining like the Sun. With each breath, the Christ Selves drew the Flame of His Cosmic Christ Power into Their own hearts, and then, individually, directed it through the outer self. You will see how this personalized the outpouring - each Christ Self giving full attention to the outer self which is Its own responsibility. This was the first universal release of the Cosmic Christ Power through the personal selves of every member of the human race to take place on this planet. No lifestream belonging to this race was excluded from this service.

After the Flame had encircled the Earth for about fifteen minutes, I entered the Central Focus of the Flame and, standing with Lord Mait-

reya, called forth the Messengers of My Office, and suddenly there appeared countless millions of white doves, each of which flew forth with My Blessing and entered the aura of the Christ Self of every lifestream, duplicating the service rendered Jesus when He was baptized of John under Lord Maitreya's Blessed Presence centuries ago.

At the close of this part of the Ceremony, the Celestial Choir began the Great Cosmic Songs of Praise to the Heart of Creation, and then the Brotherhood and assembled Guests took up the song and We all felt the Heart of Peace and abided, in great Joy, therein.

We shall render this service every night to intensify the feeling of oneness between the Christ Self and the personality from now until We enter El Morya's Radiation at Darjeeling. I hope sincerely that each one, particularly of My chelas who enjoy this Bulletin, may feel the Presence of their Holy Christ Self and the Presence of the Holy Dove of Peace who is now their joyous companion upon life's way.

Love and Blessings,

MAHA CHOHAN

THE STUDENT AND THE MASTER

When the student of the Higher Laws has reached a certain place on the Path of Evolution, he finds, to his surprise, that instead of dealing with an 'Abstract Principle' (as metaphysicians name the Diety) he is now brought into contact with specific Beings who, through individual merit, are given the responsibility of assisting in the evolution of the universe through the authority conferred upon Them by Cosmic Law. These Beings are known to evolving mankind as "The Masters of Love and Wisdom".

At inner levels, the student is summoned before the Lords of Karma where the record of his lifestream is examined. If it is found to be mature enough for wider service, he is brought to the attention of the Master in charge of a certain activity in line with his (the student's) training and capacity, after which his individual service to the Great Cosmic Law commences, even while he is yet unascended.

In his outer personality, he is completely unaware of this initiation, which accounts for the seeming disappointment, dissatisfaction and frustration very often encountered in the newly-awakened, but uncomprehending, chela. At this time, he is rather inclined to doubt and disillusionment, as he is under the impression (like the majority of students on the Path) that when the Masters of Wisdom are contacted, his own individual effort ceases, and the seemingly 'humdrum' work pertaining to the Cosmic Office to which he has been assigned seems tiresome and unimportant.

If the advancing chela could find it within himself to trust the Love and Wisdom of the Great One under Whose care and protection he has been lovingly placed by the Master of All Life, he would immediately realize that he was not being 'disciplined' but rather was being lovingly prepared for a far higher Office in the Father's Kingdom. He would then tackle the job at hand with zeal and enthusiasm; understanding the full meaning of the Master Jesus' statement: "Because thou hast been faithful over a few things, I will make thee ruler over many. Enter thou into the joy of thy Lord! Matthew 25:23.

THE BODY ELEMENTAL

By the Lord Maha Chohan - July 24, 1952

****

There is a Body Elemental whose function it is to work with the Builders of Form, the Holy Christ Self of the lifestream, and the Karmic Lords who limit the freedom of the soul in its choice of garment. This Elemental begins its work at the time of conception. In most cases, it motivates the newly born physical body, and almost entirely runs it through infancy.

The soul (accumulated personal ego) functions faintly through this elemental form. When the individual is highly developed and matured spiritually, it endeavors to take over the control of the Body Elemental and the personalized ego at an early age.

This Body Elemental is not newly evolved with each successive life, but is one of the 'retainers' of the evolving God-Being, which like the soul, accompanies him on his entire journey. Unlike the soul, however, the Body Elemental is relieved of the connection with the ego at the time of death, and enjoys the period when the ego is in the discarnate realm, in its own realm of elemental beings, being summoned by the Lords of Karma for inspection before the soul is re-dedicated to Earth life.

The form of the body which the ego will assume at the times of incarnation, its characteristics strength and weaknesses, lie within the evolved nature of this Elemental which has an intelli-

gence and a will of its own. When individuals are to render greater service to life, the Lords of Karma will often allow the Devic Builders of Form to modify this Elemental Being through drawing it into a higher sphere of activity at inner levels before the soul is summoned for incarnation.

Now, over a period of centuries, the Body Elemental becomes very positive and very spoiled, on occasion, when it has been given its own way. In cases where tremendous power is focused through a lifestream, the Body Elemental is always stronger by reason of that power anchored into the cells of the physical structure. In other cases, the Body Elemental, through abuses and excesses finding itself continuously opposed in its endeavors to build and outpicture the perfection of the Holy Christ Self, becomes rebellious, sullen, and often openly antagonistic to the soul and the personal ego to which it is assigned. Cancer and disintegration of bodily unity are usually manifestations of this state of affairs.

Peace, unity, harmony and understanding among one's own members (body, mind, soul, personality and God-Self) are essential to equanamity and progress on the Path. To fight the Body Elemental is useless; to pamper it is to lose it. To become acquainted with it in the mature dignity of the Master of the household when required to direct his immediate staff, is Wisdom. This is equally true of the soul (personality nature).

THE BODY ELEMENTAL

By Beloved Saint Germain - November 20, 1952

****

As Our correspondence on the Body Elemental has raised some interesting questions, I have decided to elaborate a little on the instruction.

At the time when the individual lifestream chose to go forth into incarnation, the Holy Christ Self was called before the Karmic Board and given Its permission, and also the destination to which it would be sent.

In order to provide a physical form in which the Holy Christ Self could function, the Builders of Form were called upon to provide Elemental Beings from the same Sphere and Ray to which the incarnating lifestream belonged. These Elemental Beings had been trained at inner levels to draw the Universal Light Substance and follow a pattern, to create a Flame Flower, or some simple manifestation of Nature. The length of time that the Elemental could hold the pattern in his consciousness determined the duration of the manifest form. As these potential Builders of Form increased in their capacity to hold the patterns received by them from the great Nature Devas, they worked up the ladder of evolution to a point where they might be entrusted to build the Temple which would house the Presence of God.

Each lifestream, before the first incarnation, was joined to an Elemental in a solemn ceremony before the Karmic Lords, and the Elemental was charged to remain with the lifestream as long as it should desire to inhabit a physical body, to

keep the body in repair, and in all ways make it a habitable Temple.

The pure Electronic Light Substance and the Forces of the Elements were given into the keeping of the Body Elemental, who was allowed to look upon the perfection of the Holy Christ Self which was to be the pattern it would build with the substance of the third dimensional plane.

At first the creation of the body was a joyous and happy experience. After the Presence projected the Immortal Flame into the airless cell, the Body Elemental drew the necessary elements and re-created, almost perfectly, the design and pattern of the Holy Christ Self. The flesh forms of those early ages were beautiful beyond words to describe, and truly a Golden Age of Beauty prevailed. The Etheric double was the pattern which the Elemental used, for this finer body outpictured the full glory of the Holy Christ Self and it was easy for the Elemental to have reference to this pattern from time to time. The Elemental took up abode within the Temple which it had builded, and like a housekeeper or a caretaker, maintained the functions which kept the body in workable order (repairing, fueling, etc) and the association between the Dweller and the Elemental was a happy one.

When man began to experiment with the use of energy, and to build into his etheric body certain distortions of form and impurities of essence, the Body Elemental became confused because the pattern was distorted, and it OBEDIENTLY began to build distortions into the flesh.

Then, between embodiments, the evolving soul was allowed to sojourn in whatever realm or sphere

it had earned the right to inhabit through its use of energy in the Earth life, and the Elemental was freed from it to enjoy a certain freedom in the Elemental Kingdom and rest up for the next service when the soul was called for a new embodiment.

When the Karmic Board calls the incarnating lifestream again, it usually appears within its Etheric Body, wherein is recorded all the experiences passed through, not only on Earth, but in the inner realms between embodiments. The Body Elemental is also called at this time and there is quite often a 'scene' because the Elemental rightfully objects to using its energy to mould and form a body as distorted as the Etheric Body of its partner on this long journey. The Holy Christ Self of the lifestream is also in attendance and the Body Elemental is soothed by Its Presence and offer of support. Then the substance which the soul has charged with his energy, pure or otherwise, is given to the Body Elemental to weave into the new physical form. Here, again, it is very reluctant to take such impure substance and, wherever possible, it saves the 'best' of the elements for the outside, and puts the impure substance inside the form.

You will see that after centuries of endeavor to reproduce the Holy Christ Self through the substance provided by the lifestream, and the tremendous added strain of working against the appetites and passions which the individual developed when it fell from Purity and Grace, that the Body Elemental soon developed an antipathy for the lifestream with which it was forced to work. Thus the Body Elemental was no longer a cooperative, loving helper, but blocked the projects and designs of the individual whenever possible.

When the individual comes to a point of understanding, and endeavors to abide by the Laws of Purity and abstinence from these activities which break down the structure of the physical form, there is the beginning of a new association and friendship between the individual and the Body Elemental. This, however, is not builded up in the matter of an instant, for centuries of abuse and careless use of the Temple created and sustained by this Elemental is not easily forgotten.. Then, too, the Body Elemental must wait for the purification of the etheric envelope which forms its pattern. When this Etheric Body has been held in the Sacred Fire and resumes its Light Pattern of the Holy Christ Self, the Body Elemental can quickly outpicture it through the flesh.

Also, the very substance that makes up the physical form has been used over and over in successive embodiments, and this, too, requires purification in order to raise in vibratory action and emit Light. You will see, therefore, the necessity for the use of the Violet Flame and the action of the Cosmic Flame of Cosmic Purity in connection with the work being done by the Builders of Form. When this is understood and conscientiously applied, we shall again have some of these 'bodies enduring' that are absolutely non-recordant to disease, disintegration, and finally death.

Hoping that this will be of assistance to those earnest hearts who have asked for elaboration on the subject, I AM -

Lovingly, sincerely and devotedly,

SAINT GERMAIN

THOMAS PRINTZ' PRIVATE BULLETIN
on
TWIN RAYS

When the Great God Flame is first projected forth as an individualized Intelligence from the Heart of God, it contains within Its very Self the masculine and feminine aspects of Divinity.

Self-conscious and individual choice determines whether or not this White Fire Being will seek to further the individualization of Itself through manifesting as the Twin Rays from the same Heart Source.

Those Mighty Beings who never choose to journey through the world of experience continue to function from within the single White Fire Body, performing service in Cosmic Spheres and thus unfolding Their God Plan as <u>One</u>.

However, Those who choose to come forth as the Twin Flames are, by Their very choice, enabled to double their power and capacities through the individual endeavors of each individual Ray and, upon returning again into the Cosmic Field of Service, they will be, by the very reason of their service and experience, almost tripled in powers and capacities to serve Life, as compared to the Ones who remained within the single orbit in the Realms of Light.

When the White Fire Being determines to individualize the Twin Rays, there is performed a Cosmic Ceremony in which the Electronic Bodies of the masculine and feminine aspects of the One God Flame are externalized and kneel before their own White Fire Source and receive the blessing and benediction of the Sun of their System. A Ring of Flame passes from the White Fire Body,

through their two hearts, and back again into the White Fire Body. This Cosmic circlet is the protective presence of their love and ultimate union at the end of their individual pilgrimage, no matter how long that might be.

No one can describe the joy and the happiness of the centuries in which the Twin Flames abide within the Glorious Light of the Inner Realms which form their natural spiritual Home. Here, they function as ONE in purpose, endeavor and service, but have the added happiness of companionship and sweet association in their endeavors.

As the constant pulsation from the Heart of the Father of the System is to carry His Kingdom to the periphery of the farthest star, sooner or later, that impulse is bound to find a responsive note within the heart of one or the other, or both of the Twin Flames who have enjoyed the peaceful happiness of the Inner Spheres, and then comes the first real separation with its attendant forgetfulness and, unhappily, the centuries of floundering which so often accompanies incarnation, particularly on the Earth plane.

Sometimes both the Flames choose the roles of Missionaries and incarnate; oftimes only one, the other remaining as the Positive Pole and Spiritual Day Star, sustaining the mission of the Beloved through centuries of time. This latter is the case when a lifestream is endowed and dedicated to be a Guardian Presence, and belongs either to another evolutionary scheme or a previous chain.

Finally, we come to the close of the pilgrimage of the Rays, and again the Mystic Ceremony is repeated as the Heart Flames of the free and the bound are again spiritually united for all

Eternity. This Cosmic Union can take place only when one of the Twin Rays is already ascended, and when it has been determined by the Karmic Board that such a union will be of benefit to the progress of the universal scheme of Creation. The unascended lifestream is then drawn before the Lords of Karma; the Maha Chohan presents the scroll containing the record of the entire life pilgrimage, and the Holy Christ Self must signify as to the possibility, with continued endeavor, of the Ascension of the aspirant at the close of the Earth life. If any of these three separate and distinct tests show a negative result, the moment of such union is delayed.

The individual judgment before the Karmic Lords reveals the present development of the inner bodies, the motivating power behind the use of life by the individual, as well as his possible activities if his powers and trusts are increased, and the record of the present Earth life.

The reading of the scroll by the Maha Chohan reveals the experiences of the individual in previous lives; the use to which he put particular opportunities to serve life; his choice of employment between embodiments, etc.

The Holy Christ Self, knowing the personal ego, the tendencies of the nature, the hidden ambitions of the consciousness, etc., then honestly reports on the possible future outcome of such added blessing.

When the individual has passed the three foregoing initiations, the moment of his acceptance comes, and either Sanat Kumara or Lord Maitreya, on his behalf, signifies that such an one is ready for this union. At this moment, the Twin

Ray is called before the Tribunal and given the solemn charge that the actual powers, substance, energies and full-gathered momentum of Its Free Cosmic Consciousness will be, henceforth, tied into the heart of the unascended portion of Itself who, by this voluntary union on the part of the Ascended One, has free access and right to use this power and energy according to the dictates of the outer self, BUT, the responsibility for the use of these energies remains with the Ascended Flame.

Can you, even vaguely, imagine this responsibility? The centuries, and sometimes aeons of Cosmic Momentum given 'unto a child' - relying upon the discrimination, honor, integrity, purity and fidelity of an unascended being not to waste or dissipate this forever.

When the Twin Ray signifies that, for Love, it is willing to make such a sacrifice, the Tribunal gives Its blessing to both parties, and a date for the union is set, and each of the Rays is given into the protection of Beings who prepare them for that hour.

The Sun of the System to which the lifestream belongs performs the actual ceremony. For instance, Twin Rays from Venus are re-united before the Grand Altar of their Sun; Twin Rays from the Earth before Helios and Vesta; and Cosmic Twin Rays before the Great Central Sun of the System. As they kneel again, and the Cosmic Circlet unites their Heart Flames for Eternity, truly, truly can it be said:

"WHOM GOD HATH JOINED TOGETHER,
LET NO MAN PUT ASUNDER!"

ON 'THE SECOND DEATH'

By Lord Maha Chohan - July 8, 1951

****

The outer self that proceeds through the universe in search of God increases its Light according to the use of the energy in each successive life, or increases the accumulation of shadows which forms the karma of the future.

The purpose of the contact with the Master is to increase the thirst of the outer self for Spiritual Light, so that, through conscious application, one day the spark of Light might become Flame and the Second Birth be achieved.

The Chamber in which the Spark of Divinity is held is an airless cell, and it is capped. The personal self must provide an atmopshere of Light before the Cap can be removed and the Spark, in Its first contact with the third dimensional realm finds Itself in a protective aura of spiritual essence like unto Itself, thus being fanned into Flame rather than being extinguished. Premature birth of the physical body aftimes results in the stillborn infant. The Spiritual Birth is, in like manner, a most delicate time, and every effort is made to prevent a like manifestation when the new Christos is delivered from the tomb (the airless cell).

All through the soul's journey from the beginning of time, the Spark of Immortality has been held within this Chamber, so that, no matter how dark the shadows became, they could not touch this Immortal Fire; BUT, once the capstone has

been removed and the Fire of the Spirit is loosed, the lifestream either becomes immortal or experiences the 'Second Death'. You will see, then, that it is not lightly that the capstone is removed and the soul entrusted with providing and holding the necessary atmosphere for the Sacred Fire - the original Gift of the Creator which, emitted through the outer self, is the life and light by which the ego moves about, but never did mingle with its activities in its fullness.

The lung cavity is like a rock-hewn chamber. In the center is the Sanctuary (heart) where the Holy of Holies dwells -- a Spark of Divinity containing the motivation, the intelligence, the pattern of future greatness. The personal self, through the thought and feeling centers, may fill at atmosphere of the breast with any quality it desires, BUT, until it consciously provides a spiritual atmosphere like unto the Kingdom from whence the Spark has come forth, the Wisdom of Life will not allow the Fire of the lifestream to actually contact and become one with the outer representation, for it is delicate in the extreme, and would return to the Fourth Dimension if it did not find a natural element in the lifestream to which its vibration corresponded. If this was done, so far as the personal ego is concerned, the 'Second Death' would be the result.

As the outer self begins, through application, devotion, adoration and prayer, to change the atmosphere surrounding the Spark of Divinity within the heart, such an one signals to the Spiritual Watchers that he is ready for the help of the Master in preparation for the Second Birth. The experiences of life are all then directed toward this 'prenatal' development, and all of

Heaven cooperates in preparing for a new Cosmic Birth.

At the same time, the Spark of Divinity begins to take on the form of the Holy Christ Self within the little cell in which it lives, in somewhat the same manner in which the physical body takes form in the mother's womb, and it grows into a tiny, but perfect, figure of the Christ Self. This is referred to in all the old Spiritual Teachings as 'the little man no larger than the thumb' that lives within the heart. To the unawakened, the Spiritual Spark is like a tiny unformed Flame; to those awaiting the Second Birth it is a Perfect Being - of infinitesimal size, however.

When the soul's atmosphere has attained a certain amount of Light, and the periphery of this atmosphere, which is the emotional or thought and feeling aura, has been tested time and time again for weak spots or breakage lest the winds of adversity flow in after the tiny Spiritual Being is released, the final initiation for the individual takes place. This initiation sometimes takes years to accomplish, as every external force is drawn and pitted against the evolving soul Light, for the Father - God does not lightly give His Flame into the keeping of any individual being. When the lifestream is found ready, the Initiator stands by, the airless cell is opened; and the new Spiritual Being enters the prepared atmosphere of spiritual Purity where, experiencing no shock to Its essence because of the similarity of radiation, It soon expands with a Cosmic onrush and gathers into Itself the remaining activities of the outer self. A God-Being is thus made manifest and Flame is His Garment.

If, at this crucial moment, the atmosphere of the individual's feeling world was not pure and harmonious enough, the Flame could be snuffed out, so far as the third dimensional expression was concerned, and that personality would be permanently refused another opportunity to redeem itself. The "I AM" Presence would never again send forth that Spark through such an one, and the result would be what the Spiritual World has called the 'Second Death'. On occasions, in the past, because all of the forces of evil are present at such an initiation, this has, unfortunately, taken place.

BUT - in the latter part of 1897, WE WERE ASSURED THAT THERE WOULD NEVER AGAIN BE A 'SECOND DEATH', AND, THOUGH THE PROCESS OF SPIRITUAL EVOLUTION IS SLOWER, IT IS ABSOLUTELY SURE, AND IMMORTALITY IS ASSURED BY GOD FOR EVERY REMAINING LIFESTREAM BELONGING TO THIS EARTH.

This was Kuthumi's PARTICULAR SERVICE TO LIFE for which may the Universal God of Gods bless Him forever, and for which the unconscious beneficiaries must one day offer conscious gratitude in a better and more perfect race.

MAHA CHOHAN

THE CAUSAL BODY AND COLORS OF THE SPHERES

By Lord Maha Chohan - January 18, 1953

****

The beautiful colors of the Causal Body are representative of the Seven Spheres of Consciousness which is the natural aura of the Sun of our System and, to a lesser degree, is the externalized amount of qualified energy that each lifestream is endowed with as it progresses from the pure state of innocence. Each man's aura is colored according to the qualification of his energy and according to his particular service.

The interest which the students showed, the other evening, in wearing the colors of the day, was brought to My attention by the Master Saint Germain, and I thought that it warranted an explanation for those who choose to avail themselves of the concentration of power which does flow through the Causal Body of the Godhead, emphasizing the gifts, powers and activities of each Sphere successively in the course of the Seven Day Cycle.

Helios and Vesta, through the natural process of living, radiate Electronic Light from the Heart Center of Their Beings through all the various spheres, but in each twenty-four hour period They emphasize the Gifts and Powers of one sphere particularly through the Great Elohim, Archangels and Chohans who represent that Sphere and Ray.

This accounts for the fact that individuals are more vital on the day when their Ray is accentuated, because all of the faculties, powers and capacities of the lifestream are used as

facets by which their Ray is externalized in that twenty-four hour period.

Individuals who are not members of the Ray which is active in the twenty-four hour period can magnetize those currents through themselves by wearing the color of that Ray during this period if they choose to do so.
